AN OLD RECIPE
TO DARKEN HAIR

Sage Tea and Sulphur Turns
Gray, Faded Hair Dark
and Glossy.

Almost everyone knows that Sage
Tea and Sulphur, properly compounded,
brings back the natural color and
lustre to the hair when faded, streaked
or gray. Years ago the only way to get
this mixture was to make it at home,
which is messy and troublesome.
Nowadays we simply ask at any
drug store for "Weyl's Sage and Sul-
phur Compound." You will get a large
bottle of the old-time recipe improved
by the addition of other ingredients,
at a very little cost. Everybody uses
this mixture now, because no one
can possibly tell that you darkened
your hair, as it does it so naturally
and evenly. You dampen a sponge or
soft brush with it and draw this
through your hair, taking one small
strand at a time; by morning the gray
hair disappears, and after another ap-
plication or two, your hair becomes
beautifully dark, thick and glossy and
you look years younger.

OPIMUM IS BEING SMUGGLED INTO UNITED STATES

Through Canada According
to Figures Revealed to
Parliament by the Minis-
ter of Health.

MINISTER PLANS
TO ESTABLISH
Greater Measure of Control
Over the Traffic in Canada
of Opium and its Deriva-
tives.

Ottawa, April 26.—Indications that
opium is being smuggled in large quan-
tities from Canada into the United
States are contained in figures of Cana-
dian imports of the drug read by
Hon. N. W. Rowell, Minister of Health,
before Commons. A year ago, said
the Minister, the quantity of opium
and opium products such as morphine
and cocaine imported into Canada had
reached 37,210 pounds, an increase of
about eight hundred per cent in five
years. Consumption in Canada did not
explain the increase, and the Depart-
ment of Health had every reason to be-
lieve that stringent regulations in the
United States had driven those who
trafficked there in the drug to bring
the supplies into Canada and smuggle
them across the international bound-
ary. These people were then in pos-
session of quantities of the drug not
registered with the authorities and
therefore free from the regulations
which require that disposition of every
ounce of the drug be reported.

In explaining his amended opium
and drugs Act to the House, Mr. Row-
ell stated that it was aimed to estab-
lish a greater measure of control over
the traffic in Canada of opium, mor-
phine, cocaine, heroin and cocaine.
The effect of the first Canadian leg-
islation in 1908 had been to reduce the
imports of these drugs in Canada until
in 1910, they had dropped in two years
from 81,000 pounds annually to 8,419
pounds. In 1917 they rose to 20,000
pounds and continued to increase to
about 37,210 pounds in the three years
ending March 31, 1919.

Health Department in Charge
The Department of Health was then
formed and took over active adminis-
tration of the law regarding opium in
Canada. The succeeding ten months
saw a decrease in imports to 7,995
pounds. However, in the three years
up to March 1, 1919, about 80,000
pounds of opium drugs had been im-
ported as against 19,000 pounds in the
three years ending March, 1914.

Canadian authorities in touch with
the situation had very little doubt that
much of this was being marketed in
the United States without the legal
supervision of that country, and the
present legislation, now submitted for
second reading, was aimed to control
the traffic through Canada. On sec-
ond reading of the bill Mr. Rowell ex-
plained to Mr. Andrew Thompson,
(Unionist) that Canada was a party to
the International Opium Convention
which had been signed at Shanghai
in 1909 and which subsequently was
made a part of the Treaty of Peace
with Germany. It was provided that
when the Peace Treaty was ratified,
such action would automatically ratify
the Opium Convention. Canada was
now taking steps to limit and control
the sale and distribution of opium and
its derivatives in accordance with the
regulations of that convention.

IMPORTANT DECISION
RE-BILINGUAL LANGUAGE
Resulted When Plaintiff in
Suit to Recover \$65 Won
Verdict in Montreal Court.

Montreal, April 26.—In the case of
Tusich versus Chikla, Limited, Judge
Lebeuf, in the Circuit Court today,
gave an important decision on the bi-
lingual question. The plaintiff was
claiming the sum of \$65.00 for an
overcoat and a pair of gloves stolen
when deposited in the restaurant. De-
fendant stated that notices were posted
in the restaurant disclaiming any
responsibility for lost or stolen articles
and pointing out that a cloakroom was
at the disposal of clients. The plaintiff
through his lawyer, although both
were English-speaking, testified that
these notices could not be taken into
consideration, since they were in En-
glish only, and the laws of Quebec pro-
vide made it necessary that a public
notice should be in both languages.
The court upheld this view and gave
judgment in full for the plaintiff, to-
gether with costs against defendant.

ERNEST SMITH TALKS OF DODD'S

KIDNEY PILLS.

Quebec Man, Grateful for the Benefit
It Has Received, Pays Tribute to
Dodd's Kidney Pills.

Grand Pabos, West Que., April 26th
(Special).—Mr. Ernest Smith, a
highly respected resident here, is
one of the many who have abiding
faith in Dodd's Kidney Pills as a rem-
edy for sick kidneys.

"I suffered from my kidneys," Mr.
Smith says, "and I read that Dodd's
Kidney Pills were good, so I tried
them. They have helped me so much
that I will continue to use them when
my kidneys trouble me."

The kidneys require constant atten-
tion if good health is to be main-
tained and serious disease ward-
ed off. The kidneys perform a most im-
portant work in the human system. They
strain all the impurities, all the seeds
of disease, out of the blood. When
they are weak and unable to do their
work the system clogs and sickness
is the result.

Ask your neighbors if Dodd's Kid-
ney Pills are not the best remedy for
weak, ailing kidneys, or disease of kidneys.

there should be discontent in Canada
when he fails to press the Dominion
point of view as Ottawa wants it pre-
sented. Just now there is a rather bitter
feeling in Canada with regard to the
objection in Washington to special rep-
resentation of the Dominion on the
League of Nations, and this is a ques-
tion which can be handled more effi-
ciently between the Canadian Govern-
ment and the Washington Government
than by any government of ours.

BIG DECREASE IN CRIME IN NEW YORK

Albany, N. Y., April 26.—There
has been a decrease in crime in New
York State since national prohibition
became effective, according to Sec-
retary of State Hugo. Statistics on
crime, prepared by his office, show
that while 57,319 persons were con-
victed in the courts in 1918 the num-
ber dropped to 55,309 in 1919.
Stenographers as a whole behaved
better last year than the twelve
months preceding, all but a dozen
keeping out of the courts as compared
with 16 in 1918.

Chorus girls and manicurists were
100 per cent, perfect, insofar as court
records go. Editors and printers did
not make so good a record, however,
two of the former and forty-six of the
latter having been convicted of crime.
Of the reporters the name of only one
is included in secretary Hugo's list.

A big increase in the number of
farmers who get into trouble is shown
227 minus since 1908. Of the number
compared with 149 the year before.
Machinists numbering 221 as com-
pared with 184 also appeared for sen-
tence.

The names of eight lawyers appear
on the list.

engineering in the University of Mani-
toba. "It will not be necessary for
people to construct costly houses with
a great deal of expensive material for
the purpose of keeping out the cold.
I believe I have discovered something
that will eliminate all the drawbacks
of cold," he said. "People will not
have to consider the climate to any-
thing like the extent they do now and
they will enjoy conveniences that are
not possible now." Professor Dorsey
expects to have some dwellings con-
structed here this summer which will
demonstrate the efficiency and value
of his invention. Details of the in-
vention were not given out as he is
preparing to obtain patents.
