

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs,
such as Coughs, Colds, Whooping
Cough, Bronchitis, Asthma,
and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effective remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power, and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is inadequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and commands the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence, and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, CHERRY PECTORAL is invaluable; for, by its timely use, malady is rescued from premature graves, and saved to this love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Laryngitis and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no test or trial is spared in making every bottle in the utmost possible perfection: It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

Ayer's Cathartic Pill.

For the relief of all disorders of the bowels, and all diseases of the stomach, liver, and spleen. They are a safe, pleasant, and excellent purgative. Being purely vegetable, they cause no nervous or cerebral weakness, or serious sickness, suffering is prevented by their use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the best, surest, and best of all the Pills with which the market abounds. By their use, the blood is purified, the obstructions of the bowels expelled, obstructions removed, and the machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, stimulated into action. Thus impudent disease is changed into health, the value of which cannot be reckoned on the vast multitudes who use it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or the occupation.

Full directions are given on the wrapper of each box, how to use them as a Family Pill, and for the following complaints, which it cures rapidly.

For Dyspepsia or Indigestion, Flatulency, Laxation, and Loss of Appetite, should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headaches, Sick Headache, Jaundice or Green Sickness, Icterus Colic and Bilious Fevers, they should be judiciously taken for each case, to correct diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but mild doses are generally required.

For Rheumatism, Gout, Gravel, Irritation of the Heart, Pain in the Side, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change the complaints disappear.

For Dropsy and Dropsical Swelling they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression, a large dose should be taken, as it produces the desired effect by a cathartic.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach, bowels, restores the appetite, and invigorates the system. Hence it is often advantageous with no serious derangement exists. One who is tolerably well, often finds that a dose of the Pills makes him feel decidedly better, from its cleansing and renovating effect on the digestive apparatus.
