Germany Ordered to EVERY APPLICATION Pay Twenty Billions Before First of May

Article 236 of Versailles Treaty Stipulates Payments Must Be Made in Gold, Commo dities, Ships or Securities-Expenses of Armies of Occupation Must First Be Met -Germans Only "Wasting Time" to Further Delay

Paris, March 15.—Germany was yesterday called upon by the allied reparations commission to carry out Article 235 of the Versailles Treaty, which stipulates that Germany must pay before May 1, 1921, the equivalent of 20,000,000 yold marks. The treaty provides that this payment may be made in gold, commodities, ships, securities or other valuable articles, and that out of this sum the expenses of the armies of occupation are first to be met. The commission also toolt steps to carry out Article 233 of the treaty, which provides that Germany must be notified before May 1 next of the total amount of war damage imposed upon her by the treaty.

"If Germany persists in refusing to make payment," says the Petit Parisien in discussing the action of the com-

make payment," says the Petit Parisien in discussing the action of the commission, "she will force us to impose upon her the integral execution of the treaty.

"That was the significance of yesterday's meeting."

Germany Wasting Time.

In discussing the protest made to the League of Nations by Germany against the penalties being enforced by the Allies on Germany, because of her refusal to carry out her reparations obhigations, the Petit Parisien remarks that the Germans are "losing time and making trouble."

"The supreme council." it continues, "has decided upon advice of French and English experts that the penalties will be applied, not only because of Germany's evasion of reparations payments or her refusal to carry out the terms of the Paris agreement, but because of all evasions of, the obligations which the treaty imposes upon her.

MEETING ENDS IN FIGHT.

Duesseldorf, March 15.—Radical communist carpenters invited a number of French soldiers to assist at a union meeting here last night. The soldiers, because of the revolutionary character of the addresses, refused to stay, and it became necessary to call in the local police to assist in quelling the fighting which ensued. None of the soldiers was injured.

GERMAN OFFICER SHOT.

Berlin, March 15.—Captain Luschin of the German plebiscite police in Upper Silesia, was shot while riding with French and British officers, says a distancy to the Vossische Zeitung today from Koenigschutte, Silesia.

At Michaelkowitz a collision occurred between plebiscite police and Poles in the course of which several Poles and two plebiscite officers were severely wounded.

Says Trustee Regarding Position of Secretary

FOR BOARD OF EDUCATION

Action Likely To Be Further Postponed at Next Meeting.

While consideration of the applications for the position of secretary of the board of education was laid over on Friday last till 4:30 Wednesday afternoon, it is possible that the matter will have to be still further postponed as a result of the city council's demand that the board's estimates be revised again to the extent of \$70,000.

The official notice of the special meeting of the board, issued to the trustees today by Secretary Tanner, places the matter of revision of the estimates first and the discussion of this matter will likely occupy the whole hour and a half which congitutes the legal time the board may sit without the passing of a motion to extend the time.

"No consideration of the applications in the hands of the board has taken place," emphatically declared one of the trustees today. "At least, not to my knowledge. It was clearly understood that the whole list would be considered by the board as a whole, and if there is any attempt by any clique or outside influence to give any of the applicants any boost or undue advantage before the board takes the matter up I shall have something to say."

"What about the publication of the names of three of the applicants in an outside paper?" asked the reporter.

"That was a deliberate breach of confidence on the part of some trustee or official of the board, apparently," replied the trustee, "and as such should demand a full investigation. Personally, the very fact that those names were published would lead me to strenuously oppose the appointment of any of them, no matter what their qualifications, but the matter is one which the board must deal with. I am only an individual."

Illicit traffic in German and Austrian gold and silver coins and in narcotics was said to have made large profits for the band that invested large capital in constructing the passage which runs through a frontier forest. Several persons were arrested. The first tunnel discovered was used chiefly for avoiding payment of customs due on food and merchandise. A handsome young woman was betrayed by a discontented member of her gang as the chief. She proved to be a person of some prominence, owning several villas in Bregenz, Austria, where she lived in lavish style.

Ottawa, March 15.—(Canadian Press).

Militia headquarters today confirmed the dispatch from Toronto to the effect that the minister had wired instructions that use of the armories at Windsor should be allowed for a lecture under the auspices of the Dominion Alliance. It was stated that there was nothing unusua! in this. The armories are used for a number of purposes, and as long as there is no interference with military regulations and the rules for fire protection, etc., are observed, no objection is offered.

The minister had written to Col. Rob.

to Great Extent-Burden Must Not Be Allowed to Fall Entirely On People of British Isles, Declares the London Telegraph—Co-operation Is Required.

London, March 15.—Canadian Associated Press.—Discussing the naval estimates and the question of the development of Dominion navies, the Daily Telegraph remarks that while the Dominions enjoy the advantage of autonomous government under the protection of the Imperial navy, their total contributions to naval defence now amounts to less than a quarter of a million pounds. The Dominion statesmen have admitted the Telegraph says, that this does not accord with the proper feelings or self respect of the Dominions. The solution of the problem of establishing a partnership of the Dominions in the matter of naval defence is fraught with many difficulties, and it is for the

of naval defence is fraught with many difficulties, and it is for the Dominions rather than for the mother country to determine the manner of meeting their responsibilities. It would be foreign to the whole trend of Imperial policy, the Telegrap's proceeds, for the admiralty to attempt to impose any scheme of co-operation without the consultation and approval of the Dominions.

The Telegraph points out that in order to maintain even a modest standard of naval strength the mother country must spend two pounds per head of population, and it expresses belief that the Dominions will not be content to allow the whole of this burden to rest upon the shoulders of the people of these islands.

U. S. WILL COLLECT HALF A

Washington, March 15.—The people of the United States today had their annual day of reckoning. Their laboriously-reckoned incomes and business profits for the year of 1920 were presented in the form of business and excess profits tax returns to collectors of internal revenue throughout the country. The United States Government, as a result, will be richer tonight by approximately \$500,-000,000, according to an estimate by Secretary of the Treasury Mellon. But the riches will not be for long, for the receipts will be needed immediately to retire short-term borrowings or certificates of indebtedness issued by the Government, amounting to \$500,000,000. Some financial experts at the treasury expect today's income and excess profits receipts to approximate \$600,000,000. Receipts a year ago today were \$800,000,000, but the general depression experienced during the last half of 1920 was expected to decrease the amount.
