

**GALVANIZED STEEL BUCKETS**

Improved Pattern.

Improved Pattern.

Something entirely new, and superior to old style Buckets, made in three sizes.

They are superior to the ordinary Flaring English Bucket, being of greater capacity.

They are stronger in shape, consequently more durable.

They will not slop over or tip over, owing to the wide bottom.

They nest very close and firm, which protects them in shipping.

The rim is in one piece with the body, consequently cannot get knocked off.

They are Galvanized and not lead coated.

For Sale by all Wholesale Hardware and Tinware Houses

**DRAPER'S IMPROVED**

Patented

Constructed to prevent Scale or Corrosion of Dirt  
being Caught between faces at  
point of closing.

When the projection on valve enters the  
seat orifice, of which it is an easy fit, only  
clean fluid enters past. Scale, etc., are  
pushed back and the faces meet with nothing  
between to injure them. Send for prices and  
particulars to
