How are you fixed when goods arrive?

DOES your shipping room present a scene of noisy, bustling disorder? Are you compelled to clog or temporarily paralyze the running of your business by shorthanding your various departments in order to accommodate fresh shipments as they arrive? Or, is it possible for any or two men to take hold and expeditiously, economically and safely---without waste of time or energy---dispose of the goods systematically and in proper arrangement. Your answer depends upon whether or not you use

OTIS FENSOM FREIGHT ELEVATORS

In point of utility, convenience and economical efficiency, your Otis-Fensom Elevator bears the same indispensable relation to modern business as the telephone, typewriter and electric light. It makes for decidedly improved business conditions. It saves labor---it saves time---it saves calling clerks, salesmen or other employees from their regular duties in the store or office. It enables you to keep your ground floor clean and inviting, and to use all of the ground floor space for salesmanship and display. It does away with expensive hand labor and substitutes mechanical facilities that keep pace with the increasing demands of your business.

For those "Comfy" Little Evenings

SOME chatter, some music and--how would a little something to eat, cooked in an electric chafing dish, do? It makes most gatherings awfully jolly. It is so much easier, too, than musing about a hot stove in the kitchen. If you have never seen an electric chafing dish in operation, drop in some afternoon while you are shopping, or ask about them at the Comfort Number, Main 3975.
