STEEL FILING CASES ARE FIRE-PROOF

WHEN you build a vault you do so to provide a safe place for your valuable business records. But did it ever occur to you that to fill a vault with wood shelving and filing cabinets is like putting wood into a furnace? The furnace won't burn up, but the wood will. Therefore, when you build a vault, or perhaps you have one now, install steel non-burnable shelving and filing cases, and absolutely protect your business records.

We have an interesting Catalogue on Steel Filing Cases and Cabinets, both stock and special. We will gladly send a copy free, or our representative, or both.

A NERVE AND BRAIN FOOD

Wilson's Invalids' Port

(A la Quina du Perou)

Contains extract of Chinchona Bark and pure Oporto Wine in a natural state of combination in a greater degree than any other similar product.

ASK YOUR DOCTOR

Stop, Madam! Do not throw out that old piece of furniture.

It's marred and the worse of wear, true, but some of your fondest recollections are associated with it. "Lacqueret," the specially prepared Lacquer, will restore its original beauty, concealing the mars and blemishes of wear and tear and making it as good as new. The next best thing to a new suite for any room in the house is a coat of "Lacqueret"—the wonderful furniture renewer.

Our free booklet, "Dainty Decorator," tells the story of "Lacqueret"—the home beautifier. A post-card brings it. Interesting and informing. Write for it to-day.

Leading Hardware and Paint Dealers sell "Lacqueret."
