NOTE FOR MR. HEENEY

My suggestion for revision of the annexed draft Terms of Reference would be to strike out clauses (b) and (c), substituting therefor a new clause (b), which would be as follows:

(b) of modifying or altering the said recommendations in so far as they relate to awards of honours and decorations which do not involve titles.

2. This would limit the scope of the committee's activity to the field covered by the report, excepting awards involving titles. It would enable the committee to reconsider the recommendations relating to such matters as "Right Honourable", "C.B.", "C.B.E.". If, however, it is intended that the committee should not be authorized to deal with the recommendations with regard to "Right Honourable", the substituted clause should read as follows:

(b) of modifying or altering the said recommendations in so far as they relate to awards of honours and decorations which do not involve titles or titular distinctions.
