

You Can Always Keep an Avery Tractor New

AVERY Tractors really never get old. Even after years of service, you can always make them new again. The Avery is the only tractor with which this can be done.

Avery design is the reason why. You know the cylinder walls of a tractor motor get the hardest wear of any part. In the Avery "Draft-Horse" Tractor Motor the inner cylinder walls are renewable. Think what this means. They are cast separately from the main cylinder. *Result: three big advantages.* They are made of harder material to withstand the wear; they can be turned from time to time to equalize any wear that may take place; and they can be replaced at small expense when worn. No need to buy complete new cylinders; no need to tear the motor down completely, haul it to a repair shop, rebore the cylinders and turn up oversized pistons, etc. All this trouble and expense is eliminated in the Avery by having removable walls which, whenever needed, cost but a few dollars and are easy to renew.

Always Ready for the Job

In Avery Tractors all easily broken parts are eliminated, all main parts last indefinitely and all wearing parts are adjustable or renewable. Every adjustment, repair or replacement can be

done on the farm. It's so simple most Avery owners are their own service men. They save time, money and depreciation on their investment. And what's more, they have a machine that's always on the job.

Other Exclusive Features

Averys are the tractors with the "Draft-Horse" Motor, "Direct-Drive" Transmission, Kerosene Gasifiers, Valves-in-Head, Two-Bearing Practically Unbreakable Crankshafts, Round Radiators, etc. Sold at popular prices, including complete equipment such as cab, seat, platform, fenders, etc.

Write for Avery Catalog

showing a size Avery Tractor for every size farm. Sizes: 8-16 H. P., 12-25 H. P., 14-28 H. P., 18-36 H. P., 25-50 H. P., 40-80 H. P., a special 5-10 H. P. for light work, the Avery Motor Cultivator, and Plows and Separators to fit any size tractor.

Also ask for special interesting Tractor Hitch Book—explains how to motorize your farm work. See sample machines at your nearest Avery dealer.

Avery Adjustable Box

One at each end of the two-bearing crankshaft. Quickly adjustable with an ordinary socket wrench.

Avery Renewable Cylinder Wall

Can be turned from time to time to equalize wear and replaced with a new one when necessary. Keeps your motor from "getting old."

Avery Chassis

Showing "Draft-Horse" Perfected Opposed Motor and "Direct-Drive" Sliding Frame Transmission.
