

REAL ESTATE TRANSFERS.

The following transfers of vacant property in Toronto have recently been registered:

Hallam st., n. s., west of No. 158, Kate Peglar to Henry Braun, 44x132, sale price, \$200.

Albany ave., w. s., n. of No. 102., Alice Brown to John Ausman, 25x133, sale price, \$875.

Havelock st., w. s., n. of 230, Clarence M. Bernard to Wm. Minto, 50x143, sale price, \$975.

Bathurst st., e. s., north end, Hamilton Cassels to Lindley H. Bowerman, 200x200, sale price, \$3,750.

Shaw st., w. s., n. of No. 346, Lucy T. Treadgold to Mary A. Baunliard, 49x120, exchange.

Among masonry arch bridges the following probably excel in span and rise: Luxembourg, in the Grand Duchy, 275 feet span, 24 feet rise; Morbegno, Italy, 230, 33; Cabin John, United States, 220, 57; Jaremeze, Hungary, 213, 59; Grosvenor, England, 200, 42.

The fact that brick and stone masonry work has been carried on uninterruptedly in Winnipeg since cold weather set in is another evidence that the winter climate of Manitoba is moderating, and also indicates the pressure that the building trades are under to complete contracts. A few years ago it was regarded as a remarkable thing to lay shingles during the winter season.
