Fire & Burglar-Proof Safes!

We make all sizes, but our small Safes for farmers are taking the lead, as they are just as well made as Safes that cost ten times as much. Remember, delays are dangerous. Send for catalogue. Buy a Safe and rest secure from fire and burglars.

This paper is using two of my large safes in their main offices. We also manufacture vault doors of every description, cash and parcel carriers and cash registers for stores. A good agent wanted in every town. Send for circulars, and I will help you make money.

PROVAN'S

(Improved Malleable and Steel)

HORSE FORK and SLING

IS THE BEST MADE

SIMPLE, STRONG, DURABLE

Many farmers who had other kinds have taken them down and bought mine after seeing it work.

My Machine Handles Sheaves as well as Hay and Peas—It is the Simplest and Best Stacker Manufactured.

It has been in successful competition with the best in the market during the past seven seasons. Its superiority to all others places it beyond doubt, as it is positively the only Double-Acting and Self-Reversing Machine on the Continent that has the following advantages:—A loaded fork or sling can pass the stop block. The pulleys can be instantly lowered or elevated to their position. This avoids all climbing or untying of the whiffletrees. The track as a strengthening brace, never warps, and is stronger and better adapted for unloading at the gable, as well as the centre, than any other. It is easily moved from one barn to another. The track used for this car is the best for the following reasons:—It is round; the car runs easily, and is not affected by a side pull. Any boy can change it with ease. Pulleys can be instantly raised or lowered at pleasure.

GUARANTEE.

We guarantee every Machine sold by us to do first-class work, and to unload one ton of hay in from three to five minutes, when properly handled and put up, and if it fails to do so, will be taken back and money refunded.

SENDING TO FARMERS ON TRIAL.

It has been for years a part of our business to send our machine on trial to fair-minded responsible farmers living at remote distances, such machine to be put up by them and used until their harvesting is half done, when they are required to decide whether they will keep the apparatus or return it; if the latter, we will pay return freight charges.
