hands, one of which she kept pressed to her lips. They all looked at her expectantly, waiting for her to speak again, for her eyes were wide open, and fixed with a look of ineffable love upon the face of Pierre, looking like life after life was fled. She still held him in her rigid clasp, but she moved not. Upon her pale lips a smile seemed to hover. It was but the shadow left behind of her retreating soul. Amelie de Repentigny was dead! The angel of death had kissed her lovingly, and unnoticed of any she had passed with him away.

The watchful eye of the Lady de Tilly was the first to see that Amelie's breath had gone so quietly that no one caught her latest sigh. The physician and chaplain rushed hurriedly into the chamber, but too late. The great physician of souls had already put his beloved to sleep—the blessed sleep, whose dream is of love on earth, and whose waking is in heaven. The great high priest of the sons and daughters of men had anointed her with the oil of His mercy, and sent his blessed angels to lead her to the mansions of everlasting rest.

The stroke fell like the stunning blow of a hammer upon the heart of Pierre. He had, indeed, foreseen her death, but tried in vain to realize it. He made no outcry, but sat still, wrapped in a terrible silence, as in the midst of a desert. He held fast her dead hands, and gazed upon her dead face until the heart-breaking sobs of Heloise, and the appeals of Mere Esther, roused him from his stupor.

He rose up, and lifting Amelie in his arms, laid her upon a couch tenderly and reverently, as a man touches the holiest object of his religion. Amelie was to him a sacrament, and in his manly love he worshipped her more as a saint than as a woman, a creation of heavenly more than of earthly perfections.

Pierre bent over her and closed for the last time those dear eyes which had looked upon him so pure and so lovingly. He embraced her dead form, and kissed those pallid lips which had once confessed her unalterable love and truth for Pierre Philibert.

The agitated nuns gathered round them at the news of death in the Convent. They looked wonderingly and earnestly at an exhibition of such absorbing affection, and were for the most part in tears. With some of these gentle women, this picture of true love, broken in the midst of its brightest hopes, woke sympathies and recollections which the watchful eye of Mere Migeon promptly checked as soon as she came into the parlor.

The Lady Superior saw that all was over, and that Pierre's presence was an uneasiness to the nuns, who glanced at him with eyes of pity and womanly sympathy. She took him kindly by the hand, with a few words of condolence, and intimated that, as he had been permitted to see the end, he must now withdraw from those forbidden precincts, and leave his lost treasure to the care of the nuns who take charge of the dead.

CHAPTER LIV.

"The Mills of God Grind Slowly."

Pierre was permitted to see the remains of his affianced bride interred in the Convent chapel. Her modest funeral was impressive from the number of sad, sympathizing faces which gathered around her grave.

The quiet figure of a nun was seen morn and eve, for years and years after, kneeling upon the stone slab that covered her grave, laying upon it her daily offering of flowers, and if the name of Le Gardeur mingled with her prayers, it was but a proof of the unalterable affection of Heloise de Lotbiniere, known in religion as Mere St. Croix.

The lamp of Repentigny shed its beams henceforth over the grave of the last representative of that noble house, where it still shines to commemorate their virtues, and perpetuate the memory of their misfortunes, but God has long since compensated them for all.

Lady de Tilly was inconsolable over

CANADIAN GROWN Strawberry Plants

BUY YOUR PLANTS from a successful Ontario grower—one who is producing from ten to fifteen thousand boxes of berries an acre. I grow only those varieties that have proved to be the best for productiveness, flavor and keeping. I consider the following varieties among the best to grow:

Sample (female).—Late, productive, large, attractive. Canning factories value this berry very highly.

Enhance (male).—Late, the best pollinizer for the Sample. Productive, dark red, one of the best canners, will remain on the vines ripe, in good condition, longer than any other berry that I grow.

Senator Dunlap (male).—Medium season, productive, large, very attractive, and every strawberry grower should have quite a large proportion of his crop of this most desirable variety. Good plant maker.

Splendid (male).—Medium season, productive on all kinds of soil, and holds up its size to the last picking. Good plant maker. Rightly named Splendid.

Williams (male).—Late, productive, most generally planted of any berry grown in Ontario; canners' favorite, but should be left on the vines until well ripened, otherwise will have a green tip.

Aroma (male).—Late, productive, best long-distance shipper I grow.

3 W's (male).—Have not thoroughly tested.

In buying your plants from Ontario growers you save your duties and heavy express charges. I can assure you that you will get better plants than I ever got from the so-called pedigreed or thoroughbred plant growers, and I have heard many others of our Canadian growers express themselves likewise.

My price for any of the above varieties is \$4.00 a Thousand, C. O. D. If the plants are not as represented your money will be refunded. You can depend upon getting the varieties asked for, as I DO NOT SUBSTITUTE.

Make a big profit from every Cow

Do you know what your cows are doing? Do you know which ones are profitable— which ones are eating their heads off? It will pay you to get rid of the robber cows.

The Automatic Milk Scale and The Facile Jr. Babcock Tester

will show you in a short time which cows in your herd are paying a profit.

The Automatic Scale is made especially for weighing milk in the pail. There is a loose indicator on the dial that can be set at 0 by a thumb screw when the pail is on the hook. Then when the pail of milk is placed on the hook this indicator gives the exact net weight of the milk. It has another indicator that records the same as any spring balance so it can be used for weighing anything up to 30 pounds—larger sizes weigh up to 120 pounds.

The Facile Jr. Babcock Tester is designed especially for use in the dairy in construction and operation. The working parts consist of but two cut gears and they are enclosed in a cast iron case to keep them free from dirt and to prevent their catching clothing, towels, etc. It turns easily without vibration or jar. It is sent complete with glassware, bottle brush, acid and full directions for use. It will pay you to have this scale and tester whether you milk three or thirty cows.

Our free catalog shows everything for milk dealers and dairymen at lowest prices.
