

## FOUST'S PATENT HAY LOADER.

The Foust, from its good working qualities, is pronounced by competent judges to be one of the greatest labor-saving machines of the day, and its superiority is proved by the fact that ten times more Fousts are annually sold than all other makes combined.

Received the Highest and Only Award at the Centennial Exhibition.

Manufactured by **MATHEW WILSON & CO., Hamilton**, manufacturers of Hay Loaders and Hay Tedders.

This machine has been in successful use in the East for several years, and has lately been introduced with great success in Ontario. Each succeeding year has added new evidence of the practicability of the Loader, and shows conclusively the necessity for pitching hay on the wagon in the field by Machinery.

All other work in hay-making has been done by machinery for a long time, leaving the pitching on the wagon the only part accomplished in the same manner and with no greater speed than during the earlier period of hay-making. With the use of the Loader as much time is saved in pitching as is saved by the Mower, Horse-Rake, Horse-Fork, or Hay-Carrier, thereby making it safe for the farmer to cut at least double the amount of grass daily, knowing that he has the facilities for securing it.

**M. WILSON & CO.,** MANUFACTURERS OF HAY TOOLS,  
Cor. Barton and Caroline Sts, HAMILTON, 1282-c

## BROWN'S PATENT HAY LOADER.

Since the first introduction of the Hay Loader, each succeeding year has added every evidence of its practicability, and it is now considered one of the greatest labor-saving machines of the age. It requires no extra men or horses, being attached to the rear of the wagon and operated by the same team that draws the load, adding to the draft the power of one man. It will load a ton of hay in five minutes, taking it up as clean as can be done with a fork. Although originally intended to run on hay raked in wind-rows, it may be used in heavy unraked hay, and will work equally as well in all kinds of loose grain, especially barley.

Also manufacturers of Hay Tedders, Reapers and Mowers, Pitt's Horse Powers, Field and Corn Cultivators, Straw Cutters, Grain Crushers, Sawing Machines, &c.

**YOUNG MEN—Learn Telegraphy or Short Hand.** Situations furnished. Send for terms. Com. and R. R. Tel. College, Ann Arbor, Mich. 281-c

## COGENT REASONS WHY

## THE CHATHAM WAGON

Adopted by the Government of the Dominion of Canada as the STANDARD WAGON, should command your preference:—

The intrinsic cost and value of it is at least \$10 more than any other wagon made in Canada, and any unprejudiced practical man will tell you so, and the thousands who now have them in use say so, because it is not only made from the best, carefully selected and thoroughly seasoned timber and best of iron, but the **skeins** used, made only by us, are superior to any skein made or used in Canada, and are constructed specially to receive our **Climax Truss Rod**, which doubles the strength of the axle; the boxing of the hubs are **pressed**, not wedged in; a guarantee for a year accompanies each wagon, and notwithstanding this additional cost and superiority the **Chatham Wagon** can be purchased at no greater price than is charged for inferior wagons. **Bear in mind**, it is the running gear that carries your load, and no amount of fancy painting on the box will make an easy running and great carrier of a poorly constructed wagon.

Liberal Terms to Parties Buying in Carload Lots.

Correspondence Solicited.
