The Simplest CREAM SEPARATOR Ever Built — DE LAVAL

EXCELS ALL OTHERS not only in thoroughness of separation, sanitary cleanliness, ease of running and durability, but as well in its great simplicity.

THERE IS NOTHING ABOUT THE OPERATION, CLEANING, adjustment or repair of a modern De Laval Cream Separator which requires expert knowledge or special tools.

NOR ARE THERE ANY PARTS WHICH REQUIRE FREQUENT adjustment in order to maintain good running or to conform to varying conditions in the every-day use of a cream separator.

Combination Wrench, furnished with each De Laval machine, which is the only tool required in setting up, taking down or using the De Laval, the simplest cream separator ever built.

THERE IS NOTHING ABOUT THE MACHINE THAT CANNOT be taken apart, removed or replaced by any one who can use a wrench or screw driver. In fact, the only tool which is needed in the use or the operation of a De Laval Cream Separator is the combination wrench and screw driver illustrated above, which is furnished free with every machine. Visit the local De Laval agent and see for yourself its simplicity of construction.

The new 72-page De Laval Dairy Hand Book, in which important dairy questions are ably discussed by the best authorities, is a book that every cow owner should have. Mailed free upon request if you mention this paper. New 1913 De Laval catalog also mailed upon request. Write to nearest office.

DE LAVAL DAIRY SUPPLY CO., LIMITED
MONTREAL PETERBORO WINNIPEG VANCOUVER

This Is The Distributor.
An Exclusive Feature

See the Distributor illustrated above. It's an exclusive feature of the New Idea spreader, protected by patents so no other spreader can have it. This Distributor is placed to the rear of the two cylinders (not a single-cylinder, remember), and, revolving rapidly, distributes the manure in a perfect shower. The

New Idea Manure Spreader

is guaranteed to spread manure over the wheel tracks. It can do so, because the paddles of the Distributor are set at an angle. They distribute the manure at a wider range than is possible when a single cylinder alone does the distributing. Notice, also, the knife edges on the Distributor teeth, which cut up any chunk of manure that might possibly escape the teeth of the two cylinders. Result: Absolutely perfect pulverizing.

But send for catalogue describing every feature of this radically different manure spreader. Learn about the New Idea gearless drive, the conveyor, front axle, rear axle, self-aligning bearings, feeding mechanism, etc. A tested and proven success.

Protect Your Property With Peerless Lawn Fencing

Ornamental fencing serves a double purpose. It not only enhances the beauty of your premises, but also protects it and your children, as well. It keeps out marauding animals and trespassers. It protects your lawns and flowers and always gives your property that orderly, pleasing appearance.

Peerless Ornamental Fencing
is the result of years of fence building. It is built to last—to retain its beauty and grace for years to come and should not be confused with the cheap, shoddy fencing offered by catalog houses. Peerless fence is built of strong, stiff wire which will not sag and the heavy galvanizing plus the heavy zinc enamel is the best possible assurance against rust.

Send for Literature
Shows many beautiful designs of fencing suitable for lawns, parks, cemeteries, etc. Agencies almost everywhere. Agents wanted in unassigned territory.
The Danwell-Hoxie Wire Fence Co., Ltd.
Winnipeg, Man. Hamilton, Ont.

WHERE HAS MY MONEY GONE ?

Ask yourself that question. If you can answer it satisfactorily and have something to show for it, you are one of the few exceptions among our young men. The best way to offset the evil of spending is a Life Assurance Policy. It is a compulsory Savings Bank, and you will be surprised how rapidly your credit column increases. Take a policy now with the

FEDERAL LIFE ASSURANCE COMPANY
