

WINCHESTER

Hunting Rifles

The Choice Of All Sportsmen Of Experience.

The name "Winchester" on a rifle is a guarantee of its accurate and strong shooting qualities, entire reliability of action and superior finish. Winchester rifles represent in accuracy, reliability and quality the highest development in gun making. No matter what you hunt there is a Winchester made suitable for your purpose. Whichever model you select, you will find that it will stand the rough, hard usage that hunting rifles often receive. Winchester rifles are mechanically correct in design, are made of selected and tested materials under skillful supervision. Every rifle is thoroughly tested in every way before it leaves the works. Nothing is omitted in their manufacture that will make Winchester rifles shoot well, wear well and look well.

Winchester Guns and Ammunition—The W Brand—Are Made for Each Other and Sold Everywhere.

A Clean Barn Pays Best

Compare the clean barn above with the old barn shown just below, and you'll see why modern barns, fitted with BT Steel Stalls, pay so much better.

The open construction of the Steel Stalls allows the sunlight to flood every corner. No disease germs, for tuberculosis germs cannot live on steel. It's the old wooden stalls, loaded with dirt and soaked with manure that harbour the germs that kill the best cows.

BT Steel Stalls, etc. Manure Carriers

BT Steel Stalls keep the cows clean, healthy, comfortable. There's a special aligning device on the BT Stalls that lines all the long and short cows up even with the gutter, so the manure falls right into the gutter. No manure on the cattle-stand, none on the passageway, none on the cows. Flanks and udders always clean.

Then, it's an easy matter to run the BT Manure Carrier behind the stalls, throw in the manure and run it, a ton at a time, out to the pile, yards from the barn. BT Steel Stalls and Manure Carrier make your stable as clean as your kitchen and easy to keep clean.

Our catalogue tells many more interesting facts about modern stable equipment. It gives fine views and plans of modern barns. This book is free. If you will mail the coupon we'll send it by return mail.

BARN PLAN SERVICE FREE

For years we have made a special study of dairy barns, not only how they should be equipped, but how they should be designed and arranged so as to be most profitable to the owners.

This special knowledge is at your service, free of charge.

Send us a rough pencil sketch of the floor plan or proposed floor plan of the barn, attach it to the coupon below and mail to-day. We'll make blue-print plans especially for you. We believe we can suggest important improvements in the layout, and probably a saving in cost of materials as well.
