

TELEGRAPHIC.

ZULULAND. London, June 12.—The Times Cape Town advices says two chiefs and three hundred followers from Zululand have been captured. The cavalry visited Isandula and burned the bodies of the soldiers in the battle of the 22nd January. Forty waggons were recovered.

London, June 15.—Lord Chelmsford telegraphed on May 26th that the 2nd division would advance twelve miles on May 28th to Blood River. Commissariats say they have sufficient supplies and transportation to enable the force to advance on or before June 1st.

London, June 16.—A correspondent with Crealock's column writes that it is reported that a large Zulu force watches this column, which advances this week to Fort Chelmsford. A correspondent at Landman's Drift telegraphs 23rd of May and declares that the route of the invasion was not then decided upon. The correspondent adds, the condition surrounding was in purely military details, and was utterly flagrant.

UNITED STATES. Minneapolis, Minn., June 12.—A sad case of poisoning occurred in this city yesterday afternoon. Eleven little girls, four members of one family and five of another, engaged in stringing castor beans for beads, were led to eat a quantity. One of the number finding the taste pleasant, all the others ate more or less of the beans, and were soon after taken with spasms and indications of poisoning, but all save three of the number were out of danger before the night was over, but Sarah, Bertha and Addie Woods were so badly poisoned that little hope is entertained of their recovery. The case creates considerable interest among physicians who have not encountered similar results with the castor bean.

New York, June 12.—The Herald's cable says the Khedive of Egypt received a dispatch from Capt. Gessie, indicating that the slave trade at its chief centre has been entirely crushed in those rich territories of civilization. Capt. Gessie fought seven battles with the slave traders on the Gazelle River. All the slave nations were destroyed, and the establishment of civilized rule will prevent any further raids from the region of the Gazelle.

New York, June 12.—The steamer Olga, from Bremen, arrived this morning and reports that on June 8th she collided with the bark Collier, from Arrandel for New York, the latter sinking immediately. Four seamen and one passenger were lost. The Olga sustained no damage.

Cincinnati, O., June 15.—A destructive storm passed over Southern Ohio and portions of Indiana and Kentucky, yesterday, damaging crops, fences, etc. Lightning struck many dwellings in Salem, Ind. David Mitchell was killed. The railroad depot at Christiansburg, Ky., was completely demolished and 200 trees uprooted. Lightning struck the house of John Hamel, Madison, Ind., seriously injured the inmates.

Fall River, Mass., June 12.—There is every prospect of a strike here should no settlement be reached. Twelve thousand hands will be thrown out of employment, and a pay roll of \$750,000 monthly suspended through the determination of both sides not to consider the question calmly.

Boswell, Ind., June 15.—Yesterday 150 persons took shelter in a lumber shed from a storm. A thunderbolt struck the shed killing instantly two men and fatally injuring two, while two were seriously injured.

TURKEY. Constantinople, June 17.—Confusion amounting to a crisis prevails in Ministerial circles. It is reported that Khedredin Pasha, Grand Vizier, will resign and that Said Pasha will assume the Vizierate temporarily, to pave the way for a return to power of Mahoud Nedim, known as the tool of Russia. British Ambassador Layard endeavors to prevent Mahoud's return. A demonstration is apprehended at Philippopolis when the Prince of Bulgaria is installed at Sofia.

GERMANY. New York, June 12.—The Herald's cable says: A profound sensation was caused in Berlin yesterday by the lighting reception given by Bismarck by the Empress Augusta. The Emperor greeted him with the greatest frankness. It is well-known that the Empress has long entertained a bitter dislike to the Chancellor.

ITALY. Rome, June 15.—The waters of the Po are still rising. In Merandola district 13,000 hectares have been submerged; 500,000 quintals of grain, 600,000 quintals of forage, and 5,000 cattle have been destroyed. Inundations on the Adria are also threatened. There has been destructive hail storms in North Italy.

RUSSIA. Vienna, June 11.—The Telegraph says a *modus vivendi* has been arranged between Russia and the Vatican. The Pope will appoint bishops from ecclesiastics designated by the Czar. The Catholic Synod at St. Petersburg will be dissolved and the Bishops have the right of freely communicating with the Vatican and publishing bulls and encyclicals after they have received the Czar's sanction. Exiled prelates are to be amnestied.

Belgrade, June 12.—Russo-Bulgarian authorities, with a body of Russian troops, have taken forcible possession of the frontier districts claimed by Servia, driving out the Servian officials. The population are angry and discontented at the action of the Russians.

London, June 16.—Advices from Cashmere become more and more distressing every day. The famine is assuming terrible proportions. It now appears to be true that the famine was caused by the cruel action of the Maharajah of Cashmere. He prevented his subjects from sowing crops at the proper time. Then he collected all the grain he could lay hands on, and now he and his agents, having made this corner in corn, are taking advantage of the rise in the price of food to enrich themselves. The Maharajah of Cashmere is a semi-independent prince, but the inhabitants of Cashmere of all races are anxious that the Viceroy should interfere and compel the Maharajah to freely disburse the stores of grain which he and his agents have under their control. The

latest news from Cashmere states that it is impossible to exaggerate the distress which prevails in many districts of the province. Some of the towns and villages have been completely depopulated. The Viceroy has urged the Maharajah to act in such a way as to render it unnecessary for the English Government to interfere, and he has to some extent complied. He is now at Serinagar with Mr. Fanday, assistant secretary of the Panjab Government, superintending some measures of relief.

THE NATURAL REMEDIAL AGENTS IN THE TREATMENT OF CHRONIC DISEASES.

Observing a short time ago, in the *Western Advertiser*, a note from Mr. Knowlton in regard to the efficacy of electricity in the treatment of his case, and calling attention to the Toronto Electro-Therapeutic Institute, where this agent is made a specialty in acute and chronic diseases, I feel it my duty as well as my privilege, to draw the attention of the public more especially to the Electro-Remedial Institute located in the city of London, which has been in successful operation for some time. It is now upwards of two years since I took treatment in that establishment, and the benefit derived there has been permanent; and although my case might not appear so mysterious as Mr. Knowlton's, yet it was a very difficult one to deal with. Since then I have been a frequent visitor at the Institute, and have known much in favor of Dr. Wilson and his patients, and it gives me considerable pleasure in saying that his time is devoted almost exclusively to the treatment of those complaints of which his scientific education makes him master; and such is my estimate, based upon the knowledge of his competent skill, that I believe the claims he puts forth for public confidence are not rather than equal to the facts. It has been my pleasure to look in upon institutions in different places, and I take it that the London Electro-Remedial Institute does not suffer in comparison to any. A truthful statement of my views in regard to efficacy of natural remedial agencies in the treatment and cure of nervous and chronic diseases, and the success which it affords to meet with might appear exaggerated. Yours very truly, Dr. C. H. REYNOLDS, Stathroy.

A GOOD PLAN

Anybody can learn to make money rapidly operating in stocks, by the "Two Entering Rules for Success," in Messrs. Lawrence & Co.'s new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of largest capital and best skill. Thousands of orders, in various countries, are sent into our vast amount, and consigned as a night whole, thus securing to each shareholder the full amount of the largest operator. Immense profits are divided monthly. Any amount, from \$5, \$10, or \$20, can be used successfully. N. Y. *World* Weekly September 20th, 1878, says: "By the combination of 250 small makes \$75, or 3 per cent; 500 pays \$250, or 5 per cent; 1000 makes \$1,000, or 10 per cent on the stock, during the month according to the market." *Frank Leslie's Illustrated Newspaper*, June 29th: "The combination method of operating 250 stocks is the most successful ever adopted." *New York Independent*, Sept. 12th: "The combination system is founded upon correct business principles, and no person need be without money to begin with it." *Brooklyn Journal*, April 29th: "Our editor made a net profit of \$100,000 from one month's trading in the 'Two Entering Rules' combinations." New circular (mailed free) explains everything. Stocks and bonds wanted. Investment funds supplied. Lawrence & Co., Bankers, 57 Exchange Place, N. Y.

JAMES EATON & CO.

CHURCH AND SCHOOL FURNITURE.

We have much pleasure in calling the attention of School Inspectors, Trustees, and others to our new improved Seat and Desk. Owing to our large experience in the manufacture of School Furniture as a specialty, our attention has been directed to the defects in the existing styles of school desks, with the result, we believe, of having produced a seat and desk perfect in every particular. As will be shown by reference to our illustrated catalogue, which can be had on application, the seats are slanted and curved to fit the body perfectly, and fold out of the way when required, and the desks are of the very best support. When folded up for reading, a small ledge keeps the books in place, and the angle of the desk is such that the pupil may sit in an upright and natural position without straining the eyesight in the least. Send for catalogue and price list.
