May 10. 4ins.

The Railroad Convention.

The Government of Canada has arranged with the Governments of Nova Scotia and New Brunswick for a Convention to be held forthwith at Montreal. This looks like business, and may, we

think, be taken as an earnest of the views of the Canada Cabinet. The Provincial Secretary will, we understand, leave for Canada almost immediately. It is said that the subject of a uniform currency is to be brought under the consideration of the Convention. We faintly hope so, and that British sterling may speedily supplant the present absurd and anomalous system which characterizes the monetary institutions of the Provinces.—Recorder

Shubenacadie Canal.

The adjourned meeting of persons favourable to the construction of the above work was held pursuant to notice yesterday, at the Exchange Reading Room. Dr. Avery was called to the chair. The meeting, although not very numerously attended, was composed of intelligent and influential persons. An interesting report from the Committee was read, and a report of Mr. Fairbanks of the cost of constructing a canal, and the probable receipts, &c. The meeting was addressed by the Provincial Secretary, the Speaker, William Lawson, H. Hyde, and other gentlemen, and all present seemed fully impressed with the immense advantage and profit that would be derived from completing the work in question.—After which it was resolved that the reports be received and adopted. Secondly that the Committee be a Committee to negotiate with the local Government for the purchase by them of the equity of the mortgage of redemption shortly to be sold under a decree of the Court of Chancery, and in the event of the Government declining to become purchasers, to take such other steps as may be necessary for forming a company to purchase the property. Dr. Avery, Wm. Lawson, Henry Pryor, C. W. Fairbanks, H. Hyde, and Andrew Mackinlay, form the Committee. The meeting then adjourned.—Colonist.

Potato Rot Prevented.

A certain remedy is stated to have been discovered which will effectually prevent the rot not only in potatoes, but all other vegetables, while it increases the crop. Mr. G. Prant, of White Plains, New York, states that where he used Kentish's Prepared Guano his potatoes were all good and sound, although in other parts of his grounds, where it was not used, they were rotten and good for nothing.—lb.

Important to Farmers.

We have been informed by some of the merchants of Pictou, that the article of butter, which forms a large export from this place to St. John, Newfoundland, has for some time past been very much depreciated, from being too much salted.—Whether it is a mistake in judgment on the part of the manufacturers or a desire to sell salt which they buy for 2s. 6d. per bushel, at 7d. per lb. along with the butter, we cannot tell; but it is now an undoubted fact, that the Pictou butter from this cause is almost worthless in that market. Advices have been received, stating that if an improvement is not instantly made, the Canadian butter will drive ours out of the market. We give this hint for the benefit of our friends in the country, and hope they will take notice thereof and govern themselves accordingly.—Eastern Chronicle.

Important Notice.

It will be absolutely necessary that all monies due our Office for subscriptions and otherwise, be paid at the approaching DISTRICT MEETINGS to enable us to meet our pecuniary liabilities.

LETTERS AND MONIES RECEIVED.

Rev. W. C. Beals (77s. 6d.), Rev. C. Lockhart (120s.) to be appropriated as directed. Mr. G. Henderson (20s.) Rev. J. Marshall (40s.)

DR. WISTAR'S BALSAM OF WILD CHERRY.

It was known many years ago that the wild cherry tree of this climate possessed valuable medicinal properties. Indeed, this fact was known to the aborigines, and a decoction of the leaves or bark of this tree has ever been regarded by their physicians as one of the most effectual remedies in many diseases. This fact, several years since, arrested the attention of Dr. Wistar, a highly respectable practitioner of Virginia. He investigated with care the healing properties of the wild cherry—tested its effects when administered alone, and when in combination with other remedial agents. He found that its natural virtues might be greatly improved, and by combining it with ingredients, whose properties were well proved and generally recognized, a medicine was produced which constitutes a remedy of great value in pulmonary affections and diseases of the chest and throat—diseases which are proverbially prevalent in our cities and large towns, and of ten prove fatal, swelling the bills of mortality to a much greater extent than is the case with most others, we had almost said all other classes of diseases. EXAMINE CLOSE BEFORE PURCHASING, The genuine Balsam is put up in bottles, with the words "DR. WISTAR'S BALSAM OF WILD CHERRY," Phla." blown up in the glass—each bottle bearing a label on the front with the signature of H. WISTAR, M. D.

This will be enveloped hereafter with a wrapper copyright secured 1844, on which will always appear the written signature of "IBUTTS." Any one counterfeiting the label or wrapper, or forging the signature of the General Agent, will be punished with the utmost rigor of the law.

For Sale wholesale and retail, at the Drug Stores of MORTON & CO. and JOHN NAYLOR.
