

The Farmers' Market

WINNIPEG MARKET LETTER

Office of The Grain Growers' Grain Company Limited, July 3, 1916.

Wheat—Prices for the past week have been very steady in our market, with practically no indication of what the future trend may be. There has been steady buying credited in part to the governments of Britain and her allies and in part to export firms. This has held prices firm in the face of weakness in American markets and good prospects for the new crops on this continent. On Saturday the Winnipeg market was closed, but American markets were strong, especially in July futures.

Oats—Market has been steady and fairly active. While there has been no remarkable feature to the future market, there has been a keen demand for cash oats of all grades. Two Canada Westerns command a premium of 1 1/2 cents over July, and Three Canada Westerns 1 cent over July.

Barley—Has been in excellent demand with light offerings. Prices on Friday were 2 cents higher than on the previous Saturday's close.

Flax—Closed on Friday 1 1/2 cents higher for July and October futures than a week ago, with One North-Western trading at July price. Trade in flax during the week was moderate, mostly spreading between the two future months.

INSPECTIONS

Winnipeg, July 3.—There are 1,200 cars in sight for inspection. Altogether unusual conditions exist in the number of inspections thru Winnipeg for this time of the year. For instance on June 30, 1916, 958 cars were inspected, 700 of which were wheat, while on the same date in 1915 only 40 cars were inspected, 32 being wheat. On July 2 again 927 cars, 693 being wheat, were inspected here, while on the corresponding date last year 151 cars were inspected of which 106 were wheat. It is significant too that well over 50 per cent of the wheat graded No. 1 Northern.

GRAIN IN INTERIOR TERMINAL ELEVATORS

For the week ending June 28 movement of grain in interior terminal elevators was as follows:—

Elevator	Grain	Rec'd during week	Ship'd during week	Now in store
Moore	Wheat	5,761 40	113,148 50	512,294 50
	Oats	3,651 06	3,844 24	39,628 32

No. 1 Nor., Manitoba	1 45 1/2
New Argentine, Bard	1 49 1/2

Spot wheat unchanged. Cargoes, Minneapolis, unchanged; Manitoba, not offered—Manitoba Free Press.

The Livestock Markets

Toronto, June 28.—Real finished butcher-cattle commands a decided premium on this market at present. Receipts of cattle have been lighter than usual this year has been a very fair supply of all the common grades. Business was generally drab and prices of most classes held lower. Good stuff still remained firm. No top heaves were on sale. The best steers on the market sold at \$10 to \$10 50. Grass fed cattle, well finished, sold at \$10 40. For fat choice cows and bulls the market steadied, \$7 50 to \$8 25 being paid for the bulk. Choice bulls brought \$7 75 to \$8 50 with odd ones higher. The steerer trade was steady, buyers being on the market for them, \$7 to \$8 25, was paid for good to choice with medium at \$6 to \$7. Milkers were on the low side.

Higher rates for hogs were feared from the packers. Receipts have generally been lighter. The average advance over Monday's price was 10 cents and \$11 40 to \$11 50 fed and watered was the prevailing price. It would be no surprise to see hogs even with or beyond the recent high level records.

Calgary, July 1.—The price reducing efforts of the last two weeks has had a deterrent effect on shipments this week, to all appearances, for the rule is not near as heavy as it was, and, as a result,

WINNIPEG and U.S. PRICES

Closing prices on the principal western markets on Friday, June 30, were:—

Cash Grain	Winnipeg	Minneapolis
1 Nor. wheat	\$1 11 1/2	\$1 12 1/2
2 Nor. wheat	1 10	1 07 1/2
3 Nor. wheat	1 06 1/2	1 04 1/2
3 white oats	44	36 1/2
Barley	61 1/2	65 1/2
Flax, No. 1	1 58 1/2	1 80 1/2

Futures	July wheat	Oct. wheat	Dec. wheat
	1 11 1/2	1 07 1/2	1 09 1/2
	1 07 1/2	(Sept.) 1 08 1/2	
	1 06 1/2		1 09 1/2

marketing conditions have been somewhat better, to the advantage of those who were on the market. Half fat stock is still the slowest feature and prices are being cut strong on this kind. Heavier runs are looked for next week and a brisker market at steady prices. The hog market opened on Monday at \$10 30, and as we advised they steadily advanced, making \$10 50 on Wednesday and Thursday. On Friday they closed weak at \$10. We look for hogs to sell lower the coming week, as Eastern markets are weaker. Present prices are \$10 fed and watered.

Winnipeg, July 3.—The Livestock Department of The Grain Growers' Grain Co. reports receipts at the Winnipeg stockyards last week as follows: Cattle, 1,600; calves, 165; sheep, 350; hogs, 4,800.

Receipts of cattle although fairly liberal were equal to the demand and our market held about steady on all classes at last week's decline. A few order lots of choice steers brought up to \$9 00, but the bulk sold at \$7 50 to \$8 50. The quality of cattle coming in only fair to medium. Few really good kinds being offered. Stockers and feeders were taken at easier prices, few feeders bringing over \$7 00.

We had a very erratic hog market this week, opening Monday at \$10 75, fed and watered Tuesday, \$10 90; Wednesday, \$11 00; Thursday, no hogs were sold, packers bidding 10 50; and Friday, the market closed \$10 40 to \$10 50.

South St. Paul, July 1.—Demand for beef cattle during the week averaged about steady compared with that for killers late the preceding week.

Supplies were deficient in best sorts of butcher steers, cows and heifers at all times and very few good to choice dryfed offerings, which were in fair abundance early the past month, were included among arrivals from the country. The last half of June brought out a much less attractive class than the first half as grassers increased.

The decline in prices of stockers and feeders scored the preceding week aroused country interest in such stock somewhat during the final week of the month and enabled sellers to check downward price tendencies. Demand was not brisk, however. The \$5 50 to \$7 25 basis prevailed for most of the steers, while \$4 75 to \$5 75 has been the rule for all but extremes of quality in the steer classes.

Hog prices bulged and sagged moderately during the week, but fluctuations were not wide and average trading basis was high. Close was near the season's highest level.

Country Produce

Winnipeg, June 28.—Note: Prices quoted are f. o. b. Winnipeg unless otherwise stated.

Butter—Prices continue the same as last week. No. 1 dairy is 20 cents and fancy dairy 21 to 22 cents. The supply is only medium and a large amount is being shipped East to Montreal and Toronto. Some poorer a off is going South, so that altogether the market is kept well cleaned up.

Eggs—Eggs are about a cent lower than last week and it is not unlikely the warmer weather will bring in more poor ones and further depress this.

Cream—Sweet cream is at good as ever. No. 1 sour is 27 and extra No. 1 sweet is 29. It is only within the last week that cream has been coming in quantities equal to that arriving early in June last year. The supply is apt to increase now for some time, but there seems no immediate danger of any drop in price. Sweet cream always commands a good premium under any conditions.

Hay—The hay market is still quite flooded here, the gradually cleaning up. The big drop quoted a week ago is still in force and is apt to be for some time.

Potatoes—Lower by 10 cents. Large supplies of not too good stuff are arriving now from all over.

Cash Prices Fort William and Port Arthur from June 27 to July 3 inclusive
