Trenton.

Canada's Railway Problem

And Its Solution

country. from his years of experience think ing and solving railway problems as one of the outstanding railway engineers in Canada, Mr. Tye has had not only the attitude of the engineer but that of the economist as well.

Amongst Mr. Tye's summarised con-

clusions are: The National Transcontinental the Grand Trunk Pacific and the Canadian Northern Railways are unable to earn their operating expenses and their fixed charges. Canada has these roads, and Canada and the various provinces have guaranteed the principal and interest of most of the are unable to earn their fixed charges, they must, of necessity, be paid by

The failure of these roads is due to the duplication of lines by all the railways, encouraged and bonused by the Government; to the excessive cost front. of the Grand Trunk Pacific and Na. tional Transcontinental Railways; to the failure of the Grand Trunk Paci-fic to provide itself with an adequate system of feeders in the West, and to the construction, by the Canadian Northern, of the long and unproductive stretches of road across British Columbia and Northern Ontario without feeders, terminals, etc.

If these railways are to be maintained in two separate systems, it will cost at least \$400.000,000. It will be necessary to build five to six thousand miles of feeders in the West, and two to three thousand miles of costing many millions.

A consolidation of the Grand Trunk, the Grand Trunk Pacific, Transcontinental and Canadian Northern Railways would give a well balanced system. Such a combina tion would not require more than \$100,000,000 to put it in proper physical condition.

Including operating expenses and Pacific about \$70 to do \$100 worth of ss, and it costs the Intercolonial and the other Canadian Governmen roads from \$200 to \$220 to do \$100 worth of business

Canada should follow the wise example set by Sir John Macdonald when dealing with the Canadian Pacific in 1879-80, and form a new pripower and the necessary safeguards, to take over and consolidate the Grand Trunk, Grand Trunk Pacific, Transcontinental and Northern Railways, and develop an-

other Canadian Pacific. Such a combination would start 000,000 per annum, with a probable average increase of 8% per annum. and probable net earnings of from \$25,000,000 to \$30,000,000 per annum. and a net revenue from other sources of about \$2,800,000. Its fixed charges at consolidation would be about \$35,000,000 and it would be under the necessity of spending, in the first five to seven years, at least \$100,000.000 to provide rolling stock, and to put its properties in good physical cofi

In order to control its policy, and to share in its certain prosperity. Canada should have an interest in the new company. The Dominion Government should furnish 40% of the money required, own 40% of the stock, and appoint 40% of the Directorate, but take no part in the actual management. This would give all the advantage of Government control without any of the manifest disadvantages of Government manage

NEW GERMAN CAMPAIGN CAUSES NO MISGIVING IN PE-TROGRAD.

PETROGRAD, March 26 .- The news that Field Marshall Von Hindenburg was planning a campaign against Petrograd was received here with surprisingly little consternation, unshakeable confidence is felt in the loyalty of the troops and the ability of the army to protect the city from the new danger.

HINDENBURG LINE HAS BEEN PIERCED

PARIS, March 25.—Another important advance has been made by the French in their movement against the stronglydefended town of St. Quentin, the war office reporting tonight that the position embracing Castres and Essigny-le-Grnad, extending over a front of about two and a half miles, has been

Heavy fighting has been in progress in various sectors, and the French report large German losses. The text of the official statement reads:

"From the Somme to the Aisne our troops continue their offensive movement. During the course orf the day a desperate struggle followed a strong defence by the enemy, but our soldiers, aroused by the spectacle of the ravages committed by the Germans everywhere, drove back the adversary, who suffered serious losses.

"Between the Somme and the Oise we drove the enemy out in the important position of Castres-Essigny-le-Grand and Hill 121. A violent German counter-attack, debouching on the

front between Essigny and Benay, was broken down by our fire "South of the Oise our troops penetrated several points in the Basse Foret de Coucy, and reached the outskirts of Folembonds of the other two. As the roads bray and Coucy-le-Chateau. German troops on the march in the direction of Folembray were caught under the furious fire of our batteries and dispersed with heavy losses.

"North of Soissons we increased our gains and repulsed two counter-attacks directed against the Vregny-Margival

"Active artillery fighting on both sides took place in the region of Craonne (northeast of Soissons).

"On the Verdun front our batteries effectively shelled the German organizations north of Hill 304 and northwest of Bezanvaux.

REFUSES REQUEST MADE BY GERMANY

WASHINGTON, March 24.—The United States has formallyrefused Germany's request to moderinize and extend the old Prussian-American treaties of 1799 and 1828. The state department has replied through P. Riter, Swiss minister, in charge of German interests, refusing to accept the protocole sent

through him to the United States government on Feb. 10. The reply states that the United States, considering the treaties in force in their original form, is entirely unwilling to accept Germany's interpretation of them as provided in the protocol, which expended the exemption from seizure of "merchants and their effects" in case of war between the two countries into a general exemption, including enemy ships in port at the out break of war, which must either be left free or given safe conduct, for their home ports, even through hostile block-

vate corporation, with sufficient U. S. IS URGED TO BEWARE OFSECURITIES GERMANS OFFER

WASHINGTON, March 25.—France's protest to neutrals against devastation wrought by the retreating Germans was received by cable at the French Embassy here today, with instructions that the American government be requested to warn American banks and citizens against any transactions in securities with Germans or their agents without proof of the origin and ownership of the securities. The note and instructions will be delivered to the state department tomorrow by Ambassaador Jusserand.

ARTILLERY KEEPS UP FIRE NEAR MONASTIR

PARIS, March 25.—Heavy artillery activity continues in the regin of Monastir, according to a French official communication on thhe Balkan operations issued today. The commun-

ication follows: "Eastern theater: The day was calm save in the region of Monastir, where the artillery displayed its usual activity. The enuemy communique concerning the engagements of March 20-21 is false. We have maintained all the important positions conquered north of Monastir."

Saturday's official communication said: "No event of importance has occurred. On March 21 a violent bombardment on both sides took place. The enemy directed numerous incendiary shells against Monastir. British hydro-aeroplanes bombarded Pradesta, Kenali and Orfano."

GERMANY REVIVES TALK ABOUT PEACE

BERNE, via Paris, March 25.—"If peace negotiations were begun today," says the Journal de Geneve, which does not reveal the source of its information, but declares it is absolutely reliable, "Germany would offer to restore the territory she occupies in France, except in the mining district of Briey, in exchange for a channel port, Calais or Dunkirk, and an indemnity of 15,000,000,000 francs."

"Germany would also offer," says the newspaper, "to restore the territoritorial integrity of the sovereignty of Belgium, on condition that Belgium would not be allowed to mantain a national army and that Germany would be permitted to garrison Namur, Liege and Antwerp perpetually."

It is added by the newspaper that Germany must be given contral of the Belgian railroads and ports and befavorably treated in an economic treaty. This is not the program of panworms without any inconvenience to Germans, but the actual terms of the German government, says

NO AMERICAN ARMY IN NEAR FUTURE SAYS VON STEIN

· AMSTERDAM, March 26.- A Berlin despatch says that excreta. They thoroughly cleanse the stomach and bowels and leave them he did not know whether the American fleet would support the Mr. Geo. Wesley Thomas, of received his discharge papers in the Street, is spending the evening in and there will be no revival of the British fleet but there could be no question of an American Continental army in the near future. .
