A DISGRACE TO ONTARIO.

Mr. Whitney charges that the Provancial Liberals have an organized
gang of pluggers on tap that they can
someentrate in any riding at any time,
by simply issuing an order. That such
a gang exists there is not the faintest
shadow of doubt. The bye-election in
London several years ago showed it
beyond denial. Further than that,
Liberal officials shield these men as
far as possible. When one was caught
in London red handed he was let out
on \$200 balk. Then he skipped and the in London red handed he was let out on \$200 baik. Then he skipped and the Liberal party there stood fer bail. It would be interesting now to know whether the bail bonds were ever even estreated. However, what we are coming at is this: That organized gangs, used to defeat the wishes of the honest electorate, have to the public knowledge been in existance over five years. Its. members are scattered all over Ontario and the border cities of the United. and the border cities of the United States. The tools who do the plugging, the personating, and the perjuring when necessary, are a pack of sneak thieves who would commit any crime

chieves who would commit any crime, unless deterred for fear of the law. That politicians should encourage such a lot of miserable scoundreds as to keep themselves in office is simply inexplicable. Yet Mre Whitney publicly declared in South Ontario that he believed Mr. Hardy was a party to this conspiracy against the public. That assertion having been made, Mr. Hardy now owes it to the public to clear he skirts. He should not permit Mr. Whitney to go about the country clear like skirts. He should not permit Mr. Whitney to go about the country making such a charge unless it is true—and if it be true what have the leaders of the Liberal party failen to J. When a public man becomes the associate of sneaks, perjurers, conspirators, petty thieves and similar cattle, what must be the condition of our polities? Yet, why does not Mr. Whitney force the Government to crass an act ties? Yet, why does not Mr. Whitney force the Government to pass an act which will send crooked politicians and their dupes to where they belong? A thiet is a thief whysher he steals a purse by a vote, and his place is in Kingston penitentials. This disfranchising sometimes of the bribers and before is childish. They should all

"It is disgraceful. :
"You have to stand in line for hours on the streets to merely get a hearing

\$10 and give it to a mounted policema to deliver, you can get an answer in few minutes."

AN UNPATRIOTIC ACT.

Under the caption of "An Unpatri tic Act," the Toronto Star, a well well known Liberal Journal, goes for Hon. Mr. Blair without gloves, It

says:
Hon. Mr. Blair has gone to the Unit

says:

Hon. Mr. Blair has gone to the United States to let contracts for palace cars for the Canadian railways.

Canadian shops can build and equip palace cars just as well as shops across the line. They may be busy just now, but probably they could increase their facilities and staffs, if assured of government contracts. In any case, surely the Intercolonial is not so rushed with traffic that it could not wait for Canadian shops to do the work.

It is not so long ago that Mr. Blair sent to the United States for locomotives. Does he mean to say that Canada cannot turn our zeliable rolling stock as cheaply as the United Canada cannot turn out the United ing stock as cheaply as the United States article? Or is he exhibiting the old Liberal tendency to give the pre-ference to the Republic?

This is election day in South On-torio. The contest rests between the benest interests of Ontario and boodle. The people there will simply say whether they favor five and ten dollar bills or capable government.

There is a gun club near London There is a gun, club near London, Ontario, that destabys sparrows by the thousand. This is a sport that should be put down by law. Sparrows are undoubtedly good insect destroyers and are also useful as public scavengers. It is true a number of persons rail against the sparrow as a nuisance, but this appears to by based on prejudice more than on proof.

George Fortney, who has returned to Winnipeg, from the Yukon, confirms the reports of the disorganization of the post office, and gold commissioner's office, though he does not think there was downright stealing. He says: "There seems to be a side door to every public building in Dawson. The doors are all right, but they generally have to be 'fixed' a little in order to let people go ia." Government offices and government officials who require to be "fixed" are not the kind Canada wants.

Mr. Mudd and Mr. Booze are running for congress, in Maryland. If only they were pitted against each other the same Congress district what the valers would have it

HEADS TO THE NORTH.

back again. Besides, think of the effect of a drug strong enough to stop headache almost immediately.

Backache is kidney ache. A sure indication that the kidneys are badly diseased. Backache is nature's signal of alarm to warn people that the kidneys are no longer able to perform their duty of filtering the blood. And this means that the foul impurities which would otherwise be carried off by the kidneys remain in the blood, and find their way to every organ of the body, where they act as deadly poisons.

All the most painful and most fatal indeases arise from deranged kidneys, the liver and stomach are affected, digestion interfered with billousness and constipation are an accompaniment, headache, loss of energy apd ambition, a dragging down feeling, low spirits and despondency, these are some of the symptoms.

Dr. Chase's Kidney-Liver Pills are the world's greatest kidney curs, because they act directly on the kidneys and restore them to health, strength and ristore them to health, strength and ristore them to health, strength and view. They remove the cause of headaches, backaches, and an endless chain of most fatal and complicated diseases.

Dr. Chase's Kidney-Liver Pills are purely yegetable, and act pleasantly and naturally. One pill a dose, 25 cents a box.

Montreal Witness.

Large quantities or apples are arriving her now from all parts of the Dominion to the British markets. Some of them are not suitable and it would not pay to send, they could not be pay to send, them, consequently they
