about goes to the Northport smelter.

The Syphon.

Work on the Syphon, near the Blue Elephant, has been commenced under the supervision of E. W. Liljegran. A gallon. surface crosscut has exposed the lead tor 30 feet, and the full width of the cropping has not yet been disclosed. Low gold values are being met.

The O. K.

Richard Plewman, the liquidator of holy father's encyclical we cannot the O.K. company, has made application to have the judicial headquarters of the company removed from Victoria to ing and insisting upon their rights, Rossland. J. A. Macdonald has been whether in Manitoba or Ontario. It will appointed solicitor for the liquidator.

The West Le Roi & Josie. Five men are at work stripping the leads and cleaning out the tunnel pre- the other provinces. Some weak-kneed, paratory to an examination by the representatives of the British American Corporation, with a view to the purchase of the property.

The Cliff.

Some good ore is being met in the stopes near the mouth of the upper tunnel, where work is in progress. This is just beside the big bunch of carbonates which went so high when smelted.

The Monte Cristo.

Rapid progress is being made on the Monte Cristo development, but there is cannot be gazetted lieutenant-colonel nothing new to report except that depth ings.

The Sunset No. 2. About 10 inches of ore is being met in the tunnel. The hoist in the station

way. The Deer Park.

The shaft is down to the 200-foot level and drifting has been commenced. About six feet of quartz, mixed with Major. iron, is in sight. Good values continue to be received.

The Lily May. Work has been suspended in the 125- mation last night, as follows: President, foot level, but a shaft has been started James Crathern; vice-president, Charles

to open up the vein at a point to the F. Smith; second vice-president, Robert rear of the tunnel. About six inches of good ore has been met.

The Coxey.
