lized approximately 2,000,000 men and captured an enormous amount of ma-terial. Without allowing the enemy an instant's respite it forced the German general staff to utilize on the western front reserves in barracks and arsenals.

It would be a serious mistake to measure our effort by the ground conquered. The demoralization and wearing down of the German army is the real goal. We have obtained this goal since it has been proved that during those six months the enemy has suffered heavy losses, and taking everything into consideration, he can only remove from our front eight per cent of his total effectives.

The great battles on the western front were fought in Champagne during the months of February and March; between the Meuse and the Moselle during the month of April,

and in Artois during May and June. In Champagne we have taken the enemy's defences for a depth of from two to seven kilometres (from one and one-third to four and one-third miles) which repeated heavy counter attacks have not been able to recapture. Between four and five German army corps have suffered heavy losses, two regiments of the guard being almost destroyed. On the cautured ground nearly 2000 German dead were counted.. We took 2000 prisoners, rapid fire guns and a large number of trench cannon.

Between the Meuse and the Moselle we now occupy the Eparges crater, which was very strongly fortified. There two Bavarian divisions having received orders to hold out at all costs, left heaps of bodies.

To this great success must be ded the success in the Bois d'Ailly and the Bois le Pretre, which the Germans call Bois de la Mort.

into our hands. Along a front of ten kilometres (more than six miles) we have advanced from two to four kilometres 2.05 a.m. daily for Muskoka Lakes, daily except Sunday for Lake of Bays, Algonquin Park, Maganetawan River and Timative Sheep, 11,000; market easy; our adversaries, who brought up to stem our victorious offensive sixteen stem our victorious offensive sixteen veteran divisions, one company being

Toronto, Aug. 5—Cattle trade was very slow at the Union Stock Yards to-day with prices about steady. Receipts were extremely light and of twelve hundred metres of trenches common quality. There was only a and at Quennivieres twenty-five hunhandful of offerings in the small meat dred metres.

Receipts 97 cattle, 27 calves, 946 Argonne, and Metzeral and Hartmans-Weilerkopf in the Fecht valley in Alsace, constituted brilliant victories for our troops. Judging from the desperate character of the fighting, the amount of munitions expend ed and the number of forces engaged these engagements were veritable battles. Their preparation and realiza-

tion represent large sacrifices. But even when no engagements take place, the life of the troops in the trenches is a continual battle. The first line of infantry, only a few metres distant from the enemy, enoys not a single minute of quietude; t is under the constant menace of grenades, bursting shrapnel, bombs from mine throwers; and there is

continual fear of subterranean mines. The infantryman must remain continually on the alert, occasionally in the smoke of asphyxiating bombshold himself ready at every moment to repulse an attack, repair fortifications, remove obstructions that have fallen into the trenches and live in the continual presence of death. Such life demands continual activity on the part of the officers, calmness on the part of the men, patience and pravery at all times.

The French army has gained from its long sojourn in the trenches, magnificent endurance; it has lost nothing of its eagerness and confidence. Its faith in the offensive remains intact, its morale is the admiration of those who command it. This morale is the best guage of final victory by which our territory will be liberated, Europe freed and peace re-establish-
