

SELECTED RECIPES.

Sea Pie may be made from veries scraps of any sort. Form these into a stew, add cooked potato, carrots, and a little onion. Cover all with a light crust, and serve directly the crust is done crust is done.

Dried tongues should be set in warm water and allowed to soak twenty-four hours before cooking. A tongue must be boiled very slowly, or it will be hard.

or it will be hard. Cranberry 'Pto.—Take half a pint of cranberries, a teacupful of stoned raisins, two or three apples, peeled and cored. Add sugar to taste, and cover with good short crust. Cook steadily till the fruit is quite done. For Spiced Milk.—Put one ounce of stick cinnamon into one pint of old whisky, and macerate for a fort.

of stick cinnamon into one pint or old whisky, and macerate for a fort-night, shaking constantly. Then strain off the whisky into a clean bottle. Take one or two tablespoon-fuls in half a pint of hot milk. This

bottle. Take one or two tablespoon-fuls in half a pint of hot milk. This is a good remedy for a cold in its early stage, and is very sustaining. Rice gruel is popular with children if made as follows: Mix a tablespoon-ful of ground rice with one pint of milk till perfectly smooth. Boil over a slow fire with a little cinnamon and nutmeg, stirring continually. When quite cooked, sweeten to taste, and serve with a piece of butter stirred into it. stirred into it.

Potato Ragout .- Mash three ounces of cooked potatoes, flavor them with two ounces of chopped lean ham and an onion (parbolled and chopped), half a teaspoonful of mixed herbs, pepper and salt. Mix two eggs with the mixture, then lightly add the the mixture, then lightly and the whites of egg. Have ready a pan of hot fat, drop the mixture in by dessertspoonfuls. Fry nicely, and drain on thick paper by the fire. Serve piled high and garnished with chopped parsley.

Roast wood pigeons make a Roast wood pigeons make a good dish for a small party. Carefully cleanse some young pigeons, then dry them with a cloth. Put a table-spoonful of butter, add some chopped onion and parsley, season with pep-per and salt, Inside each bird. Tie a thin rasher and two vine leaves over the breast of each bird, and roast steadily for, twenty-five minutes Baste continually with clarified dripgood Baste continually with clarified drip-ping. Serve with bread sauce and ping. Serve brown gravy.

brown gravy. Jelly sauce for game and roast mutton.—Melt a quarter of a pint of red currant, rowan, or grape jelly in a saucepan, add half an ounce of butter; cut in small pieces. Let all boil for one minute, and just before serving stir in a tablespoonful of sherry and the same quantity of thick brown gravy.

sherry and the same quantity of thick brown gravy. For Corn Beef Hash.—Mince the beef finely and add an equal portion of cold potatoes, chopped or mashed, and one correl of cold potatoes, chopped or mashed, and one small onion finely chopped. Senson well with salt and pepper. Put into a large, deep frying-pan a piece of butter the size of a hen's egg, and half a cupful of milk. When these are hot put in the beef and potatoes, stir thoroughly, and as soon as the mixture is hot place it on a very hot dish and serve. Salt beef should be used, and an excellent breakfast dish results.

the stumme, the strip of cloth and bake until brown. Baked Ham.—Soak the ham in cold water over night. Remove it from the water and cover the part that is not covered with skin with a paste of smoothly-mixed flour and water, cheek to pen a challenge, and to put taking care that it is of sufficient thickness to keep in all the meat sheet of paper, although the sheet were the part of the part in the sheet of paper, although the sheet is a word in the sheet of paper, although the sheet is a word in the sheet is a word in the thickness to keep in all the meat sheet of paper, although the sheet is a word in the the sheet of paper.

it into the handle, holding it in place until firmly set. Beeswax and turpentine should Beeswax and turpentine should never be placed on a stove in order to melt the wax. Accidents frequent-to shavings and cover with turpen-tine. In a few hours the wax will dissolve and form into a jelly. Rub the hands with dry sait after having had them in water for a length of time; afterwards rinse them and wipe dry. If this is done daily after the housework is finished it will keep the hands smooth, clean and white.

and white

and white. Lace often lives its freshness, though not sufficiently soiled to re-quire washing. It is a good plan to lay it aside for a week in tissue-paper and under a heavy weight, having first covered the soiled parts with calcined magnesia.

In making a custard the whites of the eggs are not a necessary ingre-dient. Use the yolks to thicken the dient. Use the yolks to thicken the milk, in the proportion of one yolk to a cup of milk. The whites of the eggs may then be used as a garnish for the top of the custard.

To improve green peas which have become old and dry place two or three large lumps of sugar in the wa-ter in which they are to be cooked. When quite cooked, take the sauce-pan of the fire, and to the pan off the fire, and let the peas lay in the water for five minutes before straining. To clean gloves lay them out on a

clean table or board, and rub a mix-ture of finely powdered fuller's-earth off and sprinkle the gloves with dry bran and whiting. Lastly, dust thor-Glove-trees are useful for oughly.

oughly. Glove-trees are useful for cleaning in this way. Cake can be easily and quickly made by beating up three eggs and a cup of castor sugar till very stiff, add gradually a cup of self-raising flour, and pour into a well-greased and paper-lined flat tin. Bake till a light fawn color than quickly spread light fawn color, then quickly spread with jam and roll it up.

A good fire extinguisher that for-made with very little trouble as fol-lows: Put three pounds of salt in a A good fire extinguisher can gallon of water, and add to this on and a half pounds of sal ammoniac. Bottle this liquid, keep in various places about the house, so that when a fire is discovered it may be quickly

extinguished. Lemon cheesecake is made with six eggs, quarter of a pound of butter, grated rind and juice of four lemons, grated rind and juice of four lemons, and one pound of granulated sugar. Molt the butter slowly in an enamel saucepan, add the lemon rind and juice, and lastly the sugar. Stir well till the nixture boils, pour into a jar, and cover when cold. Cook slowly, or it will burn. Lemon cheesecake will keep a long time.

AN OLD-FASHIONED PICKLE.

This recipe dates back to the time of Charles the Second. At that time there was a thoroughfare called of Charles the Second. At that time there was a thoroughfare called Pickled Egg Walk that led from the city of London to Clerkenwell, a northern district of the dear old town. There was a tavern in this road famous for its pickled eggs, and it is said that the merry monarch once stopped at the tavern and par-took of them.

once stopped at the tavern and par-took of them. To 1 qt. vinegar allow one tea-spoon black pepper, 1 teaspoon white pepper and half oz. whole ginger well bruised. Boil the eggs for 12 min-utes, then dip them in cold water, and carefully take off the shells. If any should be broken in handling do not use them, as one broken eggr

ce it any should be broken in handling do Salt not use them, as one broken egg would spoil all the rest. Arrange the eggs with care in a small crock or in large open-mouthed bottles. Now put the pepper and ginger into the vinegar and when it boils, let it simmer gently for 10 minutes to exbeef should be used, and an excellent breakfast dish results. Stuffed Cabbage.—Cleanso, soak and boil a large, firm head of cab-bage until tender. Scrape out the in-side, leaving enough for a solid outer wall. With the scraped cabbage mix a cup of fine bread crumbs, a little salt, pepper and celery seed and one small onion cut fine. Beat this up with a -teaspoonful of butter and three eggs. Fill the cabbage with the stuffing, tie around it a strip of cloth and bake until brown. Baked Ham.—Soak the ham in cold

THE WIZARD OF WELBECK Fresh

THE MOST MARVELLOUS HOUSE IN ENGLAND.

Vagaries of the Late Duke and the Remarkable House That He Built.

The formation of a limited company o finance the claimant to the Por land estates and title calls attention to the vagaries of the late Duke and the

remarkable house that he bass To describe Welbeck as unique among the stately homes of England is the sheerest platitude. "Its great mark mined and honeycombed, with remarkable house that he built. To describe Welbeck as a line is sheerest platitude. It's great park, mined and honeycombed with broad tunnels and subterranean fool-ways; its palatial house, with its under-ground suite of splendid rooms, includ-ing the picture gallery excavated from the solid clay; the lordly stables, with the neighboring tan gallop—an im-mense glass arcade with a straight run of nearly, a quarter of a mile; the spaci-cus riding school, 130 yards long by 25 by yards wide—these things are known to have no like among the habitants of men the world over. Then so was the builder and maker of men the long galleries of eccentric humanity as Welbeck among the man-sions of this or any other age. Had he lived centuries ago he would now be dismissed as a mythical creation

he lived centuries ago he would now be dismissed as a mythical creation, even as Robin Hood, his fellow-hero of Sherwood, is written down a figment of legendary growth by latter day historians In 1854 Welbeck was little more than

a farmstead, a rambling and ill-assort-e' concoction of buildings. With the house-building passion of his anceshouse-building passion tress,

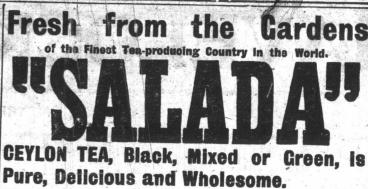

OLD BESS OF HARDWICK, the duke addressed himself to the con-struction of Welbeck into a palace and

terranean railways and corridors which make a rabbit warren of Welbeck. Everywhere over the estate huge "bulls-eyes" of glass obtrude in long lines— from the level sward where deer and cattle browse, from the middle of ploughed fields, from long turf avenues, even from the middle of the great lake even from the middle of the great lake before the house. These are the lanterns which light the underground tunnels and rooms by day; electricity serves the same purpose by night. The rambling country mansion became a palace; the stables, tan gallop, and riding school were built; gardens of beauty were laid out, and conservatories erected by the mile

Of this transformation the Duke was the hidden magician. Privacy was the ruling passion of his life. He not only shut himself in Welbeck and renouncshut himself in Welbeck and renounc-el the outer world, but he also separ-ated himself from all contact with his

Fat is of great account to a baby; that is why babies are fat. If your ing the saucepan closely. Then while baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as

Sold in Lead Packets Only, at 40c, 50c and 60c per pound. By all Grocers. HIGHEST AWARD, ST. LOUIS, 1904.

fellows. Only with his valet had he direct and constant contact. Any ser-vant or workman who dared to ap-proach or address him was

INSTANTLY DISMISSED. In the corridors of the house he built niches in the walls, and every servant was under orders to seek refuge in the nearest when they heard ducal foot-steps approaching. No woman servant was allowed in his sight.

Though building and furnishing the house as a palace, the duke lived in two rooms. His food consisted of one chicken per diem. He ate half at one meal and half at another. These were his only meals, and they were served ir the same manner. The table being prepared, the servants withdrew and rang a bell to warn his Grace. The Duke entered, dined in solitude withagain retired before summoning servants to remove the dishes. and the

Day after day, year in and year out, his dress was the same. On his head was a tall beaver hat nearly two feet high, and under it a long old-fashion-ed wig. A big coat was muffled about his neck, and over his arm he carried a loose cloak. Wet or fine he bore a struction of Welbeck into a palace and wonderland that it now is. For eighteen years Welbeck became of that time the Duke employed on an average 1.800 workmen, including the tinest skilled artisans in Europe. In some years the numbers rose to 2,500 men. The weekly wages bill exceeded the total expenditure ran into \$35,000,000. Then were built those miles of sub-terranean railways and corridors which

Thus arrayed he roamed about the park, exercising a marvellous faculty of evading the observation of others. It was to this end he undermined Welbeck with

MILES OF TUNNELS.

MILES OF TUNNELS. For a mile and a half he turned the hugh road from Mansfield to Worksop into a broad subterranean way, grant-ing its free use to the public, and as additional compensation made a new high road above ground. Through smal-ler subterranean passages piercing the park in all directions he could go from the house to any part in the domains, or as mysteriously disappear and re-turn home. urn home.

For the conveyance of his workmen to and from Welbeck to their homes, morning and evening, the Duke kept a herd of donkeys, and each laborer rode on his ass to and from work. No ap-plicant for work was ever refusit and if a man was dismissed on one section he was certain to get another to be crossing the park to where other work was proceeding. The work itself was of the most leisurely description. In deed, may men slept the day away at Welneck, and at night work in the was In neighboring quarries, thus solving the problem of serving two masters with complete satisfaction to help: -Pear-son's, Weekly. silh

TIPS FOR HOME SHAVERS Practical Hints on How to Obtain an

Easy Shave.

Only experience can teach the art of Only experience can teach the art of shaving. Unfortunately this comes to many so late in life that by the time they have learnt to shave much unneg-essary agony has been endured. To obtain an easy shave, the first neces-sity is to wash the face in soap and cold water, and dry the skin thoroughly mmcdlately before applying the lather Then, the more the face is lathered, and the thicker the lather is, the easier will then, the more the lace is lathered, and the thicker the lather is, the easier will be the shave. The razor is the thing, however, that requires the most at-tention. Remember, it is not a smooth blade, as the unscientific imagine, but a fine saw, as anyone who troubles to rlace it under a strong enough magni-fying glass can ascertain for himself. Such being the case, it is instifficient to take it over the face. It should by moved in a swaying manner, either from toe to heel, or heel to toe, as the special beard operated on may deman 1. Those' in doubt should try both ways, and a second's experience of each will should be held nearly flat to the face because it is more effacious in this po-sition, and is less likely to damage the skin. If the skin is drawn as tightly as possible with the left hand, the hairs the uncoi is possible with the left hand, the hairs will be forced out and razed at a low-er level than otherwise.

mustered round their kettles, which they turned upside down as a token of ite volt. To lose one of these kettles in Lattle was as much of a disgrace as the loss of a regiment's colors has been in least in the second se later times.

MECHANICAL SCULPTOR.

Machinery is helping geniuses do a lot of work in turning out fine arts for the world's consumption. The "meen-anical sculptor" is a case in point. If works on the principle of the automatk turning lathe, reproducing absolutely the outlines of any pattern placed in "The mechanical sculptor turns" a block of marble fresh from the quarry unc a statue in an amazingly short mic a statue in an amazingly short time. The operator passes a "pointe" over the statue to be copied, while a chisel at the other end of the machine whiltles off the marble block to corre spond.

In Your Leisure Time

If you could start at once in a business which would add a good round sum to your present earnings—wiTH-OUT INVESTING A DOLLAR—wouldn't do it?

Well, we are willing to start you in a profitable business and we don't ask you to put up any kind of a dollar. Our proposition is this: We will ship you the Chatham Incubator and Brooder, freight prepaid, and

You Pay No Cash Until After 1906 Harvest.

After 1900 marvest. Poultry raising pays. People who tell you that there is no money in raising chicks may have tried to make money in the business by using setting hens as hatchers, and they might as well have tried to locate a gold mine in the cabbage patch. The business of a hen is—to lay eggs. As a hatcher and brooder she is out-classed. That's the business of the Chatham Incubator and Brooder, and they do it perfectly and successfully. they do it perfectly and successfully. The poultry business, properly con-ducted, pays far better than any other business for the amount of time of money invested.

money invested.

Thousands of poultry-raisers-men and women all over Canada and the United States-have proved to their satisfaction that it is profitable to raise chicks with the
