Results in a Case of Severe Kidney Trouble After Only Fou Weeks Treatment

Mr. Fred Latimer of Lansdowne has written us as follows:

Brookville, Outario.

Gentlemen,—Twelve years ago I had my first attack of kidney trouble following a heavy cold. The pain in the back was severe and there was smothering over the kidneys. I rapidly lost in strength, weight, and color. I got over my first attack, but my kidneys were left weak and Several small attacks have since weakened them, and about a year ago I had the worse attack of all. I was confined to my room for eight weeks My doctors attended me constantly and by their ability ruled me weeks my doctors attended he of sheathy and by an array in the same old state and nothing that could be done seemed able to heal and make them sound. A friend of mine—a doctor—told me to try Capsuloids.

Now every one of the had symp. A month ago I commenced taking them. Now every one of the bad symptoms have disappeared. The pain is all gone and I scarcely ever feel any toms have disappeared. The pain is all gone and I scarcely ever test any smothering. I have gained three pounds, improved in my appetite, lost that sallow kidney complexion and have a good healthy strong appearance, with lots of color in my face. Best of all, all the kidney symptoms that so worried me have disappeared. It is hard even for me to believe, but it is perfectly true I feel thankful to the Capsuloid Company.

Gratefully yours,

(Signed), FRED LATIMER.
