Although Christian Scientist Was on Trial For Crime.

Coroner Dr. Gray at Peterboro, Instead, Denounced the Christian Scientist as Imbeciles, and Said the Government Should Provide a Place of Refuge Where They Could Be Treated—The Jury's Verdict.

Peterboro, Sept. 11.—The jury empaneled to enquire into the cause of the death of Arthur Randlett, who died at the home of R. J. Todd, a local Christian Science practitioner, several weeks ago, at the third sitting of the coroner's inquest last night, returned a verdict that death had been caused by hemorrhage, induced by typhoid fever, and that his death was accelerated by the neglect and want of proper attention by those in charge.

They also recommended that the Government be memorialized to enact such legislation as would enable such cases to be dealt with properly.

A "Nefarious Process" characterized by sweeping statements by the coroner, Dr. Gray, regarding Christian Science. He termed it a "nefarious process," "public robbery" and a "state of affairs that would not be permitted even in heathen countries." He denounced the Christian Scientists as imbeciles, and said that the Government should provide a place of refuge, where they could be treated.

He would not listen to any evidence from Mr. Todd, although the latter's counsel requested that he be heard. Many of those present at the inquest were Christian Scientists, and they are highly indignant at the coroner's statements.

**200 SIEDLCE
JEWS DIE**

Soldiers' Awful Revenge For The Killing Of Comrades

Siedlce, Sept. 11.—A Jewish massacre surpassing in seriousness all previous ones in this vicinity took place here Saturday and Sunday.

It was carefully planned beforehand, the soldiers warning all of the Christian population in advance to hang out their homes, so that they might remain undisturbed.

Saturday night some terrorists killed two soldiers, and thereupon the Lithuanian regiment broke forth in unrestrained fury. They began murdering Jews on every hand and continued the work of slaughter all Saturday night and all day Sunday.

The ghastly work of murdering and pillaging continued until early yesterday, when Governor-General Skallio telegraphed for permission to use the artillery. Four batteries then opened fire down Penka, Warsaw and Alena streets, which were inhabited by thousands of Jews. The destruction was horrible.

200 Killed, 1,000 Wounded.

As a result of the general slaughter, it is estimated that fully 200 Jews have been killed and 1,000 wounded. There are 3,000 prisoners in custody, a great many of whom are wounded. Not a soldier was killed.

Yesterday morning squads of soldiers were parading through the streets selling pillaged watches and jewellery. The army officers openly countenanced the selling of loot. The local governor took no steps to prevent the outrage.

The telegraph offices are closed and nobody is allowed on the streets or to leave the town. The refugees continue to crowd to the stations. The soldiers are drunk and behaving with extraordinary brutality.

A delegation of citizens asked the governor to order the troops to cease firing, but the governor replied that the citizens must deliver up their leaders and the revolutionists or otherwise the city would be bombarded.

The authorities assert that 15 terrorists have arrived here from Warsaw, and that they must be arrested before any of the inhabitants are permitted to leave the city.

Massacre Resumed.

St. Petersburg, Sept. 11.—(3.35 a. m.)—Advices from Siedlce received during the night are to the effect that the fighting and butchering of Jews, which ceased about midday on Monday, was resumed late in the afternoon, apparently in consequence of Governor Engelke's demand that the Jewish and Polish populace deliver up to him the members of the Jewish and Polish Association.

Artillery was again brought into action.

Bloodshed at Rudgowskwa.

Warsaw, Sept. 11.—A bomb was thrown in the market square of Rudgowskwa, Province of Warsaw, yesterday afternoon, killing and wounding several persons. Later another bomb was thrown at the entrance of the Ziradow Spinning in this city, severely wounding a policeman and a janitor. The troops thereupon fired in all directions, and killed or wounded forty persons.

Secret Memoranda of Suicide Teller Reveals More Forgeries.

Chicago, Sept. 11.—Secret memoranda covering illegal transactions in the Stensland Bank were found among the effects of Frank Kowalski, the teller who committed suicide, following closely the exposure of the bank's condition.

The record kept by Kowalski indicates apparently that in less than a year Hering, the imprisoned cashier, personally obtained \$110,000 of the money of the depositors.

In four months by the use of "cash tickets," which he placed in the drawer, he obtained \$5,000 more, and in another month \$3,000.

Toronto, Sept. 11.—"Let me see, is it carbolic acid?" so saying Mrs. Robert Kirkpatrick, 211 Oak street, put a bottle of the fluid to her mouth, swallowed some of it before a quick-witted drug clerk dashed the bottle from her hand. WHITNEY IS HOME

Says Government Will Stick to Their Declared Power Policy Or Deserve to Meet Fate In Store.

Toronto, Sept. 11.—Hon. J. P. Whitney, Premier of Ontario, and Hon. Dr. Pyne, Minister of Education, arrived home from England yesterday. The Premier said he never felt better, and that he had the time of his life, but was glad to be home. He said he would probably go to the buildings last evening.

"My visit," he said, "was not at all connected with public affairs, although there seemed to be an impression to that effect."

In reply to a question as to the attitude of the Government on the granting of leases to private power companies, he said he had nothing to say at this time.

"You may be sure," he said, "the Government have not gone back on their declared policy, and the public will doubtless be able to obtain all the water power they wish if the Government should go back on their declared policy they will deserve to meet the fate that would be in store for them."

The trip, said the Premier, was a pleasant one, and he had seen a good deal, of only of London, but had also visited Edinburgh, Glasgow, Belfast, Dublin and Liverpool. He had made a short run to Paris, had seen Versailles and went twenty miles down the Seine.

He thought more interest was taken in the colonies and Canada than he believed was the case when he went over.

PIQUANT PITTSBURG.

Member of Legislature and Justice of Peace in Stabbing Affray.

Pittsburg, Sept. 11.—Lawrence B. Cook, member of the Pennsylvania Legislature from the fourth district, who was renominated by the Republican party Saturday, was Sunday perhaps fatally stabbed by Andrew McKillan, a justice of the peace, and one of the wealthy residents of Carnegie.

Cook, who became famous during the last Legislature for being the author of the "Greater Pittsburg" bill, is alleged to have been celebrating his renomination. He met Mrs. McKillan, and the two went to a house in Lawn street. While they were in the room McKillan burst open the door.

When the fight started Cook was cut seven times before he succeeded in escaping in scant attire to an alley. He got into a house a few doors below, and the barring of the door by the woman who let him in probably saved him from being cut to pieces.

Millionaire Worries Over Brick the Alleged Absconder With \$40,000.

Philadelphia, Sept. 11.—Henry K. Wampole, the millionaire chemical manufacturer, while being taken from here to a sanitarium in New York Sunday, escaped from his nurse at Jersey City. While it is believed he has made his way to his home in Merton, near here, his family and physicians refuse to give out any information.

Mr. Wampole's condition is said to have been brought about through worry over the disappearance of the manager of the Perth, Ont. branch of the chemical works, who is alleged to have absconded with \$40,000 of the firm's money. The mental torment of Mr. Wampole became so great that it made a nervous wreck of him.
