

THE ACADIAN.

WOLFVILLE, N. S., JAN. 25, 1918.

Editorial Brevities.

Never let out of your mind the fact that the Food Controller of Canada is compelling the millers of Canada to make war-bread, and the bakers of Canada to bake a war bread. The purpose is to save wheat. You can help by personally economizing on the use of flour and bread through a larger use of other grains. The war regulations point the path of duty.

Sir John Aldred, General Manager of the Canadian Bank of Commerce, has sent a special circular to all branch managers, instructing them to get in touch with farmers and inform them of the importance of raising hogs. The order is a practical one, because the bank stands behind it, prepared to lend necessary financial assistance to reliable farmers who take up the production of this most important staple.

Keene and Sons' Paul's churches, at Beckett, Ontario, one Presbyterian and one Methodist, have joined forces as a congregation of the United Church of Canada. The union was consummated at a meeting of representatives of the two denominations in the presence of officials of the Kingston Presbytery and the president of the Methodist Conference. The movement for union is slowly but surely making progress in all parts of Canada.

Particularly gratifying is the news of the destruction of the former German war ships Breslau and Goeben. In the light of present knowledge, the sight of these vessels in Constantinople is seen as moves in a game well understood between Turkey and Germany before the war started. Although nominally under Turkish register and name, they constituted German warships, and their destruction will cause more sorrow in Berlin than in Constantinople.

Buying and storing white flour now that the country is about to be deluged as a measure of war-necessity the manufacture of a uniform grade of flour is not patriotic and does not help the Food Controller in his very necessary wheat-saving effort. The duty of all good citizens is to loyally submit to the regulations which the necessities of war bring and not to make their enforcement more difficult by hoarding, which is selfish and altogether unnecessary, for the war flour will be good and wholesome and somewhat cheaper than that now sold. If your house is pledged to support the Food Controller, and you are one of those food-hoarding dealers with white flour caches, you are doing just what the Germans did, treating your pledge as a scrap of paper.

Two leading citizens of Düsseldorf, Germany, the brothers Schindler, are on trial before local courts for crimes against the German Red Cross. One was the local president of the organization, and the accusation is that they speculated in supplies purchased for the society. Before the court of world opinion, the German nation is on trial for crimes against the Red Cross; having bombed its hospitals, sunk its ships in violation of solemn agreements. The Belgian neutrality treaty was by no means the only document regarded by Germany as a scrap of paper. There are many reasons and the Red Cross sign is one of them, why the world cannot afford to make peace with Germany until Germany gives unmistakable signs of an intention hereafter to regard a national pledge as a sacred and binding obligation.

School for Deaf Comes to Wolfville

GENEROUS OFFER OF ACADIA COLLEGE TO ACCOMMODATE SIXTY PEOPLE—FORMALLY ACCEPTED

The generous offer of the Board of Governors of Acadia University to the Halifax School for the Deaf, that they would accommodate sixty of their pupils at Acadia, was formally accepted at a meeting of the Board of Directors of the School for the Deaf, held Tuesday. Mr. Pearson, director of the school visited the College at Wolfville last week to make inquiries and was most kindly and sympathetically received by Dr. Catten, president of the University and the professors.

The University will give over Rhodes Hall to the School for the Deaf for class room and the pupils will be housed in the hospital building. Mr. Pearson visited all the buildings and was most enthusiastic over the new quarters for his pupils. Practically the full privileges of the University will be extended to the pupils of the School for the Deaf. The library will be at their disposal, also in the work shops, recreation rooms and grounds.

Mr. Pearson was directed to express to the Governors of the University, through Dr. Catten, the high appreciation and gratitude of the Directors for their very great kindness and generosity.

Acadia is to be congratulated on this move. The generous offer will not only be accepted by the people of Halifax, but also those who are vitally connected with the School. Immediate steps will be taken to send the pupils now at their homes in New Brunswick and Nova Scotia to Acadia, and to begin school at Acadia in the fall of 1918.

Prohibition That Prohibits.

First class Legislation with enforcement by competent officials, ensures satisfactory prohibition.

The regulations to carry into effect the War Measures Act prohibiting importation, manufacture, and sale of provincial shipments of liquor, should provide adequate penalties and thorough enforcement. Even with the best possible regulations and most efficient enforcement there will be infractions of the Act, and for some time the Province will suffer on account of surreptitious importation and manufacture.

In view of this, and for other reasons, the Nova Scotia Temperance Act should be improved. One of its serious defects is to be seen in the penalties for violation. When in 1916 the Ontario and Manitoba Acts were framed the penalty for illicit selling or keeping for sale, was fixed at not less than \$200.00, nor more than \$1000.00 for first offence, and imprisonment for not less than six, nor more than twelve months for second offence. In 1918 our Alliance requested the Government to make the penalty for first offences instead of \$200.00 not less than \$50.00. This request was, at that time, considered unreasonable. In the light of Manitoba and Ontario Legislation we hope that our Government will at the coming Session of the Legislature provide adequate penalties, and in other respects make the law more effective.

In the matter of enforcement it is gratifying to say that in parts of the province we have officials who make the best possible use of the Act as it stands. With a satisfactory law we would, under these officials, have ideal conditions. But we have officials who are by no means energetic or capable and on this account prohibition is, in some places, without reason, of course, being discredited. With a defective law and incapable officials prohibition is simply not having a fair chance.

If our Government besides making the necessary improvements in the Act, provides proper enforcement Nova Scotia will in a short time enjoy the moral and material benefits that result from the kind of prohibition that prohibits. H. R. GRANT, General Secy. Temp. Alliance New Glasgow, N. S.

Rheumatism A Mystery.

THIS TROUBLE IS ROOTED IN THE BLOOD AND CAN ONLY BE CURED BY ENRICHING THE BLOOD

Some diseases give immunity from another attack, but rheumatism works just the other way. Every attack of rheumatism invites another; worse than that, it reduces the body's power so that each attack is worse than the one before. If any disease needs curing early it is rheumatism, but there is scarcely any disease that physicians find more difficult to treat successfully. When a medicine does cure rheumatism therefore it is worthy of special notice. Medical authorities agree that the blood becomes this with alarming rapidity as rheumatism develops. Maintaining the quality of the blood is therefore a reasonable way of preventing and combating rheumatism. That it works out in fact is shown by the beneficial effects which follow the treatment of rheumatism, acute, muscular and articular, with that great blood tonic, Dr. Williams' Pink Pills. That thousands of people who have taken Dr. Williams' Pink Pills for their rheumatism have been cured is a fact beyond dispute. That rheumatism does not return as long as the blood is kept rich and red is equally true. If therefore you are suffering from rheumatism in any form you should lose no time in giving Dr. Williams' Pink Pills a fair trial. Mr. A. E. Hinton, Western Ave., Toronto, says:—"Up to about a year ago, my wife had suffered for nearly three years from rheumatism, from which she suffered greatly. She had been under the care of several doctors, besides spending dollars on advertised cures, but did not get any relief. One day talking to a fellow clerk, she said her sister had been cured of this trouble by Dr. Williams' Pink Pills. Although not feeling very hopeful I took two boxes home that evening and urged my wife to try them. By the time they were used they had done her so much good that she required no pressing to continue the treatment, and after taking six or seven boxes she was completely cured. As I have said this about a year ago, and she had no return of the trouble since. I feel very grateful for the immense good Dr. Williams' Pink Pills have done my wife, and I hope other sufferers will benefit by her experience."

Grading of Potatoes.

The Fruit and Vegetable Committee of the Food Controller's office is considering regulations in regard to the grading of potatoes. The regulations, if adopted, will remove from the market all undersized, scabby, damaged and defective potatoes. Uniform grading by size and quality will save, so the despatch says, "an enormous amount of kitchen waste, and much freight upon the grower will not have to be returned to the consumer who will be sure of the quality of those he buys."

Potato grading is compulsory in Great Britain and will be practised in the United States, where its good effects have long been recognized. This grading system does not mean that the grower will receive more money for his potatoes, and the consumer will be sure of the quality of those he buys.

Potato grading is compulsory in Great Britain and will be practised in the United States, where its good effects have long been recognized. This grading system does not mean that the grower will receive more money for his potatoes, and the consumer will be sure of the quality of those he buys.

FEEDS

We have 15 different kinds of Hen Feed arriving within a day or two. Watch our windows.

FLOUR

You will make no mistake if you book a barrel or two of either Regal, Royal Household, Purity or Victory. At once.

Cranberries, 18c. per qt.
Mince Meat, (prepared) 18c. per lb.
Oleomargarine, 38c. per lb.
Sausages, (none better made) 25c. per lb.
Peanut Butter, (in bulk) 35c. per lb.

From Industrial Agent To Flight Commander

Interesting descriptions of incidents in the lives of flying men in England are given in letters to friends written by Acting Flight Commander Graham Waters Curtis, formerly Industrial Agent of the Canadian Pacific Railway in Montreal, who is now a flying instructor in England. The school in which he teaches is a vast expanse of country close to a beautiful seaside resort. He writes: "The view from the air is superb, and we often fly out over the British warships and wave to the sailors. When diving we only travel at the rate of about 175 miles an hour. I am kept very busy instructing, and am turning out a lot of expert pilots. The school I am connected with is one in which flyers finish their course of training. A lot of chaps from Borden come to us to get final lessons, and then they are sent to France. We do all kinds of fancy performances—loop the loop, roll, make spinning nose dives, side slips, and vertical turns. He describes how "little excitements" happen when one zooms into the "wash, or slip-stream of air" made by a preceding navigator. The letters indicate that Acting Flight Commander Curtis is a lucky master of the high school in which he soars. He says: "We have a lot of snappers, but very few deaths, considering everything. None of my pupils has been killed yet."

Acting Flight Commander G. W. Curtis.

Acting Flight Commander Curtis has lately been recommended by his commanding officer for a first lieutenantcy, and expects to be sent to France at any time. He joined the Royal Flying Corps on November 16th, 1916.

Municipal Council.

Continued from page 1

The Committee on Tenders reported in regard to Tenders for Collection of Rates in the several Wards as follows:

Ward 1, Collector, A. O. Sullivan, 4 1/2 per cent.
Ward 2, Collector, F. M. Vaughn, 4 per cent.
Ward 3, Collector, H. E. Egan, 4 1/2 per cent.
Ward 4, Collector, G. W. Porter, 3 1/2 per cent.
Ward 5, Collector, H. H. Kinsman, 3 1/2 per cent.
Ward 6, Collector, F. H. Denny, 6 per cent.
Ward 7, Collector, S. I. B. Kerr, 6 per cent.
Ward 8, Collector, G. W. Freholm, 3 per cent.
Ward 9, Collector, E. F. Huntley, 7 per cent.
Ward 10, Collector, R. J. McKenna, 5 per cent.
Ward 11, Collector, N. Pancy, 6 per cent.
Ward 12, Collector, M. E. Eaton, 5 1/2 per cent.
Ward 13, Collector, D. Wylie Lawrence, 3 per cent.

No tender had been received from Ward 14, and the appointment of a Collector for that Ward was deferred to April Term.

Mayor Pelton, of Kentville, addressed the Council asking that it become a member of the Union of N. S. Municipalities.

Coun. Parker moved that this Municipality become a member of that organization.

The motion carried and the Wardens and Clerks were appointed delegates to the next Convention.

Coun. W. L. Nichols moved that Overseers of Poor for Aylesford be authorized to assess that township in the sum of \$1000 to provide Alms House in place of that recently destroyed by fire. Carried and Coun. B. Underhill and W. L. Nichols were appointed a Committee to take further action in the matter of the Alms House.

A new Road in Centerville from railway crossing to main road near station of Mr. Whalen was added to District 7 Ward 5.

Council adjourned.

"A KNAVE DISCOVERED" IS A FOOLISH MAN

And the knave is always discovered when he advertises. Dishonest advertising is now very rare, simply because it does not pay. Good will and confidence are the foundations of successful business. Look over the ads in this paper, for instance, and you will find that all the regular and consistent advertisers are making reliable goods.
