**THE ADVANCEMENT OF WOMEN IN INDIA**

Under the auspices of the Women's Indian Association, there was a public meeting in Madras September 28th last, to protest against the decision of the Madras Corporation not to allow women to sit as Municipal Councillors. The meeting was attended by about 200 ladies, representing all castes and communities in Madras. The Women's Indian Association, which was responsible for organizing the meeting, has a central organization at Adyar (Madras), and was started in May, 1917. It has now 44 branches and 2,000 members. "The objects of the Association are to impress on women in this country their responsibility as daughters of India; to help them to realize that the future of India lies largely in their hands, for as wives and mothers they have the task of guiding and forming the character of the future rulers of India; to secure for women the vote for municipal and legislative councils as it was or might be granted to men and to secure for women the right to be elected as members on all municipal and legislative councils." Lady Sadasiva Iyer presided. There were many prominent women present, while letters of regret of inability to attend were received from others. Previous to this meeting of the women, there had been a motion in the Madras Municipal Council that women should be given the vote and a place in the council. It was lost by the narrow majority of two. The two men, the mover and the seconder of the motion, were present at the meeting by invitation, during which one of the men spoke explaining how the motion was lost.  
 Mrs. Muthulakshmi Ammal, M. D., moved the resolution of the meeting as follows:  
 "That this meeting of the women of Madras emphatically protests against the recent rejection by the Madras Corporation of the resolution recommending to government the removal of sex-disqualification which prevents women from becoming municipal councillors. It also calls upon the council to reintroduce the matter at the earliest possible moment and discuss it with the serious consideration on which it merits."  
 The report of her speech as given in the Madras Mail is as follows:  
 "In the course of an eloquent speech she said that so long as the Madras Corporation collected taxes from women, it was unfair and unjust to refuse women seats on the Corporation Board. If women were admitted into the corporation, the work of that body would be done

**Is Now a Healthy Boy**

**"From a puny, delicate child, my little Johnny has become a strong sturdy boy."**

One mother writes:—"If you had seen my little Johnny four months ago and you were to see him to-day, you would never believe that he is the same boy. Then he weighed only 49 pounds. To-day he weighs 90 pounds, almost double what he weighed four months ago. His trouble first started with a cold, which we never noticed because he was strong and like all boys of his age occasionally caught cold. After a while we began to notice that his cough, instead of getting better, was getting worse, that he was looking pale and losing weight. He seemed to be tired all the time, had no energy to do anything. Before he caught this cold he had no trouble with his lessons and remained at the head of his class without much study. But we began to notice a change. He didn't seem to care whether he knew his lessons or not and nothing seemed to interest him. He coughed so much and so hard at times that his face would become purple and we thought he would surely burst a blood vessel. Medicines and cough mixtures didn't do him any good. Finally, in desperation and as a last resort, we tried Carnol. In a short time his cough had almost disappeared. His appetite was returning and he was beginning to take an interest in his studies. And, thanks to Carnol, he has become a strong and healthy as he has ever been."

infinitely more satisfactory than at present. The corporation would be better off financially, it would be better off from the point of view of sanitation, and it would be able to reduce the appalling infantile mortality. Was it not the case, that in a house the presence of a woman conducted to health, thrift, and sanitation? If the lady of the house was absent for a few days, to what a sorry plight the place became reduced! The husband developed dysentery owing to food badly cooked, he had no idea what money he was spending, and the house was everywhere littered with dirt and dust. And thus considering that the presence of a woman meant orderliness, thrift and health, it was great folly on the part of these municipal councillors who had voted for the tabooing of women from their midst. The presence of women on the corporation would also lend dignity and decorum to its meeting."

**The Sequel**  
 Just a little more than half a year later (May 11th, 1922), did the Madras Corporation resolve without a dissentient voice, to request the government to nominate to the council an Indian lady. "We do not know," says the Madras Mail, "to what cause this rapid growth is to be attributed, but we have a suspicion that the ladies of their household have been non-co-operating, thus bringing their recalcitrant spouses to an understanding of the merits of women, by a course of conduct suggested by a lady speaker at the women's protest meeting in September." The world does move when things like this come about in India, a country more impervious and more resistant to change than any other land.

**ENGLISH BOWLER IS CHAMPION BY NAME AND NATURE**

LONDON, June 30.—The remarkable performance of a bowler named Champion, who playing for the Durham Athletic Club against the Athenaeum Club recently, secured the hat trick three times, and took sixteen of the twenty wickets for three runs has brought to light a number of extraordinary feats performed by bowlers in bygone days. Although Durham scored but 44 runs in their innings, this meagre total was enough for them to win by an inning and seventeen runs.

Ten years ago almost to a day W. Clark, a fifteen-year-old boy, a very fast left-hand bowler, playing for St. Augustine's College, Ashford, against the Ashford Church Choir, did the hat trick three times in the first innings and twice in the second.

County cricket records show that Champion's feat of taking sixteen wickets in two innings has been bettered no less than a dozen times, and it is on record that in 1881 in a small match in Australia E. R. Spofforth bowled all ten wickets of his opponents in each inning. This was duplicated six years later in Melbourne by J. Byrant while playing for Erskine.

To Dan Hayward, of Cambridge, one of the four Hayward Brothers whose names have meant so much to English cricket, there is credited a lengthy list of remarkable bowling achievements.

Dan Hayward was a slow right hand bowler and some twenty years ago, was rated very highly. It is claimed that he has at least on a dozen occasions taken all the wickets in an innings. Bowling for Cambridge against Norfolk in 1898 Hayward captured all ten wickets and in 1903 he took all ten wickets off Eton Ramblers for 35 runs. In the same year he took eleven wickets for five runs in the Kimblyon vs. Keysoe match. In 1891 bowling for Cambridgeshire against Leicester he took 13 wickets for 58 runs, and in 1890 Hayward scored 89 runs, took six wickets and made three catches. He was also a strong batsman and twice passed the century mark.

**I. O. D. E. WILL HOLD FETE**

On Thursday, Sept. 14, the members of the Sir Robert Borden Chapter, I. O. D. E., expect to hold a monster fete in Wolfville, to which the countryside are invited to participate. The college authorities have very kindly donated the grounds west of the tennis courts, adjacent to Main Street and including the beautiful grove of trees in front of Memorial Gymnasium, for this occasion. Booths will be erected for the sale of various articles including aprons, fancy work, pickles, preserves and ice cream, candy and home cookery. Tea will be served and music furnished and everything will be done to make it a gala day for Wolfville—a day long to be remembered in its annals. All citizens who are interested are invited to contribute and to be present. The I. O. D. E. stands for service—both patriotic and local. No just appeal for aid has ever been declined by this body of devoted and enthusiastic workers. This past year little children have been clothed, mothers of families assisted with medical treatment and hundreds of dollars distributed where the need was great. Remember the date—Sept. 14—and be prepared to make this fete a huge success.

Rev. H. F. Laflamme, secretary of the federated churches of America, who with Mrs. Laflamme is making his regular summer visit to Wolfville, was the preacher at St. Andrew's church last Sunday morning. His address in view of the attendance of many of the delegates to the Missionary Conference was along the lines of missionary activity and was an able and eloquent plea for world evangelization. Rev. Mr. Laflamme is well known in Wolfville and is always heard with pleasure and profit. The soloist at this service was Mr. Abbott Cumming, of Halifax, who rendered two selections which were greatly enjoyed.

**The Proof of The Pudding**

It is not so much what we say about our Long Distance Service that counts. It is what users of the Service say. The following letter, which we have received from one who makes a large use of the Service, is an eloquent testimonial in its favor.

The Maritime Telegraph & Telephone Co. Ltd.,  
 Halifax, N. S.

Dear Sirs:—

We take pleasure in advising you that we find your Long Distance Service very satisfactory as a means of communication for the increasing of business and making sales. In fact we regard it most essential for the carrying on of our business. Your monthly bill to us is ample evidence of this, averaging as it does between 400 and 500 dollars per month.

Yours truly,

ADVERTISING turns over stocks rapidly, and therefore multiplies profits. This means that prices in a shop which advertises can be short rather than long.

Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower.

This also is generally true: You will find better goods, better values and better service in those shops which turn over their stocks rapidly. This means, as a general thing, shops which advertise.

**A NOTE TO MERCHANTS**

Advertising costs you nothing—it is paid for by the profits on increased sales.

Advertising is easy—it is simply saying in writing what you say to the customer in your shop. Turn over stocks quickly, if you would make more money.
