THE EVENING ADVOCATE, ST. JOHN'S, NEWFOUNDLAND, JUNE 30, 1917-8.

MEETING OF THE W.C.T.U.

The Women's Christian Temperance Union met in the usual place, King George's Institute, on Thursday past for their regular meeting, the President, Mrs. Vey, in the chair. The opening exercises were conducted by Evangelist Superintendent Mrs. Martin, Mrs. Diamond assisting. Business over arrangements were made for carrying on the ordinary work of the Union during the summer months. As usual meetings, unless specially called for, will be discontinued during the months of July and August. The protracted illness of Mrs. Pippy was much regretted. Her unselfish labor for the betterment of the community are well known. All agreed the wish that she may soon regain her usual strength and vitality.

Mrs. Greene, for 17 years an active member, who goes shortly to Canada, leaves her homeland with the best wishes of her associates in the work. As a mark of esteem, a gold souvenir brooch in a velvet case was to have been presented to her, but as she was prevented from being present, the gift will be given privately.

The June meeting (at the Penitentiary) was conducted by Mr. Parkins, who gave an effective address. Mrs. Young also contributed a solo. Tokens of the appreciation of these services for a class considered more than ordinarily careless are not entirely wanting, giving fresh courage to those who never grow weary in well doing. At the close of the Union's last meeting for the season, the President thanked the members who had served so faithfully on Committees throughout the winter months, and after a few words of prayer the meeting adjourned.

COLD STORAGE PLANT STARTS OPERATIONS

The Newfoundland Cold Storage Fresh Fish Corporation began work last evening at their plant in the West End of this city. Twenty-five thousand lbs. of caplin were put into one of the freezers and the machinery started up. This morning the experts in charge were well pleased with the results obtained which are more on experimental lines than real business. It takes a few days to get the rooms in which the fish is frozen at proper temperature. Only one room is being used to-day, but we are informed that the Company will be ready to take fish on Monday. When Mr. Cowan arrived in this city to begin the work of construction he informed our reporter in an interview that he expected to have things going at full swing by July 15th and he certainly has made good in his calculations. We wish the enterprise every success.

FATAL ACCIDENT AT BONAVISTA

This morning the Deputy Minister of Justice received the following message from Magistrate Roper at Bonavista:
"A girl named Phoebe Little, aged eight years, fell over a high cliff into Frenchman's Gulch last evening and died at midnight from injuries received."

Albert Lee, of Newfoundland, who was a member of the crew of the Nova Scotia schooner Emily J. Patten and was left behind at a Mediterranean port when he was taken sick while his vessel was at that port, arrived here yesterday from Boston, where he landed from a transatlantic steamer.—Halifax paper.

BANK MANAGER IS TRANSFERRED

Mr. F. H. J. Ruel, who has been manager of the Bank of Montreal at Curling for the past seven years has been transferred to Montreal and is leaving for there by Wednesday's train. On the evening of the 26th inst., a number of Mr. Ruel's friends waited upon him at his home and presented him with the Address, which appears below and expresses the high esteem in which Mr. Ruel is held in the community. Accompanying the Address was a handsome pipe. Mr. Ruel replied very feelingly to the Address and afterwards several of those present expressed their personal regret at the departure of Mr. Ruel and referred to the loss which the community will sustain by his removal. Amongst those who expressed their sentiments of regret were Messrs. McEvoy, Jas. H. Baggs, Rr. Fisher, A. E. Brake, George Allen and others. The close of the speech making a luncheon was served in which Mrs. Ruel was assisted by her daughters, Mrs. McEvoy, Messrs. Rendell and McCormack of the bank staff.

ADDRESS

F. H. J. Ruel, Esq.

Dear Mr. Ruel—In view of your approaching removal to the great Commercial Metropolis of Canada, a few of your friends here at Bay of Islands feel that they cannot permit you to depart without attempting in some way to voice their appreciation of your endeavours during your sojourn amongst us.

As Manager of the Bank your intercourse with all those who have found it necessary to do business with that institution has been most considerate and kindly and has in a large measure tended to popularize the institution with the general public.

Your deep interest in the trade of the place has been evidenced by your repeated election to the Presidency of the Board of Trade.

Along social and friendly lines your geniality and readiness to co-operate in any effort to advance the best interests of the community has always been marked and decisive.

Last, but not least we would refer to your consistent and enthusiastic efforts to create amongst us sentiments of sterling patriotism. At all times have you evidenced a readiness to assist either by voice, pen or pocket, in the supreme effort in which our common country is now engaged in the varied phases to the end that justice and equity may be established and brute force and despotism overthrown.

We ask your acceptance of the accompanying small gift, not as a measure, but rather as an earnest of the kindly sentiments which we wish to convey to you.

Wishing you every success in our new field of labor, and with kindest expressions toward Mrs. Ruel and wishers.

family, we are, your sincere well

METH. CONFERENCE

AFTERNOON SESSION, JUNE 29th.

The session of the afternoon was filled with the general business of the day until about 4.30 p.m., when a Memorial Service was held in memory of those who had paid the great price on the Field of Battle.

The service started a little later than the appointed time but no one present felt sorry, for Mr. Arthur Mews the organist of Cochrane St. Church gave us a selection of music on the organ which was most delightful, and we were all glad that he had the opportunity which gave us such a treat. The service really started about 5 p.m. and was most impressive. The President having taken his place, and a goodly number of people present, besides a contingent of Naval and Military. The service was opened with Hymn 840 "O God Our Help in Ages Past," after which the Rev. A. Holmes led in prayer. Then the Rev. C. Whittemore read the Ps. 46 for a lesson, followed by the giving out of Hymn 843.

The President then spoke a few words by way of introduction followed by the Rev. Dr. Curtis with the following resolution:—"Resolved that Conference place on record its high admiration of the sublime heroism displayed by all our soldier boys on the field of battle, and our esteem on H. M. ships of war, and the magnificent devotion to duty and supreme self-sacrifice of those who have offered up their lives on the Altar of Empire for the cause of righteousness and justice in the earth."

Further resolved that to the sorrowing relatives and friends the Conference tender sincere sympathy with earnest prayer that the God of all comfort may graciously sustain and solace them in their great sorrow and irreparable loss."

The above resolution having been placed before the Conference it was voted unanimously with a standing vote. The hymn 552 was then sung after which Mr. Hull, the principal of the Deacons Home in Toronto, and a member of the Army and Navy Board of Canada gave an address.

The address though short was very impressive and as he spoke to our boys he warned them of the dangers which were the physical, for they all knew how great that was, but the moral and spiritual. He also pointed out to them that though they may be absent in the body we should never forget them. They would always be had in remembrance by those whom they had left behind, and that the result of their action had been and would be to make us all a better people with a little less selfishness and an outlook not quite so narrow. England, said he can never be the same after this war. We are learning the true value of things and our boys by their self-sacrifice are teaching us the things that abide. At the close Hymn 450 was sung, and the Benediction pronounced. Then while the congregation remained standing the Dead March in Saul was played and thus the service ended.

EVENING SESSION

The Session last evening was opened to the public and the subjects of discussion were Social Service and Evangelism. As in all the previous sessions printed questions were distributed and some of these questions proved to be of intense interest to those who were present. The debate was intensely interesting, though in some cases, if not all, it failed to bring forth a satisfactory solution. This was due largely to the lack of time and secondly to the large number of questions awaiting solution. However there were some very good debates on the following questions.

Have amusements a religious value?

What is the Church doing to Christianize them?

What can the Church do to safeguard the morals of our youth?

Is the attachment of the labouring man to the Church as strong to-day as in the past?

What effort can the Church make to secure a living wage for the labouring man?

In relation to the second Department viz Evangelism there was only time for one question and it was this: "Are the Prayer Services of our Church as well attended to-day as in the past? If not, why not?"

All the above questions received aroused intense interest.

LOCAL ITEMS

Lance Corporal R. H. Voisey, a returned soldier, entered the General Hospital yesterday to receive further treatment to his wounded foot.

The new steam roller imported by the Municipal Council for street making arrived by the last Florizel and is now being put together on Water Street just east of the Custom House.

Royal Naval Reservist Eli Hayward, who left the General Hospital a few days ago, re-entered the institution yesterday his health having become much worse after leaving.

Mrs. John Kelly, of Cupids, arrived by yesterday's train and was conveyed to the Hospital in the ambulance. She is suffering from acute appendicitis.

Inspector Lawlor, of the Public Health Office, yesterday continued his inspection of back yards. He tells of a greatly improved condition of affairs this year; where in other years unsightly accumulations of refuse were to be found; there are now little garden plots in which vegetables are being raised to help supply the family table.

INDUSTRIAL ASSOCIATION

The Newfoundland Industrial Workers' Association held a largely attended meeting last night in the L. S. P. U. Hall. President Bennett occupied the chair.

The President opened the meeting by explaining, for the benefit of new members, the aims and objects of the Association.

The Registration Committee reported, and gave an outline of the work done, in conjunction with the General Committee, in revising the existing constitution. It was moved, seconded and carried, that these Committees have power to alter or revise the constitution so that the Association may be registered as soon as possible.

The Delegation that interviewed the Premier Thursday on the question of Food Control reported to the meeting. They had met the Premier in the Council Chamber at the hour arranged and had placed the matter before him squarely in man fashion, face to face as it were, giving him clearly to understand what the Association wanted and that they would see that the Board of Food Control acted fairly and squarely with the flour dealers and public alike. The Premier had expressed his sympathy with the object of the Delegation's visit and told them that the Government had the matter under consideration, and would also consider the taking back of excess profits made on account of the war. He had received no communication from the flour dealers on the Food Control question, the only communications he had received were the resolutions and letter from the Industrial Workers. He would bring the matter immediately before the Executive Council.

The report of the Delegation was accepted and the Committee was empowered to sit again. Should no answer from the Government, or an unsatisfactory one, be received by next Friday, the Association will adopt other measures to have their decision on Food Control carried into effect.

The Report of the Coal Committee was received and approved. Correspondence was read and ordered to be filed. One communication was a telegram from Mr. G. W. Gent, Trinity, strongly supporting the Association's letter to the Premier on Food Control, and advising the Association to "Keep at it."

The coal list was then opened and members present gave orders for two-thirds of the cargo arranged for. They will hand in a deposit on the orders next Friday night and pay the balance when the ship arrives. Delivery will be made from the ship's side.

It was decided that the first Friday in each month be the date for payment of monthly dues.

The book system of enrolling members was endorsed by the meeting. Seventy-two new members joined since last meeting making a total of 475 on the roll.

The workmen's compensation act was discussed and cases where it was evaded were spoken of. The Association will see that its provisions will be complied with in every instance that comes under notice of the members.

Argyle left Baine Harbor 8.20 p.m. yesterday, inward.
