### The Maritime Bank.

#### Montreal Gazette.

With reference to the widely circulated reports telegraphed from St. John, N. B., that boys were used by Messrs. Guy, Boyan & Co. and the Messrs. Stewart as endorser to give currency to their exchange in the New York and Canadian markets, we are informed that no exchange on either firm was ever offered or sold with any other endorsement than that of their bankers. Those dealing in exchange will very readily understand that the report originated from the practice which prevails in the largest banking institutions everywhere of drawing exchange in the name of one of the clerks in the bank, the object being to make the bill negotiable without disclosing the real buyer. The Maritime bank, like others, no doubt made use of this custom, but to attribute any fraudulent intent either to the bank or its customers on this account would be once appear absurd to those familiar with banking.

### Scott Act as a Low Kick.

The effects of the non-enforcement of the Scott act was plainly evident on Saturday night last and on Sunday. A drunken brawl took place at St. Mary's on Sunday afternoon, in which a number of the muscular youths of Gibson figured prominently. Two noted tipplers belonging on this side came over to town after the fight and began some demonstrations, when they were run in the lock-up. The arrests took place on York street as the people were gathering to the churches. The men were each fined \$5, which they paid. Several drunk and disorderly persons frequented the bridge last night. When the Christian Science craze is over probably we may expect another effort to have the act enforced.
