The maximum and minimum columns show the highest and lowest temperture in the 24 hours.

Miscellaneous.

The prevalence of scrofulous taint in the blood is much more universal than many are aware. Indeed, but few persons are free from it. Fortunately, however, we have in Ayer's Sarsaparilla, the most potent remedy ever discovered for this terrible affliction.

Professor—"Can you tell me who was Aristophanes, and how long he lived?" Student—"I'd like to accommodate you, professor, but the truth is I don't know as much about him as you do!"

The entering wedge of a complaint that may prove fatal is often a slight cold, which a dose or two of Ayer's Cherry Pectoral might have cured at the commencement. It would be well, therefore, to keep this remedy within reach at all times.

Aunt Susan (to Boston girl who has just returned from New York)—"And how did you enjoy yourself, Carrie?" Carrie—"I had a very enjoyable visit, aunt; but it was positively shocking to see so many people without glasses."

To keep the beard from turning gray, and thus prevent the appearance of age, use Buckingham's Dye for the Whiskers, the best dye made.

A medical journal condemns the use of heavy overcoats, and no one need be surprised if they are generally discarded between now and June.

MESSRS. C. C. RICHARDS & Co.

Gents,—Having used MINARD'S LINIMENT, for several years in my stable, I attest to its being the best thing I know of for horse flesh. In the family, we have used it for every purpose that a liniment is adapted for, it being recommended to us by the late Dr. J. L. R. Webster. Personally I find it the best allayer of neuralgic pain I have ever used.

B. TITUS,
Proprietor Yarmouth Livery Stable.

Among other recent important scientific discoveries is the fact that a woman can be cured of angular penmanship by telling her that she and her handwriting look alike.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

The Sultan of Turkey has reinstated the cooks he recently discharged because they wanted their wages. He has paid them one per cent. and agreed to spare their lives.

Mothers

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

In No Hurry.—Little girl—If I should die and go to heaven would I have wings? Mamma—Yes, my pet, and a crown and a harp. Little girl—And candy? Mamma—No-o. Little girl (after meditation)—Well, I'm glad we've got a good doctor.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper. W. A. NOYES, 149 *Power's Block, Rochester, N. Y.* cow.

Too Well Recommended.—Mrs. Perkins (desirous of hiring a colored boy to wait on the table)—"Do you think your boy will give satisfaction? Mother of boy—"He can't help gibbin' satisfaction, mum. He'll treat you same's if he were your own son!"

Lazier, an Eastern Ontario man, was playing billiards at the Rossin house the other evening when he was accosted by a stranger who had been directed to the table to find Long, a spectator. Stranger—"Are you Long?" "No, I'm Lazier," was the reply, which brought a flush to Long's face and a hot demand for explanation.

CONSUMPTION SURELY CURED.

TO THE EDITOR:—

Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured, I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their Express and P. O. address.

Respectfully, DR. T. A. SLOCUM, 164 West Adelaide st., Toronto, Ont.

TRADE NOTES.

Advices form the north shore indicate that business will be much better than usual this year, principally because of the advance in the price of deals in England. Most of the mill-owners hold over large quantities of deals and these they have sold at an advance of $2 or $3 on last year's prices. In the case of Messrs. O'Leary, Brown and others, who had several millions each, a large profit will be realized. Then the operations in the woods during the winter were pretty large and all the logs are coming out well. All the mills will be in operation this year, including those on the Miramichi some of which have been busy for some time. The Kent Lumber Company have built a fine new mill at Richibucto, and many of the old mills up to the Restigouche have been repaired and refitted. Many vessels have already been fixed for Campellton. The shingle industry is booming and it is expected that a very large business will be done this year. The shingles are for the American market. The principle shingle mill is at Bathurst and is owned by an American company. Mr. A. K. Shives's mill at Campbellton will cut shingles as well as lumber. Mr. Alfred Mills has bought and will operate Mr. A. G. Walsh's shingle mill at Eel River. C. S. Shaw & Company are operating a shingle mill five miles above Campbellton. Mr. Shaw is a Portland man. The lobster business was not very profitable last year as the fish were scarce, but better prices are now ruling, and there are hopes too that more lobsters will be found. A smaller number of people will go into the business. Mackerel fishing last season was not a success, but the fleet will be on the grounds as usual this season. Many tourists are expected this year to fish in northern waters, and to leave a little cash behind. The season is the earliest for many years.—*Globe.*

A CYCLONE DOES TERRIFIC DAMAGE TO PROPERTY.

HUTCHINSON, May 8.—The wind storm which prevailed over Kansas for three days culminated in a destructive cyclone in the eastern part of Stafford county on Monday night. The district visited was but sparsely settled. Had it been otherwise the loss of life and property would have been something terrible. As it was scarcely a vestige of farm improvement is remaining. Houses and barns were demolished, trees torn up by the roots and in many places growing crops were literally blown out of the ground. The air was filled with dust and the sky was thick with black clouds and deep toned thunder and frightful flashes of lightning. The funnel shaped cloud came dipping its remorseless tail to earth and obliterating whatever obstructions lay in its pathway, drowning in its roar the peals of thunder and blinding by its darkness the forked flashes of lightning. Men and women who witnessed the oncoming tornado were paralyzed by its awful terrors while horses and cattle seemed to fully realize their impending doom. The path of the storm lay through Stafford county, extending through the southwest to northwest and slightly east of the centre of the county. The farmhouse of E. Slade was swept away and hardly a splinter of it left. The family were considerably bruised, but none have died. The house and barn of A. Guines are gone. Guines was badly injured. Mrs. A. Potter had her house and stable blown away but family escaped uninjured. The house of Mrs. Lindsay was torn into pieces and Mrs. Lindsay probably fatally injured. George Deves' house was demolished and his little girl fatally hurt. S. Crawford's residence was blown away and his son William killed. J. L. Love's house is a thing of the past. His wife was blown fifty feet north of the house into a wagon to which she clung, and it carried her 100 yards further. She was fatally injured.

TEA FROM CHINA TO LONDON VIA ST. JOHN.

A consignment of 500 half chests of tea direct from China, arrived here this morning by the Intercolonial for shipment in the steamship Damara now loading for London. This tea came over the Canadian Pacific railway, and is the finest that ever was brought to St. John for shipment. If this can be done with a light article like tea, where the difference is only 99 miles in favor of St. John what may we not expect with grain and other heavy goods, where there is a difference of 277 miles in our favor, over Halifax. —St. John *Gazette.*

Children Cry for Pitcher's Castoria.

Farm and Household.

SEWING ON BUTTONS.

"When I get on the bright idea, I always wait to pass it along," said a lady, as she sat watching a young girl sewing. "Do your buttons ever come off, Lena?"

"Ever! They're always doing it. They are ironed off, washed off, and pulled off until I despair. I seem to shed buttons at every step."

"Make use of these two hints when you are sewing them on, then, and see if they make any difference. When you begin, before you lay the button on the cloth, put the thread through, so that the knot will be on the right side. That leaves it under the button, and it prevents it from being worn or ironed away, and thus begining the loosening process.

"Then before you begin sewing, lay a large pin across the button, so that all your threads will go over the pin. After you have finished filling the holes with thread, draw out the pin, and wind your thread round and round beneath the button. That makes a compact stem, to sustain the pulling and wear of the buttonhole.

"It is no exaggeration to say that my buttons never come off, and I'm sure your's won't, if you use my method of sewing."

FARM AND GARDEN WORK.

One of the important questions for many farmers to decide, is whether it will pay for them to increase the area of the root crops. Root crops can be easily made a failure; they require attention at the proper time, or the weeds will get the mastery and the crop is ruined. A determination to succeed is necessary. Parsnip is a root mainly confined to the kitchen garden, but it is one of the most valuable for the farm animals; it is about as nutritious as carrots, and, unlike those, perfectly hardy. If not convenient to harvest them, they may be left in the ground all winter to be dug during a thaw or early in the spring, and be all the better for the exposure. The roots are always marketable at paying prices. Mangel-wurzel is an admirable root crop if given a rich soil and careful culture; the yellow varieties are preferred to the red. Corn is the great crop with most farmers. There is no crop so greatly influenced by care in the selection of seed, and by giving proper attention to this, one can in a few years establish a variety better suited to his farm. The selection must begin in the field selecting from stalks that bear more than one ear; selection for sizes of ears, number of rows, etc, can be made at harvest. Grasslands, whether meadow or pasture, amply repay any attention in the way of fertilizing that may be given them. A top-dressing works wonders especially upon clover. Potatoes, at least the early ones to be planted, may be forwarded greatly by exposing them to the light in a warm room. If it only has the effect to green them it will be a help. Make the first sowing of fodder corn as soon as the land is in proper condition. Green manuring affords the cheapest and most effective method of enriching the soil. Buckwheat is the best crop for a very poor soil. Where wheat is cultivated, the field is cross-ploughed very lightly or the grain sowed upon the surface and worked in with a cultivator.

A USEFUL CEMENT.

The following mixture has been used with the greatest possible success for the cementing of iron railing tops, iron gratings to stoves, etc.; in fact, with such effect as to resist the blows of a sledge-hammer. This mixture is composed of equal parts of sulphur and white lead, with about one-sixth portion of borax, the three being thoroughly incorporated together, so as to form one homogeneous mass. When the application is to be made of this composition, it is wet with strong sulphuric acid and a thin layer of it placed between the two pieces of iron, these being at once pressed together. In 5 days it will be perfectly dry, all traces of the cement having vanished and the work having every appearance of welding.—*Popular Science News.*

GOOD CALVES.

If we are to have good calves we must give them a chance. We cannot feed or coax a calf that has no constitution to begin with into a good calf or a good cow. We must begin with a good dam and a good sire. Both must have strong constitutions and be free from marked defects. The cow ought not to be expected to give milk and produce a perfect calf. She ought to go dry for sixty days before calving time. Those of us who are in the most hurry to get a calf away from the cow ought to remember that the milk is not fit for use for several days. Let the calf suck for a week; then give it new fresh milk twice a day and warm skim milk once a day. Beginning with about two quarts gradually increase it. A calf will be greatly benefited by a little oil meal, a very little to begin with—a teaspoon is enough—and making it larger by degrees. It is very nourishing and serves to keep the bowels in order as well.—*Rural.*

AMMONIA AS A CLEANSER.

Ammonia is a favorite substance for cleaning clothing. The ammonia should be well diluted with water—fifteen drops are enough in a small basin of water. A piece of flannel is saturated with the dilution and rubbed on the grease spot until it is removed; after which that place on the cloth is sponged off with clear water. Dry somewhat and iron when damp. Ammonia water is also recommended to remove the shiny look from a black coat, but it is not good for much for this purpose. Strong black coffee, to which have been added a few drops of ammonia, is said to be good for cleansing a black coat that needs a thorough renovating. —*Good Housekeeping.*

ALL DRUGGISTS KEEP IT

DAVIS & LAWRENCE, Co. LTD MONTREAL PROPS

WORMS For the removal of worms of all kinds from children or adults use DR. SMITH'S GERMAN WORM LOZENGES. Always prompt, reliable, safe and pleasant, requiring no after medicine. Never failing. Leave no bad after effects.

Price, 25 cents per box.

Prof. Law of Cornell University, veterinarian of high reputation, says:

"The causes of heaves are overfeeding in clover hay, chaff, cut straw and other innutritious foods. In Arabia, in Spain and in California, where there is no winter feeding on hay, and in our Territories, where clover is not used, heaves is virtually unknown; it has advanced westward just in proportion as clover hay has been introduced as the general fodder for horses, and it has disappeared in England and New England in proportion as the soil has become clover sick, and as other ailment had to be supplied. The worst conditions are when a horse is left in the stall for days and weeks, eating clover hay or even imperfectly cured, dusty hay or other kinds, to the extent of thirty pounds and upwards daily, and is suddenly taken out and driven at a rapid pace. Violent exertions of any kind and diseases of the lungs are also potent causes. It is mainly a disease of old horses but many attack the colt of two years old. Finally horses with small chests are most liable, and thus the disease proves hereditary."

Expenses incurred in draining land that is only occasionally too wet is often similar to money paid for insuring property against fire loss. The investment seems wasted till a wet season comes.

Ask For Ayer's

Sarsaparilla, and be sure you get it, when you want the best blood-purifier.

With its forty years of unexampled success in the cure of Blood Diseases, you can make no mistake in preferring Ayer's

Sarsaparilla

to any other. The fore-runner of modern blood medicines, Ayer's Sarsaparilla is still the most popular, being in greater demand than all others combined.

"Ayer's Sarsaparilla is selling faster than ever before. I never hesitate to recommend it."—George W. Whitman, Druggist, Albany, Ind.

"I am safe in saying that my sales of Ayer's Sarsaparilla far excel those of any other, and it gives thorough satisfaction."—L. H. Bush, Des Moines, Iowa.

"Ayer's Sarsaparilla and Ayer's Pills are the best selling medicines in my store. I can recommend them conscientiously."—C. Bickhaus, Pharmacist, Roseland, Ill.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

I have sold your medicines for the last seventeen years, and always keep them in stock, as they are staples. 'There is nothing so good for the youthful blood' as Ayer's Sarsaparilla."—R. L. Parker, Fox Lake, Wis.

"Ayer's Sarsaparilla gives the best satisfaction of any medicine I have in stock. I recommend it, or, as the Doctors say, 'I prescribe it over the counter.' It never fails to meet the cases for which I recommend it, even where the doctors' prescriptions have been of no avail."—C. F. Calhoun. Monmouth, Kansas.

49 Years' Experience proves that PERRY DAVIS' PAIN-KILLER is the best Family Remedy for

Burns, Bruises, Sprains, Rheumatism, Neuralgia and Toothache.

Sold Everywhere at 25c. and 50c. a Bottle.

Beware of Counterfeits and worthless Imitations.

Parsons' Pills

These pills were a wonderful discovery. Unlike any others. One Pill a Dose. Children take them easily. The most delicate women use them. In fact all ladies can obtain very great benefit from the use of Parsons' Pills.

One box sent postpaid for 25 cts., or five boxes for $1 in stamps. 30 Pills in every box. We pay duty to Canada.

The circular around each box explains the symptoms. Also how to cure a great variety of diseases. This information alone is worth ten times the cost. A handsome illustrated pamphlet sent free containing valuable information. Send for it. Dr. I. S. Johnson & Co., 22 Custom House Street, Boston, Mass.

ALABASTINE! FOR Walls and Ceilings.

We have it in 11 different colors, as follows: Blue, Deep Pearl, Fern Green, Brick Priming, Sage Green, Ashes of Roses, Buff, White, Neutral Grey, Soft Pink, Light Oil.

The price of a package is only 50 cents, and it will cover 60 square yards, two coats. Ready for use by adding hot water.

Alabastine is in no way like the kalsomine preparations sold under various names. Instead of being an inert mixture, dependent on glue to hold it to any surface, Alabastine forms a permanent coating for walls, is hardened on the wall by age and moisture, and the surface is strengthened by every coat added from time to time. It forms an adhesive coat, not of a glutinous or gummy nature.

Sample cards sent on application. Liberal discount to dealers.
