Mr. and Mrs. Jack. Williston spent Sunday in Hardwick Village.

And it makes lighten flakier Pie Crusts, Tarts, Doughnuts and Cookies than you ever got with Western Spring Wheat Flours.

"Beaver" Flour is milled of blended wheat. It contains Ontario Fall Wheat (famous for pastry making) blended with Western Spring Wheat to add strength.

You save shortening—and you get a flour that is always the same in quality and strength—when you use "Beaver" Flour, the only kind of flour that is equally good for Bread and Pastry.

#### **BAKE MORE QUICKLY AND** USE LESS FUEL

A new heating principle with numerous distinctly new fastures. In alt old style Ranges heat cannot go into the Oven
until the fire burns up wall emough to allow the dampers to be closed.

In the high Oven Range the Oven is heated with the very first kindling because it is in the direct path of the fiames so it becomes ready for baking very quickly and requires less fuel to dush baking. Heat is in this range travels the mitural way UP so forcing dewn of the heat and amoke.

EVERY WOMAN SHOULD SEE THIS RANGE AT
