

GAVE COLONIALS GREAT RECEPTION

Canadian Light Horse Band Earned Flattering Praise at the Dublin Exhibition.

The Irish Times gives the following interesting account of the triumphal performances of the Calgary band during their recent visit to the Dublin exhibition:

The exhibition presented an animated spectacle on Saturday evening. The weather proved very favorable, though occasionally rain threatened. The grounds were illuminated on a highly effective scale. The picture was prettily between the Entrance Hall and the Central Hall. In this picturesque portion of the grounds, Japanese lanterns were suspended from arching bamboo canes, chains of fair lamps bordered the walks; and amongst the trees and shrubs multi-colored lights gleamed, while dotted about the grounds were clusters of lights artistically arranged in charming devices. The scene was one from fairy-land. Crowds of promenaders filled pathways, but the gathering was greatest, as usual, near the central band stand, where the evening was pleasantly whiled away by capital music. During the early portion of the evening the "Fugh-a-Bahags" rendered an agreeable programme in characteristic style.

The Calgary Band. At 8 o'clock they gave way to the Canadian Light Horse band, whose visit, unfortunately, was about to close. Everyone felt sorry it was their farewell programme, for the Colonials were heartily favored. From the first they won hosts of admirers, and as their stay advanced their friends increased, so it was not surprising that when the time came for the band to take place, the band's capable conductor, Mr. Donald Campbell, arranged an admirable farewell programme that included many of the pieces, which gave such pleasure during the past fortnight. It was as follows:

March "Dunlop Commandery" (Hally); "serenade" "Baby's Heart" (Corri); Irish overture, "The Racket at Gilligan's" (De Witt); waltzes, "The Fossilion" (Fairbach); piccolo solo, "Dance du Snyre" (Shiere) musician, Boyt; grand selection, "Faust" (Gordon); cornet solo, "Killarney" musician, Joiner; descriptive piece, "A Hunting Scene" (Bucalos); descriptive piece, "The Indian Campaign" (Gordon); English Melodies, "Sounds from England" (Langly).

Each number was effectively rendered, and many encores were demanded. The band, indeed, seemed to have reserved itself for a special effort for the occasion, and had seldom been heard to greater advantage. The bandmaster had scarcely filled the programme, concluding with the Maple Leaf, Canada's national anthem, when the thousands assembled round the bandstand uncovered their heads, when round after round cheers rent the air. The Colonials responded by playing "The Sweet Little Shamrock," which was again heartily joined in vocally by the government offers little hope for the situation.

Col. Walker given Ovation. Colonel Walker, the officer commanding, made a brief address, thanking the Dublin people for the great reception accorded to the 15th Light Horse Calgary band—the "baby" regiment amongst Canada's Volunteer Corps. The Colonel was carried shoulder high at the conclusion of his very happy address.

Thousands of People. The assembled crowd, consisting, it is said, of over 30,000 people, waited for Captain Bagley to conclude his speech. Crowding over the rails of the band stand they seized him, and carried him off bodily. During his progress from the band stand to his dressing room one long round of cheers, handshaking and calls for "speech" greeted the conductor of one of the most popular bands the executive authorities of the exhibition had the good fortune to secure.

A TRAIL TO DAWSON.

R. N. W. M. P. Trail through Yukon Capital is Complete.

Ottawa, Sept. 23.—After two years' hard work the Mounted Police have cut an eight-foot trail from Dawson river through the Rocky mountains, giving a route from Edmonton to Dawson City entirely over Canadian territory. Col. Whitehead, of the Mounted Police, this morning received a telegram from Commissioner Perry on the Pacific after a seven hundred mile ride on the trail from Edmonton. The trail has been built to Hazelton, where it joins the trail along the line of the Dawson telegraph and thus continues to the Yukon capital. The trail, besides affording access to an hitherto inaccessible portion of the country, will be useful for the purpose of justice in transporting prisoners who would be able to take advantage of territorial jurisdiction if taken over the usual route of travellers which crosses the American territory.

Athletics. At New York, Ralph Breeze broke the world's record for the 8 1/2 shot, putting it 67 feet, seven inches.

THE BOERS ARE LOYAL TO ENGLAND.

Johannesburg, Sept. 23.—General Botha, the Premier, to-day visited Standerton, where he was welcomed by the municipality.

He declared that he could not adequately express his feelings concerning his recent visit to England. In spirit, Englishmen meant well to the Transvaal. It was a spirit of friendship and brotherhood, and he hoped that the inhabitants of the Transvaal would foster that spirit. He had set himself the task of inducing concord between the two races.

Addressing the school children General Botha said that feelings of suspicion should be dropped on the school benches. All should assist in building up a great nation under the British flag.

At a meeting of his constituents, the Premier stated that he requested the attitude of many members of the Imperial Parliament, and he wished they would allow the Transvaal to mind its own affairs.

Some members of Parliament looked at the people of the Transvaal as their enemies, and it was high time that such a state of affairs should cease. The Transvaal would not allow them to take away one iota of the privileges received. The education bill was a compromise tending to the amalgamation of the two races, which was a great step, and would co-operate with a view to forming a great nation.

Referring to the loan, General Botha said he had told the Imperial Government that it would be impossible to develop the country without such an advance. The Opposition had cried out that a bargain had been struck, but he had discussed the loan in the clearest manner, and there was no question of a bargain.

He was most strongly convinced that Chinese was unnecessary. The information at the disposal of the Government showed that there were thousands and thousands of Kafirs in South Africa in excess of the number required in the mines, and during the last year 20,000 more than were wanted had applied for work, while the Government was receiving applications from thousands of others. The Government intended to cut an end to the registration debts.

After maintaining that the presentation of the Cullinan diamond to the King was most correct, General Botha in an eloquent peroration, made a plea for reconciliation. "We are," he said, "only a small white population, and we must take the hand of brotherhood in the march of progress."

MANUFACTURERS AND GOVERNMENT

Do Not See Alike in Immigration Needs—Big Association Censuring People's Government.

Toronto, Sept. 25.—That the government, Provincial and Dominion, for the labor party's vote was the opinion expressed at a meeting of a parliamentary centre of the Canadian Manufacturers' association, this morning. The manufacturers lay the whole blame for the death of skilled workmen amongst British immigrants on the policy of the government and the labor party. There were many heated remarks when it was pointed out in committee and a report made vocally by the government offers little hope for the situation.

Censure Government Methods. To pay a commission for bringing out laborers, and to refuse to pay for bringing out artisans would indicate that in the opinion of the government the man who digs a ditch is worth more to Canada than the man who builds a house. Secretary T. J. Thorne, of Toronto, said the view taken by the government was that the taxpayers' money should not be used to bring out men who will compete with the man who digs a ditch, or to depend on the labor vote for election.

Quotes Statistics. He said: "Statistics show that there are only 50,000 organized laborers in Canada and the majority of them are not of much consequence." Thorne then reminded the association of how the Trades and Labor convention at Winnipeg censured the C. M. A. for appointing "the notorious Louis Lebold" as its London agent. Their tendency evidently is to restrict incoming skilled artisans to compete with them."

Calgary Priest Issues Warning. Calgary, Sept. 23.—Last evening, Rev. Father Culier delivered the fourth of a series of lectures on the question of labor and the attitude of the church with regard to it.

In the course of his address Father Culier discussed the unity and sacredness of the family relations, and held that after the physical needs of the child, its religious training and education were of equal and pressing importance. Parents should be reminded that it was one of their first duties to educate their children in sound religious doctrine, as well as in the scholastic elements of education. He argued that the state has no direct qualification for imparting religious knowledge no more than the church has for establishing telephones or railways.

The speaker held that the "heaven of socialism" was the bane of the labor situation, and quoted President Hadley, of Yale, to the effect that it was erroneous and demoralizing. The duty of the church was to save the laboring classes from being shivered on the rock of socialism, which could be prevented by adhering to the following principles:

- 1. Inviolability of private property.
- 2. Unity and sacredness of the family.
- 3. Education of children according to the dictates of morality and religion.

The rulers of states, employers of labor, of the wealthy and of the working classes should enter into convention for the desired purpose. Society can only be healed now by the return to Christian life and institutions.

KOREA IS TO REMAIN FREE

Prince Ito Declares Japan Has No Intention of Annexing Korea. Aims Merely at Reforms.

Tokyo, Sept. 25.—Prince Ito, the Japanese resident general of Korea, leaves here tomorrow for Seoul. This morning, immediately before his departure at the palace, he spoke freely of the future of Korea.

During the month that Prince Ito has been in Tokyo, Korea has been his only theme, and the result of his labors is that the emperor and his ministers have given unanimous approval to his programme for a reform administration in Korea, but I am, except in time of war, have the politicians of Japan been so united on one policy.

"It is right," Prince Ito declared, "and therefore must be done. It must succeed if it is possible of human accomplishment."

Opposed to Annexation. Prince Ito has been opposed steadily to the annexation of Korea and this has been approved. He drew up a programme providing for equitable laws, fair system of taxation, the protection of life and property education for every one, and the establishment of a justice department, the stern abolition of corruption. The estimated cost of these reforms to Japan is \$10,000,000 in five years, and this has been approved. It will not become a tax upon the Korean people, but is an investment by Japan.

Continuing, the prince said: "Some people in Japan believe it is a mistake not to annex Korea, but I am convinced that annexation is merely a crude and cruel means of securing the desired friendship and assistance of Korea in order to build up the two countries, whose interests are mutual."

"Annexation is no part of the emperor's plan, and it should be quite unavoidable. Annexation would mean the loss of self-respect by the Koreans; it would be too violent a remedy."

Corruption is to End. "The masses of Korea have been suffering from the political and oppression of the agriculturists until they have become almost moribund, and until all development in the country has been hindered."

"I have no reason not to take my associates and the public into my confidence. I have no desire for secrecy. The 10,000,000 people of Korea will more quickly become the friends of Japan if they are acquainted with the fact that my programme is directed against the worst of the assistance of the poorer classes by means of good land laws, equitable taxation and justice."

"I want the missionaries of America and England to know that I am anxious to help them in their work for a common good, namely, the building up of civilization. But the missionaries should not mix politics, let them be free to preach, and I will confine my energies to mine. It is certain, however, that each of our purposes is the same, and I am convinced that thinking people of the world will approve of Japan's course."

Puts Aside Prejudice. "What matters the color of the skin or the religious belief if we are working for the good of the people? Unthinking people may hamper us, but they will not prevent the attainment of our purpose. We are going ahead in Korea in spite of opposition of any sect or from any country. I concur with the late John Hay, the great American statesman, who said that in diplomacy, as with individuals, honesty is the best policy."

"Japan has not refused to accept assistance they will by their own act receive annexation. In fact, for a nation divided in sentiment from Japan, Korea cannot stand."

We are not asking advice from anyone. If the government of the United States wishes to accept this fair and friendly assistance they will by their own act receive annexation. In fact, for a nation divided in sentiment from Japan, Korea cannot stand."

TO GO TO THE SEAT OF TROUBLE. Federal Government may send Special Commission to Japan to Investigate Immigration Problem.

Ottawa, Sept. 24.—The Dominion government has under consideration the sending of a special commission to Japan to investigate and report upon the whole question of Asiatic immigration into Canada and also to urge personally at Tokio that only about 600,000, be allowed to arrive in Canada yearly. It is felt here that more can be accomplished in this way than by diplomatic correspondence.

Doukhobors Trespassing on C. P. R. Whitehorn, Man., Sept. 25.—Two bands of Doukhobors are here under arrest and confined in a box car. The C. P. R. ordered them to be stopped and put on trial for trespassing. An order came from the attorney-general's department to stay the proceedings and they are awaiting shipment to Winnipeg. Five stalwarts in plain clothes are watching and guarding them at Whitehorn and the stalwarts will be glad when their shipping orders arrive.

Commission for Japan. Ottawa, Sept. 25.—Yorke representative investigated today to learn that the personnel of the Dominion commission to go to Tokyo to fully discuss immigration matters with the Japanese government has not been selected. The government is seriously considering the question, however, and it is almost certain there will be such a commission. It is asserted that Canada's growing trade relations with Japan and British Columbia, and also that personal interviews in the question of restricting immigration to British Columbia to some six hundred Japanese annually would produce better results than can otherwise be obtained.

AFRICAN AFFAIR ENGAGE WINSTON

That Meteoric Young Under-Secretary Sets Out to Inspect African Protectorates.

London, Sept. 24.—Emulating the example set by Jos. Chamberlain in visiting South Africa to get a personal view of the situation after the Boer war, Winston Churchill, under secretary of the colonies, started today on a four months' tour of Great Britain protectorates in Africa. His intention is to go direct to Mombasa, and from there to Nairobi, the headquarters of the Uganda railway, and subsequently to the terminus of the line at Lake Victoria. The return trip will be made by way of the Nile and Khartoum.

Captures Deer After Tussle. St. Albans, Vt., Sept. 25.—As Deputy Sheriff C. A. Emery was driving on the main road a two-year-old buck bounded across the highway, but in attempting to jump a wire fence became entangled in the wires. Emery saw the animal's predicament and made a dash for it, reaching it just as it freed itself. He caught the animal by the horns, and for a few minutes

GROVER CLEVELAND DYING. Ex-President of United States is Slowly Sinking. Princeton, N.J., Sept. 25.—The long shadows are rapidly closing around Grover Cleveland.

These are the anxious days at Westland, the home of the Clevelands here. Mrs. Cleveland and her friends are plainly apprehensive over the condition of their distinguished patient. This is best shown by the summoning of Mrs. Cleveland's mother, Mrs. Perrine Folsom, who arrived from New York, the New York specialist on diseases of the stomach. Dr. Banks declines to discuss other than to say that Mr. Cleveland is doing as well as can be expected.

Doctors Carman and Bryant, who have attended the former president in the past, are still assisting in his care. All of the doctors, however, agree that Mr. Cleveland's condition is such that while he may show temporary improvement, he can never again assume active labor.

Grain Receipts on C. P. R. Winnipeg, Sept. 25.—Grain receipts at points on the C.P.R. lines Monday amounted to 79,000 bushels of wheat and 10,000 bushels of oats. Since Sept. 1 amounted to 692,000 bushels of wheat and 75,000 bushels of other grains.

ARE DEVELOPING OUR COAL LANDS. A. C. Flumerfelt, of Victoria, and H. M. Gale Purchase 7,000 Acres Near Lethbridge.

Victoria, Sept. 25.—A. C. Flumerfelt, of Victoria, and H. N. Gale, of Coleman, Alberta, have started on what is to be a highly important coal mining enterprise, the third to be started in the province. Mr. Flumerfelt is president and Mr. Gale vice-president of the International Coal & Coke Company of Coleman, and occupy the offices of the Alberta Coal Company of Lethbridge. Their third departure consists of a party of four men, including Mr. Flumerfelt, which they recently acquired and which promises to become one of the most valuable in the province.

They are very enthusiastic over the development of this property and are now putting down a bore hole to determine the best location for the permanent shaft and operating plant. The plans for the latter have been prepared and the plant ordered, and it is the expectation that the property will become an important shipper in considerably less than a year's time.

Mr. Gale is very enthusiastic over the property, and says he considers it the best he and his associates have ever taken up.

"We purchased the Barnes mine and 7,000 acres of coal lands adjoining it," said Mr. Gale, in speaking of the property. "The Barnes mine has been operated by Mr. Barnes for a number of years in a very small way, but it is developed sufficiently to prove that we have an excellent coal seam, similar to that of the Alberta Railway and Irrigation Company, which produces the coal used in the province, and also that of the Diamond Coal Co. In fact there is not the slightest doubt that it is the same seam, and is about four and a half feet thick, lying flat, absolutely clean, very hard and coarse, and is one of the best domestic fuels in the country. The coal crops out along the river banks a distance of between four and five miles on our property, and it is therefore not a difficult matter to judge of its extent."

"It is our intention to push development work and install an up-to-date operating plant with all possible expedition. We are now producing from thirty to forty tons a day from the Barnes mine, and we have a boring machine at work to determine the best location for our permanent operating plant. We have also just completed the survey for a railway spur to connect with the C. P. R., which will be about five miles in length, and there is no doubt a large market can be developed in the states of Washington and Idaho. The domestic market in British Columbia does not produce any more than enough to supply the present Canadian market, and with an annual immigration into

INCIPENT WAR IN MOROCCO OVER.

Paris, Sept. 24.—Peace has been declared in Morocco. The delegates of three important tribes have accepted the French peace overtures inaugurated today and will see that the terms of the agreement are carried out. Hostilities are now at an end. The government received with great satisfaction a dispatch from Rear Admiral Philibert, commander of the French navy forces in Morocco, an advice saying that as a result of the conference at Gen. Druade's headquarters between the French navy and military commanders and nineteen caids representing the Oudiseyan, Zenata and Zyada tribes, the three tribes have accepted, unconditionally, the peace terms offered by France.

SNOW FALLING IN LAKE DISTRICT

Michigan is Visited by Snowstorms in September, While Snow Still Lingered Last June.

Duluth, Sept. 24.—Snow fell in varying quantities over the Lake Superior region and vicinity yesterday. There was quite a snow storm at the Vermilion. Reports to that effect are coming from both Tower and Kley. Veleh also reports some snow today. South shore towns, clear to Ishpeming and Marquette, report snow, as do the Keweenaw point towns. The early appearance of snow is emphasized by the late date that it disappeared last spring. There was snow as late as June in forests on the north side of the hills.

Not a Qualified Physician. Winnipeg, Sept. 25.—Magistrate McKieken this afternoon fined "Dr." S. W. Axwell, \$25 and costs for practicing medicine, not being qualified under the Medical act. It was imposed in connection with the "doctor's" treatment of Mrs. Gordon.

FOR THE BOYS. In a boys' suit reliable quality is absolutely necessary—that is why the SANFORD clothing for children has attained such wide and lasting popularity. Our make of Children's Goods is known from the Atlantic to the Pacific. Mothers appreciate their wearing qualities.

W. E. SANFORD Manufacturing Co., Limited HAMILTON WINNIPEG

ABSORBINE will reduce inflamed, swollen joints. It is a safe, speedy and positive cure for Rheumatism, Gout, Sprains, Bruises, Burns, Scalds, Cuts, and all other painful conditions. It is a household necessity. Write for a free descriptive booklet telling why Absorbine is superior. A Martin-Orme Piano will be shipped direct to you if there is no dealer in your vicinity. Prices and terms sent on request to any address. ORME & SON, Limited OTTAWA, ONT.

NOTICE TO CREDITORS, NEXT OF KIN, LEGATEES, DEVISEES AND OTHER CLAIMANTS AGAINST THE ESTATE OF MARGARET STEWART, LATE OF EDMONTON, ALBERTA, DECEASED, WIFE OF ARCHIBALD STEWART OF THE SAME PLACE.

NOTICE IS HEREBY GIVEN BY VIRTUE of an order of the Honorable Mr. Justice Harvey, dated the 16th day of September, 1907, that the creditors and other persons having claims against the estate of the said Margaret Stewart, deceased, are to send in their names and addresses and the particulars of their claims together with a statement of their assets (if any) held by them, verifying the same by statutory declaration, and the names and addresses of their attorneys (if any) to Messrs. Beck, Emery, Newell & Bolton, Edmonton, Alberta, Advocates for the Administrator of the estate of the said Deceased, before the 1st day of November, 1907.

AND TAKE FURTHER NOTICE that after the said 1st day of November, 1907, the Administrator will be at liberty to distribute the assets of the said deceased or any part thereof, amongst the parties entitled thereto, having regard only to the claims of which he has then notice. BECK, EMERY, NEWELL & BOLTON

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Quarters for Married N.C. and men, Winnipeg, Man., will be received at this office until Friday, October 4, 1907, in connection with the construction of Quarters for Married N. C. Officers and men at Winnipeg, Man. Plans and specifications can be seen and forms of tender obtained at this Department and from J. Greenfield, Esq., Dominion Public Works Office, Winnipeg, Manitoba.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures. Each tender must be accompanied by an accepted cheque on a chartered bank made payable to the order of the Honorable the Minister of Public Works, such to be in the sum of \$100.00. The amount of the tender, which will be forfeited if the party tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender be accepted the cheque will be returned. The Department does not bind itself to accept the lowest or any tender.

By order, FRED. GELINAS, Secretary, Department of Public Works, Ottawa, September 10, 1907. Newspapers will not be paid for this advertisement if they insert it without authority from the Department.
