SATURDAY, November 11, 1911.

Give the People What They Want.

On Thursday last, the Daily News indulged in some flights of fancy about the financial side of the Branch Railway building, and we immediately asked the Government to supply some particulars as to costs, and also as to the state of the loan, in order that the people, whose name is taken in vain by the Picnic Party which misrepresents them in the House of Assembly and in the Government might know the facts.

Instead of indulging in generalities, we ask for an itemized financial statement, showing what had been spent in connection with the Bonavista Branch to-date, how much remained unpaid for work done, and we ask also an estimate of the cost of what remained to be done on this branch. We asked also for a statement of what had been paid, the Contractor and others in connection with the Trepansey Branch and the Heart's Content Branch. We ask also for an estimate of what will be left of it? How much of it is it estimated will be left by the end of the year?

There is an impression abroad that the completion of the Bonavista and Trepansey Branches will eat up the whole of the loan. Is that so? Furnish the people with particulars and let them judge for themselves.

The Daily News has already admitted that the Government is out 50 miles in its estimate of mileage and a million and a quarter of dollars in its estimate of the cost of the branches contemplated when the contract was made.

Police Court News.

To-day a drunk was fined \$2 or 7 days. A manufacturer's agent was summoned by the police to-day for selling a brand of cider known as the "Land of Evangeline" which the police alleged to be overproof. Samples were analysed by Mr. Davidson of the Meth. College, and shown to go 2.1 per cent and 2.4. I. G. Sullivan prosecuted and Mr. W. J. Higgins defended. Accused was fined \$50 or 1 month. The case against a resident of Long's Hill for having a dangerous chimney was postponed till 3 p.m. Patrick Dunn summoned a boy named Harold Moore for cruelty to a pig owned by him. He alleges that the boy broke its leg and also otherwise cruelly treated it. Postponed until Monday.

Klark-Urban Co.

ANOTHER CAPACITY HOUSE.

Another big audience assembled at the T. A. Theatre last night to witness the presentation by the Klark-Urban Co. of the fine drama "A Woman's Sacrifice." The company has attained a popularity which none of its predecessors had achieved, and knowing what the public requires they cater to their taste for clean and interesting plays. The drama, which is replete with interesting climaxes and perilous situations, illustrates the devotion of a woman amidst severe trials and persecutions, but through it there was an element of comedy which greatly pleased all present. Miss Lillian, as "Armenia Prunes," imitatively portrayed the character, and Mr. Klark starred as "Joseph Prunes." Messrs. Schreiber, Urban, Penexter, Kenneth and the others handled their respective roles with their wonted ability. The specialties by Robetta, the aerial artist, dancing by Billy Webb, musical selections by Klark, Urban and Schreiber, and vocal selections by Miss Hodgkins were of an excellent character and were much applauded. Next Saturday the company will close its very satisfactory season in St. John's. Thursday next a matinee will be given for the benefit of the city orphanages, and to-night "A Woman's Sacrifice" will be repeated. None should miss it.

Though a great deal has been said about the shipments of green fish to the United States, the S. S. Spica a few days ago took more to the Mediterranean in one consignment than has been sent to Gloucester since the Americans began to buy this year. The belief is that the fishermen would get more for their large and medium fish if they would cure it instead of selling it green, as the stocks of this fish here are very short.

Editor Evening Telegram.
Dear Sir,—Kindly afford me space in your esteemed journal to give expression to the indignation which is felt here over the manner in which Messrs. Woodford and Murphy are allowing the Customs and Post Office to be handled. To say that this Government easily excels all former administrations in the matter of sacrificing public interests for what they deem political expediency is to put it mildly indeed. There never was a greater exhibition of it on this shore than that which has victimized the people of this place during the last six months. This subject has been voiced through the press on more than one occasion, but in order to be fair to the Government the situation was merely explained and a request was made for a remedy. The request has been ignored by Messrs. Woodford and Murphy, though their better conscience
