

**Careless Cruelty.**

MAN WHO SUFFER THROUGH OUR IGNORANCE

Man who suffers through our ignorance is a creature of actual brutality towards animals. It is still all too common, yet the suffering is caused to domestic animals and to pets every day of the week through ignorance on the part of the owners, than by the acts of any committed in a month.

Only the other day the same name across a Persian cat in a miserable condition.

It had been out hunting, and its neck coat was matted with dirt, by nature, is one of the most delicate creatures about its kind. It could not deal with burrs. It never seemed to have occurred to the woman who owned it to use a comb.

Its coat should be brushed at least every other day. If this is not done they get into matted state, a nuisance to themselves and everybody else.

In the case of both dogs and cats, it is necessary, for their health, they have green food. In a nature they eat certain grasses, but they where they cannot get them must be given boiled cabbage something of the sort with food.

It is in a house where it can get green food will jump on a bed and bite at flowers in vases. The usual punishment instead of giving the creature its green food to satisfy a natural appetite, is to punish it with a whip. A handful of oats sprouted in a bowl of water will give dogs or cats the fresh green food they need.

It is necessary for all creatures in confinement is absolute cleanliness. How often do you see rabbits, a batch so unclean, and when you can hardly see their faces, the same happens with guinea pigs. Perhaps it is straining a point to say that.

Guinea pigs are usually kept fairly clean. They frequently suffer from scabies. Not long ago the head of a girl deploring the death of a guinea pig which had taken from her and tried to rear.

When she fed it on, she said it had bread and seeds.

It had no idea that a robin, being a insect eater, cannot live on bread as a bullfinch or linnet.

It is that no one ought to be allowed to keep any live thing without a licence. And that licence should not be issued until the applicant has had the creature, whatever it is, examined by a veterinarian.

**World's Temperance Workers Will Meet in November.**

PHILADELPHIA.—Wearers of the white ribbon of the Women's Christian Temperance Union, representing nearly every nation in the world, will assemble here November 11-16 in the eleventh world convention of their organization. Two great objects of the convention are announced as follows: "The enlistment of every civilized country in the world in the anti-liquor cause, and the development of a determined offensive against the movement to modify or repeal the United States dry amendment and statutes." A prohibition petition which, when rolled up tight, fills seven huge packing cases, and which contains seven million signatures set down in more than 50 languages, will be unrolled and draped about the hall of assemblage in the Philadelphia Academy of Music. Delegates from abroad will come to make a careful study of the methods used by American women to win the country to the prohibition cause and also those used for its enforcement, now that the country is legally dry. The visitors from Finland and Scandinavian countries, whose prohibition has been tried in modified form, will focus their attention on the enforcement phase of prohibition, that being the most troublesome part of their own laws. AND THESE WILL BE INTERESTING.

**Followers of General Petura. SENTENCED TO DEATH.**

KHARKOV.—Twenty insurgents accused of operating under General Petura, during the time he was active against the Soviet government, have been sentenced to be shot. They were tried here by an extraordinary revolutionary tribunal of the Ukraine. Twelve others, all members of the Don Basin partisan committee, charged with anti-Soviet activities, were given prison sentences. Of the 42 persons placed on trial, 18 were acquitted. General Petura himself is said to be in Galicia, outside the jurisdiction of the Bolsheviks.

The Hon. Treasurer of the Methodist Orphanage acknowledges receipt from the Royal Trust Company, of the sum of \$500.00 being bequest to the institution from the Estate of the late Hugh Baird.—Nov. 8

**Our Great Invention.**

MAN WHO GAVE US THE TELEPHONE.

Dr. Alexander Graham Bell, who has recently died, left a monument to his name that remains with us—his invention, the telephone.

He was born at Edinburgh in 1847, and left his native country in his early twenties to sail for America and there struggle for a foothold in the world.

Kindness was his dominant characteristic, and it is not surprising that the children of his brain should be inventions which have only brought benefit and happiness to mankind.

The girl he married was deaf, and the great wish of his life was to invent an apparatus by which she could hear speech.

That did not actually come about, but out of his experiments came the telephone.

But his early experiments with the telephone reduced the scientist to poverty, and, possessing an invention worth millions, he was at first unable to raise the money to finance it.

One man, to whom he offered half interests in the concern if he would only introduce it before the public, gave orders to Bell and his "fool talking machine" came, again, they were to be thrown out.

At last, after many months of effort and desperate struggle, Graham Bell found a man who was willing to take it up, and from that moment the telephone gripped the whole world.

Though he invented the telephone, it is interesting to note that the great scientist, with his love of peace and quiet, would "have none of it" himself.

Never would Graham Bell have a telephone installed in his own home, and an amusing tale is told of how one night at a dinner, when introduced to a lady, she made the remark that though very pleased to make his acquaintance, she sometimes wished he had never been born!

Graham Bell looked at her and laughed.

"I almost agree," he replied, "I hate the beastly thing myself!"

**Prospero Sails.**

The S. S. Prospero sailed for the Northward at 10 a.m. to-day taking a full cargo and the following passengers:—Messrs. H. Morey, J. W. Morgan, Gillette, P. Parsons, M. Phillips, H. Martin, J. Blake, Baggis, O'Brien, A. Parsons, E. G. Coyle, C. Rendell, J. Robertson, Messdames Gillette, Wilcox, Fowlow, McKean, peckford, Misses, Short, House, Dool, Randall, and 20 second class.

**Shipping Notes.**

Receival is due from Halifax New York to-morrow morning.

The Gilbert B. Walters which load-Malacca has cleared for Malacca with 400 tons of goods.

Mr. M. E. Winters is loading a cargo of salt herring at Curling for St. John's.

**Mrs. Awalt Says She Still Feels Just Fine**

That Tanlac is the ideal strength and body builder for elderly people has been specifically proved by the experience of Mrs. Ellen Awalt, 14 Hazle St., Halifax, N.S., who had reached her three score and ten. Mrs. Awalt recently said: "I could not expect to feel better than I do since taking Tanlac. Before I took this medicine I had been trying for years to get rid of stomach trouble. What little food I would eat seemed to stay right in the pit of my stomach. I would have a dull ache in my stomach all during the day and it would not let me sleep at night. I got up mornings tired and nervous and often had severe headaches. Why, at times I was so nervous I could not hold a pen in my hand."

"Soon after I started on Tanlac I had a good appetite, my stomach stopped troubling me and I began to sleep better and gain strength. It was not long until Tanlac built me up to good health and while I have not taken any in some time, I am still feeling fine."

Tanlac is sold by all good druggists.

**Island for Sale.**

The Island of Kollma, belonging to the Hachlo group between Vries Island and the Bonins, is for sale. It has a circumference of between seven and eight miles and boasts of two villages of inhabitants who are mostly farmers and fishers and live chiefly on sweet potatoes. The resources of the island being limited, they are too poor to meet the taxes which are troubling the village assembly. As a way out of the difficulty the assembly has decided to sell the island at the price of 120,000 yen, together with \$8000 year for the fishing rights. It is reported that the inhabitants of Rishima, a neighboring island with a population of 395 persons, also are desirous of selling their island.

For Gentlemen of good taste—Cub Cigarettes.—sept28.11

**A Curious Well.**

The attention of the geological survey has been called to peculiar well in Ohio, and has caused an investigation to be made of it. It appears that the well produces both fresh and salt water, through two separate pumps. The explanation proves to be very simple. Two water bearing beds, confined between layers of limestone, occur at this point, one above the other. The pipe of the fresh water pump taps the upper vein at a depth of 16 feet. The pipe of the salt water pump touches the lower vein at a depth of 85 feet; and the brine, being heavier than the fresh water, does not mix with it, but remains at the bottom.

Don't fail to come to the T.A. Hall on next Tuesday night, big Card Party and Dance, will be held by the T.A. Ladies' Auxiliary. Tickets 50c. Bennett orchestra in attendance.—Nov. 8

**Novel Wire Laying.**

The stringing of telephone wire is ordinarily a quite prosaic matter that rarely arouses more than passing interest in the spectator. In British land, however, the operation is sometimes a rather thrilling process. In that it frequently is necessary to install telephones temporarily at points where there are no permanent facilities, and in such cases, one method employed is to lay the insulated wires directly over the ground by means of a specially designed apparatus which is attached to the axle of a horse, and which automatically unwinds the wire as the horse gallops. Recently a Punjab horseman established a record by laying a line over two miles long in seven minutes.

**Coal Vein is Found Below College Campus**

A seven-foot coal vein has been found on the campus of Rose Polytechnic Institute at Terre Haute, Indiana. It has been announced, according to Philip B. Woodworth, president, the vein is several feet below the new building on the Hulman farm, just east of Terre Haute.

Students of the college will work the mine, it has been decided, and if the fuel proves to be of good quality, it may be used to heat the Rose Poly buildings. A number of students taking a course in mining engineering have enrolled for the work. Sinking of the shaft for the work will take place during the present year.

**Films of France.**

American picture producers are offering to rent historic chateaux at 1,000,000 francs each for a period of 10 years, repairs and upkeep to be paid by the producers. The film men would be able to house all their forces in the rented mansions, thus reducing overhead, and by the time the chateaux were returned to their improvised owners they would have been advertised through thousands of films, and any desired sale should be easily negotiated.—Scientific American.

Tailor and Clothier, 218-233 Duckworth Street

**Style All the While MORE LADIES HATS!**

The last Shipment was right Up-to-the-minute, and went out in a few days.

This Shipment embraces even newer styles.

**AND THE PRICES ARE EXCEEDINGLY LOW.**

Make your call early, as this lot will not last long, and it is likely our last Hat importation for the season.

**HENRY BLAIR**

**Telegram Fashion Plates.**

The Home Dressmaker should keep a Catalogue Scrap Book of our Pattern Cuts. These will be found very useful to refer to from time to time.

**A PLEASANT APRON STYLE.**  
4098. This could be of unbleached muslin with bands of red and black gingham, of black saten with self bands, and cross-stitching for a finish. The Pattern is cut in 3 sizes: Small Medium, and Large. A Medium size requires 2 1/2 yards of 36 inch material. Pattern mailed to any address on receipt of 10c. in silver or stamps.

**A GOOD SERVICE DRESS FOR SLENDER OR STOUT FIGURES.**  
4162. Comfortable fullness and slendering lines mark this desirable model. The back extends over the fronts to form yoke sections to which the fronts are gathered. This is a good style for percale, gingham, gabardine, and flannel. The sleeve may be in wrist length or short, as illustrated.

The Pattern is cut in 7 sizes: 36, 38, 40, 42, 44, 46 and 48 inches bust measure. A 38 inch size requires 6 1/2 yards of 32 inch material. The width at the foot is 2 1/2 yards.

Pattern mailed to any address on receipt of 10c. in silver or stamps.

**A COMFORTABLE HOUSE DRESS IN ONE PIECE STYLE.**  
Pattern 2802 was used for this desirable model. It is cut in 7 sizes: 34, 36, 38, 40, 42 and 46 inches bust measure. A 38 inch size will require 6 1/2 yards of 36 inch material. The width of the skirt at the foot with platts extended is about 2 1/2 yards.

Gingham in check or plaid patterns, striped seersucker, percale, linen, lawn, pongee or flannel would be suitable for this design.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

**A PRETTY FROCK FOR MOTHERS' GIRL.**  
4149. Figured voile and organdy could be combined for this model, or crepe and challis. It is good also for gingham and percale. In crepe do chine or net with self frills or embroidery, it will make a pretty "party" dress.

The Pattern is cut in 4 sizes: 4, 6, 8 and 10 years. An 8 year size requires 3 yards of 40 inch material. For collar and band cuffs of contrasting material 1/2 yard 32 inches wide is required.

Pattern mailed to any address on receipt of 10c. in silver or stamps.

**A SIMPLE "JUNIOR" STYLE.**  
This shows the new "one piece blouse effect." Pattern 3788 was used for this pretty model. It is cut in 3 sizes: 12, 14 and 16 years. A 14 year size will require 3 1/2 yards of 38 inch material.

Gabardine, crepe weaves, prunella, hop sacking, twill, broad cloth, satin, and taffeta also serge and duvetyn will be good for this style.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

**A PRETTY FROCK FOR THE GROWING GIRL.**  
Pattern 3376 is shown in this model. It is cut in 4 sizes: 6, 8, 10 and 12 years. A 10 year size will require 4 1/2 yards of 27 inch material.

Checked or plaid gingham, striped seersucker, percale, serge, velveteen, sateen, challis and taffeta are all attractive for this model. Green and blue plaid with blue facings would be attractive.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.
