

IN the REALMS of SPORT

THIS WEEK'S BOWLING SCHEDULE

Monday, January 12th:
7.30—Job's vs. A. Harvey & Co.
9.00—A. E. Hickman vs. Bowling's

Tuesday, January 13th:
7.30—Winter's vs. Hubley & Co.
9.00—Royal Stores vs. G. P. O.

Wednesday, January 14th:
7.30—H.M. Customs vs. Geo. Neal
9.00—Nail Co. vs. K. Knowling's

Thursday, January 15th:
7.30—Ayres vs. Boot & Shoe Co.
9.00—Harvey's vs. Imp. Tobacco Co.

Friday, January 16th:
7.30—Job Bros. vs. C. A. Hubley
9.00—Bowling Bros. vs. Geo. Neal.

CURLING

At the Curling Ring to-night the Red and White Divisions will compete for the Captains' Prizes. The Red Division teams will play from 7 to 9 o'clock, followed by the Whites from 9 to 11. The players of the respective teams are asked to be on time.

FELDIANS WERE LAST CHAMPIONS.

The Feldians were the hockey championship winners last season, not the Guards, as mentioned in the Globe's issue on Saturday last.

TO-NIGHT'S HOCKEY.

Guards and St. Bon's will clash in opening game.

The opening game of the Newfoundland Amateur Hockey Association, between the Guards and St. Bon's teams, will be ushered in at the Prince of Wales rink to-night, commencing at 7.30 o'clock.

For several weeks past the players of all four teams have been faithful to practice, with the result that very little now is left to choose between them. Therefore, to-night's game and the matches to follow are bound to be keenly fought and highly interesting, and many a strenuous game is predicted in the series for the championship. The players in the line-ups for to-night's game are in excellent condition, and each team is confident of victory. To prevent overcrowding at the rink to-night the doors will be opened at 6.30. This will give everybody a chance to get a good place of advantage. Only a few reserved seats tickets remained undisposed of up to 11 o'clock this morning, and it looks as though a bumper house will witness the opening game. An excellent sheet of ice has been prepared.

The probable line-ups are as follows:

ST. BON'S	GOAL	GUARDS
S. Ryan		C. Currie
E. Phelan	DEFENCE	J. Paterson
G. Hallan		J. Herder
C. Cahill	CENTRE	W. Clouston
W. Skinner	LEFT WING	H. Munn
L. Furlong	RIGHT WING	Whelan
C. Caul	SUBS.	B. Johnston
T. Ryan		A. Rooney
J. Howlett		R. McLeod

HOCKEY LEAGUE APPOINTS OFFICIAL REFEREE.

At a meeting of the Hockey League this morning it was decided to appoint an official referee for the season. The unanimous opinion was that Mr. J. Tobin would be the most suitable man for the job and upon being approached he kindly consented to act.

The League before adjournment passed a resolution, thanking Mr. Tobin for gratuitously offering to act in the capacity of referee during the season.

N. H. A. RESULTS.

The results of the games as played by teams of the National Hockey League, on Saturday night, are as follows:

N. H. A. Standing To Date.	P.	W.	L.	D.	Pts.
Ottawa 4; Montreal 0	13	8	4	1	17
Boston 3; Canadiens 2	13	8	4	1	17
St. Patrick's 3; Hamilton 1	13	7	5	1	15
	13	6	6	1	12
St. Patrick's 12; 6 7 0 12	13	6	7	0	12
Boston 13 2 11 0 4	13	2	11	0	4

WICKETS FALL IN RAPID SUCCESSION.

Prospects of Big Score For England Against Australia Unfulfilled.

MELBOURNE, Australia, Jan. 5.—(Canadian Press Cable via Renter's)—Prospects of a huge score by England in the first innings of the second cricket test match against Australia were not fulfilled to-day when wickets fell comparatively cheaply after the splendid opening on Saturday by Hobbs and Sutcliffe, the innings closing for 478 runs, or 121 less than were scored by the Australians in their final attempt. Batting in second time late in the afternoon the home players started badly losing three wickets for 88 runs before stumps were drawn for the day.

Hobbs and Sutcliffe, the overnight not-outs, resumed this morning, but

the former was bowled by Malley with the second ball of the day before he had added to his total of 154 runs. Sutcliffe played steadily, however, and carried his score from 123 to 176 before he was bowled by Kelleway. The second wicket fell at 284. Woolley being bowled by Gregory for a "duck." Hearne and Sutcliffe added 21 for the third wicket and then Hendren became associated with the latter taking the score to 373 when Hendren fell a victim to Kelleway. Sutcliffe lost his wicket to the same bowler with the total of 404. He gave a polished display, his defence being very stubborn, yet he forced the play at every opportunity. He was at the wickets for a little over seven hours and hit eighteen boundaries.

The remaining batsmen offered little opposition to the clever Australian bowlers, but Chapman and Tate enlisted play, the young amateur hitting a six and two fours in his 28, while Tate did some hard hitting scoring 24.

Australia made a sensational start in their second innings. Bardsley, opening in with only three runs scored, Arthur Richardson left with only 18 runs on the scoreboard and Ponsford followed at 27. Collins and Taylor by cautious playing carried the score to 63 when play closed for the day. Tate bowled superbly taking the three wickets.

The game was played in glorious weather on a perfect wicket before 33,000 spectators who were keenly disappointed that Hobbs and Sutcliffe failed to break the record first wicket score of 323 held by Hobbs and Rhodes.

The scores:	
Australia, first innings	600
England, first innings	154
Hobbs, c. Malley, b. Kelleway	176
Woolley, b. Gregory	9
Hearne, b. Malley	9
Hendren, c. Oldfield, b. Kelleway	28
Chapman, c. Oldfield, b. Gregory	28
Douglas, c. Collins, b. A. Richardson	8
Tyldesley, c. Collins, b. Gregory	5
Tate, b. A. Richardson	3
Gilligan, not out	17
Strudwick, b. Hartkopf	4
Extras	12
Total	478

ENGLAND REQUIRES 318 TO WIN.

MELBOURNE, Jan. 6.—Gilligan again sent in Hobbs and Sutcliffe to commence the deciding innings of the game, although it was late in the afternoon. The former got in front of a ball by Malley and was given out leg before wicket with the score at 36. His downfall was disappointing as he appeared well set. Strudwick was sent in to play out time and he held his end up until time was called.

The game was played in fine weather before 23,000 spectators on a perfect wicket, but towards the end of the day it showed signs of wear. Receipts totalled £21,999.

The scores:—

Australia, first innings	
England, first innings	478
Australia, second innings	
Collins, b. Hearne	30
Bardsley, lbw, b. Tate	2
A. Richardson, b. Tate	9
Ponsford, b. Tate	4
Taylor, b. Tate	30
V. Richardson, c. Strudwick, b. Hearne	8
Kelleway, c. and b. Hearne	17
Hartkopf, lbw, b. Tate	0
Gregory, not out	36
Oldfield, lbw, b. Hearne	29
Malley, b. Tate	3
Extras	12
Total	250

England, second innings.

Hobbs, lbw, b. Malley	
Sutcliffe, not out	22
Strudwick, not out	5
Extras	15
Total for one wicket	54
Bowling analysis—Tate, 6 wickets for 99; Hearne, 4 for 84; Gilligan, 0 for 40; Tyldesley, 0 for 6; Douglas, 0 for 9.	

CRIQUI MAY MAKE COMEBACK TO RING.

Former World's Featherweight Has Offers From U.S. and South America.

NEW YORK, Dec. 25.—Eugene Criqui, French boxer, once holder of the world's featherweight championship, may again enter the ring. He is quoted in Paris as saying that several offers have reached him from South America as well as from the United States, and although he has accepted none, one still is being considered, and if it turns out to the advantage of Criqui he says that he doubtless will accept.

"I said, after my defeat by Danny Flah, that I was through with boxing," Criqui said, "and I meant it. I still believe that the ring holds no more championships for me, but I am convinced that there are only a very few boxers who are better than I am. While it is true that I could not gain the world's championship, it is equally certain that I could come very close to it. If I can be of service in

the ring I will go back—not as a determined championship contender, but as a boxer and a fighter.

"Under no consideration," the Frenchman continued, "will I put on the gloves again only to stage mere boxing contests. I will go into every battle, if I do return, with the intention of winning that bout and nothing ever will stop me from trying. That is my position in the matter."

Experts in Paris comment on the situation by saying that they do not think Criqui will ever try to stage a comeback. They point out that his wounds, received in the war, plus the buffets of the ring as well as a lingering injury received in an automobile accident, are a little more than his stamina will allow and that while he is keeping in condition all the time he does not have the strength to enter upon a rugged ring career again.

All Fox Show at the Majestic To-Night

The scene in which Betty Boulton is introduced in the William Fox production of "Not A Drum Was Heard," from the story by Ben Ames Williams, presents a young girl fresh from the east, attracted to the door of her home by a pair of wild riding cowboys for a "time." One of them is shooting holes in the blue sky and to the girl's startled inquiry concerning his target, he sweeps a broad sombrero from his head and replies: "I'm shooting at the man in the moon, ma'am."

Which is just part of the picture. But when Miss Boulton graduated from the Sargeant School of Dramatic Art, before her first engagement with Nat Goodwin in "The Merchant of Venice," she went west on a pleasure trip. There was engine trouble at Montana water tank and with a little walk in the light of the rising moon, while repairs were being made.

But let Miss Boulton tell it, as she did to members of the cast after the particular scene was "shot."

"We were half a mile from the train perhaps, when the rattle of shots in the distance came to our ears. We paused and decided it would be wise to turn back. 'But,' she continued, 'we had gone scarcely half of the way when we were overtaken by three of the craziest men I ever heard of saw. They were yelling at the tops of their voices and shooting into the sky.'

"Then suddenly, they quieted and rode close. One of them bared his head and smiled. He was a good looking devil, too. And he was just as polite as he could be. Someone in our party asked him what all the noise was for."

"Well, that's just a way of ours," he replied. "We don't make much noise except when we're on our way to town. But we don't mean no harm," he hastened to add.

"And so," concluded Miss Boulton, "I knew just how to do this part when the men came riding up at top speed, blazing away at the stars."

Then she added: "But in my part, the girl is really a westerner and is not frightened. That part of it is different than my own experience, because I was never more frightened in my life."

Miss Boulton will be seen in "Not A Drum Was Heard," opposite Charles Jones, at the Majestic to-night. Also a scream of a comedy, "Highly Recommended," and a Fox News Reel.

The Revival of Religion

"It is not easy for one man or one woman to all the Albert Hall," says the Daily Express. "There are only a few great singers and violinists who are capable of performing this feat. Few of them can perform it more than once or twice a year. Not one of them could perform it night after night, week after week. In this respect Gipsy Smith is surely unique."

"He is not a singer or a violinist. He is a simple truth of religion in the simplest possible fashion. All sorts and conditions of people flock to hear him gladly. Thus have they flocked in all ages to hear the inspired being with a spiritual message. Thus it was in the days of the Weasleys, of Whitefield, of Moody and Sankey, and of Booth. Thus it is to-day with Gipsy Smith."

"The people are conscious of a spiritual hunger which worldly things do not satisfy. They feel a spiritual pang, which is not alleviated by material amusements. They are simple in their needs and in their longings. By their simplicity we do not mean their ignorance or their illiteracy. There is something in them that asks for more than culture and learning and the most modish pleasures of the mind. Deep below the surface of education there is the desire for spiritual peace and rest and faith. It is this desire which obliterate the artificial barriers of wealth and station and class. All classes are alike in their half-conscious craving for the sustenance of the inner life."

"The secret of all great religious revivals is not intellectual. It is not found in the fine-spun logic of theology or in the cold erudition of apologetics. It is in the heart. The sayings of Jesus go to the heart because they are simple in their reality. Their simplicity is lost in the elaborations of the intellect and in the com-

(From Financial Post, Dec. 26, '24) PULP PAPER EXPANSION AIDS CANADA-NFLD. TRADE.

Sydney.—Because Canadian traffic with Newfoundland, through North Sydney and Port aux Basques, has grown far beyond the capacity of present vessels to handle, the Newfoundland Government has placed with a firm on the Clyde orders and plans for a new \$450,000 steamer for the Cabot Strait run. The new ship will be 265 feet over all, 41 feet beam and 18 feet deep. Besides freight, she will carry 110 saloon and 50 steerage passengers. Pulp and paper developments on the island are largely responsible for the increased traffic with Canada.

CANADA WILL SET NEW RECORD FOR 1925 NEWSPRINT.

Montreal.—Despite the somewhat weaker market for newspaper paper during the current year, Canada has

produced 190,000 tons more newspaper paper in 1924 than in 1923. This represents an addition of \$7,000,000 to the revenue of Canada, most of it derived from the United States, to which the surplus production has been directed.

Newspaper production for the full year will total just under 1,350,000 tons. For 1923, newspaper production of Canada was 1,250,000 tons. The Canadian production will this year be about 125,000 tons below production of newspaper in the U. S., indicating that Canada has not yet caught up with that country in the output of this significant Canadian product.

ST. MAURICE MACHINES SOON TO BE AT CAPACITY.

Montreal.—Both of the new machines of St. Maurice Paper Co. are expected to be running at capacity by the end of the year. One was started up on the 26th of November, and the second went into operation a few days later.

The cost of these machines was financed by the sale of an issue of bonds a few weeks ago.

HOWARD SMITH RECOVERED WHEN DIVIDEND WAS PAID.

Montreal.—Howard Smith Paper Mills declared the usual quarterly dividend on the preferred stock when the directors met on Monday. That the dividend was regarded as in danger was indicated by the previous week's violent break. Much of the ground lost by this stock was recovered this week, although the value of the stock indicates that investors' minds as to whether or not the dividend will be continued beyond this quarter.

The company is expected to benefit from the new price list for papers which shows an advance in many of its lines. The directors are hoping to maintain the dividend until the upward movement comes again in business to remove any question of its payment.—Financial Post, Dec. 26.

low, uncouth fellow rather than a deliberate knave. There is much to be said for the view, and some may be helped to curb their tongues by remembering it."

Talks on Beauty

NO. 8: CURING THE SKIN OF BLEMISHES.

Speaking generally, it is more important to have a good skin than the most perfectly-shaped features. Skin blemishes in addition to detracting from any beauty there may be, seem to attract attention when perhaps the girl concerned is most anxious to avoid it. But the worst part perhaps is that any skin blemish always seems to the unfortunate victim to be about three times as large and noticeable as it actually is.

A girl with a good skin possesses a great asset. There are several classes of good skins—creamy, pale, olive and ivory.

The health of the system always reflects itself in the skin. A perfectly healthy body, free from all disorders, and working well, produces a glowing clear skin. Perfect physical condition is, in fact, the only foundation for such a skin.

The American breakfast of fruit—apple or a little grape fruit—with wholemeal bread and, if necessary, rolled oats, is ideal from this point of view.

A glass of cold water taken before retiring to bed is also beneficial.

Beneficial Baths.

Washing the face in hard water, using unsuitable soap or cosmetics, exposure to severe weather, hot or cold, are all detrimental to a good skin. A teaspoonful of borax, or a little lemon juice, in addition to the well-known oatmeal plan, make good water softeners.

The skin must be kept free from impurities, and a Turkish bath should be taken periodically. To those who have not experienced such a bath before the result will be surprising. Blemishes which are not due to atmospheric impurities may be due to some organic disorder, and medical advice should be taken concerning these in the early stages, if they do not respond to ordinary treatment.

It is far easier to effect a cure of anything whilst in its early stages than when the trouble is of longer standing.

Skin foods are quite advantageous, but must be selected with great care. It is unwise to economise in this direction if by so doing you purchase something which is inferior, and there are many good creams on the market, containing ingredients which cannot do any harm, and which certainly should be of benefit, and which are not at all costly.

The simple rules of health observed for the body should also be adopted in connection with the skin.

Did (sternly): "Where were you last night?"
Said "Oh, just riding around with some of the boys."
Said: "Well, tell 'em not to leave their hairpins in the cap."

Supreme Court

N. Walsh vs. F. Bannikhn.

The hearing of this action which began on Friday and was adjourned on Saturday at 1 p.m. until this morning occupied the attention of Mr. Justice Johnson all the forenoon.

Magistrates Court

Four drunks were discharged.

Two drunks and disorderlies were discharged.

A woman taken in drunk was released on deposit.

A man given in charge by his mother for being drunk and disorderly in her house was ordered to sign bonds for his future good behavior.

A Danish seaman for being drunk and disorderly on board his ship was remanded to the lockup until the vessel is ready to sail.

A lady of the Higher Levels charged with keeping a vicious dog, was ordered to have the beast destroyed.

A non support case between husband and wife was withdrawn.

A case for assault between a domestic and a shop keeper on New Gower Street will be heard before the Magistrate Court to-morrow morning.

"An Arizona Cowboy"

REPEATED IN AID OF FIRE SUFFERERS.

In connection with the repetition of "An Arizona Cowboy" to-morrow night in St. Mary's Hall, on behalf of the Southside fire sufferers, the St. Mary's Dramatic Troupe have been specially fortunate in securing the services of the Prince's Orchestra who have kindly consented to assist such a deserving object. Several members of the Ship's Company of the S. S. Sachem have also offered to render specialties between the acts which in addition to some items from our local artistes will prove to be a very enjoyable undertaking and which will be well worth patronizing. A full house is predicted for the members of the Troupe who are working strenuously for such a laudable cause. The full proceeds are to be handed over to the Fire Sufferers Fund.

Will Take

Sachem's Passengers

Furness Withy & Co. advises that the S.S. Montrose leaving St. John's on Jan. 23rd, will call here en route to Liverpool to take passengers booked by S. S. Sachem. The Montrose, owned by Canadian Pacific Steamships was built in 1922 and is 16,402 tons gross. It is expected the ship will leave here Sunday 26th inst.

Hints on Manicure

WINTER CARES TO AVOID CHILBLAINS.

The question of manicure is very important. It is a profitable investment to pay a visit to an expert manicurist once, and from what she does you can learn how to treat your own nails. The simplest tools are quite suitable, and a nail file should not be too stiff. Manicuring once per week is sufficient to those who have not much leisure, provided, of course, that a little attention is paid to the nails each day, just as the teeth are washed and brushed. The nails should be rubbed over each morning to bring up the polish—always remembering that a too high polish is to be deprecated.

If the skin of the palms of the hands gets too dry—and this is a common condition in winter—massage them with the tips of the fingers dipped previously into olive oil.

Neglect to dry the hands properly causes chapped hands or gives rise to chilblains. Bad circulation is a cause of chilblains. Glycerine and rose-water are good for chapped hands, whilst in the early stage dabbing with vinegar will assist chilblains. Turpentine is also good for these irritating winter troubles.

Unemployment

in Great Britain

Toronto Telegram: Great Britain is at present importing foreign manufactured goods at the rate of twenty-four million pounds per month. There is still great unemployment in Great Britain. Millions of pounds worth of these imported manufactures are commodities that compete directly with English factories. The home market is being flooded with foreign products. French cloth is underselling British cloth in England; Italian boots and leather goods are appearing in London, and Italian printed cottons threaten to drive Lancashire prints from the market unless something is done to reduce the price or otherwise protect the English industries from foreign competition.

Fashions in Flannels

If the male fashion world runs true to form next summer your flannel pair of trousers are going to switch from a creamy white to a lilac hue—perhaps to a pea green. Oxford and Cambridge, which have set many styles for

men, have thus decreed the new scheme. Brown and khaki are no longer men's favorites, but it looks as if lilac will have the day, with the other colors when May comes bud.
