Chicago, Market.

(Reported by Drummond & Goldingham.)

Chicago, Oct., 25.—Wheat conditions were probably never more depressing in the history of our own wheat trade. Stocks are enormous overywhere and constantly increasing at an astonishing rate. Since July 1 there have been marketed at hine primary markets over 120.00,000 bushels in excess of heavy receipts for the same period last year.

Elevator room is getting scarce. Our extension of the preceding week, and yet the amount on passage increased over 2,000,000, which is the same period heavy were for the preceding week, and yet the amount on passage increased over 2,000,000, showing that the Baltic ports are shipping heavyly. Corn and oats show strength, it is said big holders in provisions are good buyet of heavy the provisions by helders excluded his provisions for higher prices.

More Serious Than Expected. It turns out that the damage by last night's fire to the woodworking department of the G. T. R. car shops is much creater than expected, and the authorities say it will amount to nearly \$50,000. The water flooded the expensive machinery and much of it was very badly damaged or utterly ruined. The cost of putting the building in proper repair is also much heavier than was anticipated in the first place. Work in the department will not be wholly stopped, but it will be some time before everything is in running order again. The loss is covered by insurance.
