GERMAN-INSPIRED ARTICLES DENOUNCED

All Political Parties United As to Justice of Britain's Cause.

[Canadian Press.]
WASHINGTON, Sept. 21.—The British embassy today announced the receipt of the following from the London foreign office:
"Currency is being given to stories emanating from German sources of utterances unfavorable to the British case by ex-cabinet ministers, Labor members and others in England. These statements are based largely on a speech which Mr. Burns is alleged to have made, but which was an entire fabrication invented in Germany."

"Any Labor members and others who may have suggested that it would have been better for this country to remain neutral, did so as private persons and not as representing any party." Arthur Henderson, now chairman of the Labor party, has made a strong speech in support of the Government. Will Crooks spoke equally strong in a similar sense at Mr. Churchill's meeting on the 11th, and the parliamentary committee of the trade union congress issued a manifesto on Sept. 3 approving the manner in which the Labor party has responded to the appeal made to all political parties to give their co-operation in securing the enlistment of men for the war.

In the case of an old offender, the fine of \$40 for being drunk was imposed by Magistrate Paterson today. The alternative was a month in jail, which he took.

Nursing a grudge while spending a month in jail at Woodstock, a local man returned, as soon as he was liberated, to even up with another citizen at whose home he had boarded. Getting possession of a pair of shoes he had left at the house, he started in to beat the man on the head with one of the shoes. His handiwork was very evident when the case was called in police court. For assault, and being drunk he was sentenced to fourteen days on each charge, the sentences to run concurrently.

NEW YORK, Sept. 22.—A special cable to the World from Rome, dated Monday, says:
"During today's anniversary celebration of the occupation of Rome thousands of persons gathered in front of the British Embassy. Cheering for the British was interspersed with shouts of 'Long live England, Italy's friend!'"

"When a Union Jack was raised near the Embassy, the applause and cheering were renewed, the more enthusiastic Italians tossing their hats into the air. These demonstrations were preceded by a procession of fully 100,000 persons through the principal streets. Every reference to the British and the Allies met with outbursts by the paraders."

GERMANS CONTINUE TO BOMBARD TERMONDE

[Canadian Press.]
LONDON, Sept. 21.—10:00 p.m.—A dispatch to the Central News from Ghent says that the Germans continue the bombardment of Termonde, presumably with the idea of preventing a further Belgian sortie into Antwerp. There have been various skirmishes in and near the villages surrounding the Antwerp positions.

The Germans have entrenched themselves between Hofstade, eighteen miles east of Ghent, and Sempt. The fort of Waelhelm has on several occasions been shelled from these positions.

The Germans have also taken up fortifications at Gembloux and between Wavre and Louvain.

War Will Set Free The German People.

[Canadian Press.]
LIVERPOOL (via London), Sept. 21.—In a speech here tonight, Winston Spencer Churchill, First Lord of the Admiralty, referring to the talk of peace by the German Ambassador to the United States, Count Von Bernstorff, said:
"His vague talk of peace is as insincere as the information of which he is the source. Peace with the German people might be arranged in good time, but there would be no peace with Prussian militarism, short of the grave."

England, said the First Lord of the Admiralty, did not seek to subjugate Germany or Austria or their allies, however, complete her victory might be over them. The worst that could happen to them after the war was that they should be set free to live and live fairly and justly.

DRIVE ENEMY BACK 7 MILES IN 48 HOURS

Result of Desperate Day and Night Fighting
---Counter Attacks Successfully Repulsed,
Says British Press Bureau---Making Appreciable Progress, Say French Officials.

[Canadian Press.]
LONDON, Sept. 21.—7:56 p.m.—The official press bureau announced at 7:45 o'clock this evening:
"Since the last report was received from Gen. French further counter-attacks have been made and successfully repulsed."

PARIS, Sept. 21.—11:10 p.m.—The official communication issued tonight says:
"The engagements today have been less violent. We have made appreciable progress, notably between Rheims and the Argonne."

[Canadian Press.]
ON THE BATTLE FRONT (by way of Paris), Sept. 21.—5:36 p.m.—The western wing of the German line has been thrust back about seven miles during the last 48 hours as a sequel to continuous fighting night and day.

Both armies, despite almost superhuman fatigues, show the utmost determination not to yield an inch of ground without a stern struggle, but the fresher troops at the disposal of the allied commanders have gradually forced the Germans to recede.

DARING FEAT OF TURCOS.
The Turcos are adding daily to their record of daring achievements. Late last night in a costly bayonet encounter they broke through the German lines without firing more than a few shots, and recaptured and brought back four field guns, which the French troops had abandoned the previous day. They seemed to disdain the murderous rifle and machine gun fire poured into them, refusing to listen to the officers who tried to keep them under cover.

BAYONET PLAYS BIG PART.
Cold steel again played a considerable part today in the battle of the enormous hosts fighting along the Aisne, the Oise and Woivre. The most remarkable point about the encounters is that the troops scarcely see each other before they actually come hand to hand. The reckless carnage through the machine guns, has almost disappeared and every movement of the attacking and defending troops is carried out with the utmost caution until the moment of actual contact.

GERMANS SUFFER MOST.
The Germans have suffered most in these engagements, for the French troops from Africa and the British infantry are adepts with the bayonet, and they wait warily in the trenches until their adversaries are so close that a quick dash brings them together.

General Joffre, who is enjoying robust health, holds in his hands every phase of the battle. Behind the firing line the commander of the Allies confers daily with the generals in charge of the various allied forces. He has created a feeling of the greatest cheerfulness and confidence among the officers and men by his absolute indifference to political and other influences and by his desire to spare them sacrifices.

COUNTRY BEING REPOPULATED.
The country behind the French army is being rapidly repopulated. Herds of cattle and sheep mingle with supply trains along the roads leading to the north. They are being driven by peasants, women, old men and boys, homeward.

ESTIMATES PASSED IN SASKATCHEWAN HOUSE

Time Extensions Granted C. N. R. and G. T. P. For Construction.

REGINA, Sask., Sept. 21.—In order not to embarrass the Government in dealing with measures purporting to be solely for the amelioration of the present critical financial conditions, the opposition in the provincial house this afternoon allowed the estimates to be passed without urging any serious criticism of any of the items therein.

Among the measures introduced this afternoon was a bill to grant time extensions to the Canadian Northern and Grand Trunk Pacific railways for the commencement and completion of all lines in the province guaranteed by government bonds.

GERMANS ADVISED TO LEAVE TABRIZ, PERSIA

Consul From Berlin Takes Refuge in American Hospital.

PETROGRAD, via London, Sept. 21.—5:20 p.m.—The German consul at Tabriz, Persia, has taken refuge in the American hospital, fearing that he will be attacked by Russians.

It is officially explained that the Russians in Tabriz have been greatly incensed by the alleged provocative attitude of the Germans in Tabriz, including the consul.

The Russian consul, however, took steps to protect the Germans, and a Persian guard was placed in the German consulate. Despite this, an unknown man entered the consulate and threatened the consul there with a revolver. The Germans in Tabriz have been advised to leave the city.

LOSS OF FRIEND MAY CAUSE PRIEST'S DEATH

[Special to The Advertiser.]
WILSON, Sept. 21.—Rev. Father Marcellus, one of the oldest priests of the diocese, was overcome by the effect of the sudden death of Mr. Meunier, and lies seriously ill in Hotel Dieu.

He was seized with a fainting spell on returning from St. Alphonsus Church, where the body of the late pastor lay in state. In a short time he became delirious, and his condition has remained so ever since.

It was reported Monday morning that he had passed a very good night, but owing to his advanced age the prospects for his recovery are not very bright.

Father Marcellus is about 87 years of age and was stationed at River Canada parish for a considerable period. Some few years ago he celebrated his golden jubilee, marking fifty years since he took his ordination vows for the priesthood.

The stricken priest was on very intimate terms with the late Mr. Meunier and was terribly shocked by the sudden demise of the pastor of St. Alphonsus Church.

ALL HORIZON IN FLAMES, SAYS SOLDIER

[Canadian Press.]
BORDEAUX, Sept. 21.—The Temps today prints the following letter received from a friend of its editor. The letter is dated Sept. 9, and says:
"For four days we have been fighting without stopping and sleeping a little that this morning I fell asleep in an automobile, and bursting shells in the road hardly caused me to blink my eyes."

"We are holding our own; but at what cost! All the horizon is in flames; all the villages within 25 miles are burning, and the night sky seems glittering with spectral conflagration."

"The noise is such that one ceases to perceive it. We live in the midst of death today. I owe my life to a miracle, the circumstances of which I am at a loss to explain even now. Two big shells fell on and wrecked the house where I was talking to Gen. Vanotti about the German wounded I had come to fetch. At the first explosion, which crushed the roof, I advised the general to take shelter behind the wall."

"Hardly had I left him when the second shell exploded in the very spot where I had been standing. The whole house burst into flames. Captain A., to whom I had been speaking, fell forward dead, and Colonel B., who was entering the drawing-room, was also killed. I got out of the debris through a window. Reliability

is what a doctor must be assured of in recommending a food or drink. He must know that it is honest, efficient, pure and wholesome.

In cases of nervousness, heart flutter, headache, biliousness, indigestion, etc., where the patient is a tea or coffee drinker, most doctors order: "Quit tea and coffee and use Postum."

Doctors recommend Postum because they know that it is a pure food-drink—absolutely free from the drug caffeine, which makes tea and coffee injurious to most users.

It is significant that thousands of physicians not only recommend, but themselves use

POSTUM

—its worth having been fully demonstrated, not only in the home, but in Sanatoriums, Hospitals and Colleges.

Postum now comes in two forms.

Regular Postum—must be well boiled—15c and 25c packages.

Instant Postum—soluble—no boiling—made in the cup with hot water, instantly. 30c and 50c tins.

Both kinds are delicious—cost per cup about the same—sold by Grocers everywhere.
