My friends, vectory was never attained in that way. If it is the defeat of the enemy and the triumph of your principles you wish, the time to co-operate is before, not after the nation's verdict is pronounced. Mr. Fielding criticized Mr. Meighen for not going to the country when he was first made prime minister, instead of holding on until now. He continued that Mr. Meighen's idea of government is at entire variance with the democratic ideas of the present day. His strong-arm methods of government would be suitable for Mexico, where only such a government can survive, but it is hardly suitable for this country.

"The cattle growers did not seem to realize what reciprocity meant until recently, when the Fordney bill was passed by the United States Congress. In reciprocity cattle were on the free list. When Premier Meighen says the United States has raised a barrier against Canadian products he is wrong. Meighen and his party raised this barrier when they defeated reciprocity."

He said that every Tory voted against Mr. Fielding criticized Mr. Meighen

Doubtless if you are a sufferer from indigestion, you have already tried pepsin, pan-creatin, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief. But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisurated magnesia—not the ordinary commercial carbonate, citrate, or milk, but the pure bisurated magnesia, which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. Why Night Calls are Popular

OW good it would sound to hear Mother's voice to-night!" he thought—for there were times when he was lonely—mighty lonely in the big city. "If it didn't cost so much I could call her up. Perhaps it dosen't cost as much as I think."

"Long Distance, what will it cost to speak to Number 624 Springville?"

"The day rate for a station-to-station call is 90 cents, but as it is now ten o'clock you can talk for 45 cents. After twelve o'clock the rate is only 25 cents."

"Great!" said John. "Get me No. 624 Springville." Soon the welcome voice was telling him the things he wanted to hear, and before they finished talking a midnight talk for every Wednesday was arranged. Did Mother grudge the little sleep she lost, when Wednesday night came 'round?

Evening and Night Long Distance rates on Station-to-Station calls are a precious boon to thousands seeking an inexpensive and intimate means of promptly reaching dear ones far away. Many travellers arrange to call their homes at stated hours.

And business executives now call their partners, their customers, their salesmen, their superintendents or foremen, at their homes-often by arrangement-profiting by the very low night rates on Long Distance, Station-to-Station calls.
