CAMBRIDGE REFUSES WANTS WITHDRAWAL OF RUHR TROOPS

Gustave Herve Urges That Germany Be Given Chance.

PARIS, Oct. 19 .- The Victoire of aris continues under the signature of its editor, Gustave Herve, to urge that Germany be "given a chance." Now that the economic sanctionsns barriers-have been raised in the Ruhr region, he recommends that the military occupation of that region be abolished also. As his opinion had great force in moving the Allied Suths being brought about by the accepteme Council to the first step, it will ance of the Conservative nomination by be interesting to see if they adopt the John Purvis, auctioneer of Holyrood. For us it was a question, that is quite clear, of controlling the three great ports of the Rhine, where the Ruhr coal is shipped in order to include them within the customs barrier and thus more easily control the coal. As we could not include them in the barrier without occupying them

militarily we sent troops there. "It was so much a question," says M. Herve, "of economic sanctions, that it was as a reply to Von Simon's at-titude in the reparations questions that we decided to occupy the coaling ports and to establish a customs bar-

rier simultaneously.
"Now that Chancellor Wirth has acepted the ultimatum, paid the first illion marks, prepared through Herr Rathenau-Loucheur agreement, and that he is endeavoring to make an arrangement with bankers and industrials to obtain the means of paying the second billion of gold marks. there is no reason to continue the oc-cupation of the coal ports of the Ruhr ore than to continue the customs bar-

It's position which we hold on the Rhine the most efficient antacid and stomach by the occupation of the three bridge-heads of Cologne, Colborne and May-ence. With or without these three ports we could occupy the Ruhr district jus as easily, if by chance the reactionarie were to return to power in Germany and if they refused to continue the pay ments begun by Chancellor Wirth. The best proof of this is the facility with which we occupied these three ports in

main in Dusseldorf, Duisberg and Ruhrort, but we have an excellent reason for evacuating these towns. In remaining there we weaken the political situation of Chancellor Wirth, who will con-tinue to be reproached for having ac-cepted the ultimatum and only to have succeeded in having half of the sanc-tions raised. If we depart, we shall consolidate his political situation at the opening of the Reichstag, and provide the republican Germans with an argu-ment in favor of a policy of international appeasement which evidently the

WHAT TO DO FOR STOMACH TROUBLE

Good Advice From One Who Had Suffered Much.

Nine-tenths of all forms of indigestion or so-called stomach trouble are not due to the condition of the stomach at all, but are caused by other in duences. The great contributing cause of indigestion is thin blood, Good blood and plenty of it is required by the stomach to take care of the food. If the blood is thin the stomach func-tions sluggish, food lies undigested, gas WOMEN, MEMBERSHIP forms and causes pains in various parts Instead of getting nour-London, Oct. 20 .- Cambridge Univerishment from the blood the system gets sity today again voted against granting vomen membership in the university, by

Relief from this condition can be obtained by the tonic treatment which Mr. D. Shaw, Mount Stewart, P. E. I., tried and now warmly recommends to others. Mr. Shaw says: "I suffered from indigestion for over four years, and have tried many of the well-known remedies for such troubles, but never obtained more than temporary relie The trouble was aggravated by con-stipation, setting in owing to the stomach failing to do its work, and laxa tives only gave relief to the bowels and left the stomach in worse condi-tion. The result was my blood was growing more and more anaemic. I did not sleep well at night and was growing despondent. I was in this wretched condition when a friend advised me to try Dr. Williams' Pink Pills. I got three boxes, and by the time they were finished there was some change for the better. This greatly encouraged me, and I continued taking the pills for some three months, by which time my tomach was all right again, my blood good, nerves strong, and life was again worth living. My advice to all who suf-fer from stomach trouble is to give Dr. Williams' Pink Pills a fair trial." Farmer, Artisan, Mechanic and Merchant Will Buy Familiar Things They Have Seen

The crops are beginning to roll to the sea board. From these crops alone from \$25,000,000 in Prince Edward Island to \$400,000,000 in the Prairie Provinces will be put in the farmers' purses. The farmer must spend the greater part of the money to provide necessities and luxuries for himself and his family. He must also buy implements, seed and fertilizer for 1922.

Crop money passes on rapidly to mechanic, artisan and merchant, who, like the farmer and his family, will bu 1, and are now buying, goods that are branded, trade-marked and otherwise vouched for by firms well and truly advertised day by day in the newspapers.
