Wants 27 Years Back Alimeny.

Alimony at the rate of \$4 a month since 1866 is what Mrs. Ban Every, a Detroit woman, asked the Chancellor to award her at Osgoode Hall yesterday. Mrs. Van Every's mother was Mrs. Peter Cullen of the city. In 1866 the last named lady secured an interim order for alimony until her suit for separation from her husband came to trial. When the case was finally tried, the judge reserved judgment, and then died. Mrs. Cullen was somewhat discouraged, and did not persist in her action, the order for \$4 a month remaining in force. Four years later Peter Cullen died and left \$4000. The Trust Corporation Company are ad-Wants 27 Years Back Alimony. separation from her husband came to trial. Day opposed it on behalf of the heirs of Peter Cullen; that Peter Cullen; that Peter lived with her for some time, but that she set the bed and the house on fire, and they had to separate.

Mr. Day denied liability on the part the estate on the ground that the action was dead. Judgment was respectively action for their old age, or for those dependent upon them. I was troubled with them for nearly 15 years, and tried almost everything I could hear or think of. Some of them would give me temporary relief, but none would effect a cure. I have now been free from the distressing complaint for nearly 18 months. I hope you will continue to recommend it."

TORONTO LIVE STOCK MARKETS. Receipts at the Western yards to-day were 65 carloads, including 1400 head of sheep and lambs, 1850 hogs and 28 calves. There is very little doing in export cattle,

until after Bradstreet's came out, when a slight reaction took place, the market easing off to 60c. The heavy receipts of wheat is the principal bear factor in our market, and it is claimed that they will run up to railroad capacity until the new year, and perhaps longer. Ourside business very meagre, 20 loads of spring wheat being taken for export to United Kingdom. The Northwest is offering wheat here to-day on better terms than any time on the crop.

Provisions—Pork ensed off a little to-day on continued liberal receipts. Lard and ribs closed a shade firmer.

Wholesale and Retail Agents for Canada. McIntyre & Wardwell (John J. Dixon) received the following despatch from Schwartz, Dupee & Co., Chicago:

There was hardly business enough done in wheat to day to make a market. Cables were higher and fair, and fair export sales reported. The world's shipments were 8, 300,000 bush. The increase in the world's visible, 3,500,000 bush, about half what it was for the preceding week, and 2,000,000 bush less than the corresponding week last year. Clearances from the seaboard were less than 200,000 bush. Northwestern receipts were 1436 cars, over 400 more than a year ago. Primary receipts were 600,000 bush larger than last year. Receipts here were 502 cars; the estimate for to-morrow, 330. These figures do not include a lot that went into private warehouses without being inspected. Dry weather continues, but big receipts seem an offset to anything that comes that is bullish. The Northwest was offering cash wheat to come here on the most favorable terms to day that it has before on the crop.

Corn—Nearby deliveries of corn advanced ½c., Oct. closing at 30%c, May closing where it did last night, 29%c. Charters were 425,000 bush. Receipts were only 342 cars; estimate for to-morrow, 320. The contract stock, 1,900,000 bush, showed a decrease for the week of 750,000 bush. Elevator concerns were the buyers of nearby futures.

Provisions much less active, opening a little lower, and closing a shade higher than yesterday's closing price. There was covering by smaller shorts and buying by pit traders playing for a rally. There is no change in the situation, but the sharp decline in prices of hogs may check receipts somewhat. We would sell the market on any reaction.
