### HOW RHEUMATISM CAN BE OVERCOME

Not by Rubbing, But by Enriching The Blood.

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints. Wet weather or cold weather may start the tortures of rheumatism, but it is not the cause. The cause is in the blood. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh and muscles; these are the symptoms of poison in the blood, which will shortly leave the victim pain racked and helpless. Liniments, hot applications and rubbing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by enriching the blood. This new blood drives out the poisonous impurities, and the rheumatism disappears. If you are suffering from this painful malady, begin the use of Dr. Williams' Pink Pills and see how soon the pain and stiffness of the joints fade away. Among those who have benefited by the use of these pills is Mr. Freeman Irving, Baxter Harbor, N.S., who says:—"Some time ago my blood was in a terrible condition, leaving me very much run down, and with boils breaking out on my body. To add to my misery rheumatism set in, and I not only suffered greatly from the pain, but could only get around with the greatest difficulty. After trying several medicines without much success, I decided to give Dr. Williams' Pink Pills a trial, as they had been warmly recommended to me. I think I used nine boxes altogether, but the results met my every expectation, as both the boils and the rheumatism disappeared. Naturally I feel that I cannot praise the pills too highly."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
