——It is reported that Warden J. P. Roop and family intend shortly moving to New Glasgow, where Mr. Roop will engage in business.

WEDNESDAY, MARCH 13th, 1901. coal at the Cape Breton mines has no doubt set many a householder wondering if after all the Dominion Coal Co.'s industry is the Nutv Shafner. its promotors to the prevince. There is a growing impression that the advantages of a boom in the mining industry have been, and boom in the mining industry have been, and are being, dearly paid for. Since the lease of the Cape Breton areas to the syndicate that now operates them, coal has advanced that now operates them, coal has advanced by the c nearly one hundred per cent. in price, and the price is apparently largely an arbitrary one imposed by mine owners, who have the power of a combine in the control of the out-intended in the N. B. G. A.—Spectator. put of our coal. A few years ago and fuel from the mines was comparatively cheap, and within the reach of even a poor man's house college for thirty-eight years died at his home in Halifax Monday morning. duction of modern methods of mining, which have ensured a vastly increased product, the price is at such a notch that we feel that another turn of the screw will cause a remonstrance from the consumers that will be monstrance from the consumers that will be so widespread and so positive that the grind will cease. The provincial government claims credit for the Cape Breton industry, and points to the increasing revenue from the mines department in support of its contention that a new era of prosperity was inaugurated with the advent of the Dominion Coal Company. In so far as the government revenues pany. In so far as the government revenues are very satisfactory indeed, but if we ex-The royalties paid by the mine owners have been drawn from the pockets of the people mine product. After all, this revenue that Clarence, and Mrs. Gilliatt, of Granville.

—Mr. H. J. Crowe's chimney took occasion to burn out during the heavy gale on some content to pay a price for government and provide a subsidy for public services, but in this case we are also paying a heavy profit on the operations of a capital that will prove merciless in its exactions unless some legislation is forthcoming to curb its greed, or some competition established that will defeat its ends. The government was careful to stipulate, in granting a obarter.

Clarence, and Mrs. Gilliatt, of Granville.

—Mr. H. J. Crowe's chimney took occasion to burn out during the heavy gale on some value of sparks were blown upon adjoining buildings, and for a time there was considerable danger of a fire.

A blaze in Connell's smithy, Sunday morning, did considerable damage to the interior before it was discovered. The fire of the mature of an experimental orchard of a few acres in connection with the School of Horticulture where new varieties may be tested, fruits crossed and hybridized, etc.

In connection with the establishment of each model orchard a plot of worn out land will be selected as an object lesson in restoring the heavy gale on the object was discovered. The fire department was not called out.

The past far days have been a bit arrival. is increasing so rapidly under a new mining

refused to grant the subsidy asked for by the Exhibition Association in support of the an-

portation which were so tallowed in the days of Conservative rule were permitted under the Fielding tarriff. But the reductions were so limited in their scope that they gave very little relief to the consumer, who kept up his complaints, while the persons in Canada interested in maintaining the duty were incessantly at work to prevent any further.

—Mr. J. Wishart Forsyth went to Halifax on Saturday as a volunteer for the South African constabulary. Many of the men who pass the careful examination of the recruiting officers will not be needed as the volunteers exceed the requirements. It is not known yet whether Mr. Forsyth will be among the chosen ones or not.

A successful Missionary Concert was held last Sunday evening in the Baptist church. incessantly at work to prevent any further oncessions. The battle has again begun in the new parliament, and the two parties age more determinedly arrayed against each other than they were before. The Canadian consumer of illuminating oil has to pay prices against the consumer of illuminating oil has to pay prices ranging from a quarter to half as much again as the great question if he can get as satisfactory an article unless he absolutely insists upon a good grade of American oil. Upon the consumers in the martime provinces, in portions of Quebec, in the Northwest, the burden is quite heavy; and the whole country is paying tribute to the owners of oil wells in Ontario, who have had strength enough to make the ministry believe that their interests are paramount to the interests of the great mass of those who have to use the oil. And the burden of the heavy costs of oil in Canada is not only upon the consumers of those who have to use the oil. And the burden of the heavy costs of oil in Canada is not only upon the consumers of those who cannot burn garden the native with a strong hand at once. The tax is unreasonably high. It bears as a general thing on the classes who cannot burn garden the consumers of those who cannot burn garden the proportion in its own party many have the classes who cannot burn garden the classes who cannot burn garden the proportion of the duty, and many of the Conservatives would do the same. It is impossible to concive of any tax reduction that would be more popular or more in accordance with the general opinion is strongly in favoid of the duty, and many of the Conservatives would do the same. It is impossible to concive of any tax reduction that would be more popular or more in accordance with the general opinion is the case.

Northwest Territorles.

Northwest Territorles.

Winnipeg, March 5.—Mr. Haultain, of Regins, Premier of the Northwest Territories, who was in the city today, stated that one of the great issues in the immediate future, so far as the Wess was concerned, was the incorporation of the territories into House.

As to the terms upon which incorporation was desired, the Fremier pointed out the numerous disabilities under which Manitobs came into confederation, and thought that the territories should be given those rights in the way of crown lands, taxation of rail. way lands, etc., of which the province had been deprived, in his opinion, most wrongfully. He favored the combining of all the territories into one province, and thought that from the standpoint of immigration the effect would be most satisfactory.

Mr. and Mrs. F. M. Baker, of St. John, were guests of Mr. and Mrs. J. R. Pudsey on Monday.

Mrs. J. W. Brown and daughter Muriel, arrived home on Saturday, after a five weeks visit in Boston.

Mr. Frank Johnson, of Wolfville, is visiting his brother, Mr. F. H. Johnson, at Carleton's Corner.

Capt. A. E. Crowell, who has been visiting his sister, Mrs. L. R. Miller, several weeks has gone to Halifax.

-It is said there will be no exhibition a

Mrs. J. W. Brown and daughter Muriel, arrived home on Saturday, after a five weeks visit in Boston.

Three measures of great importance to the farmers, dairymen and fruit growers of Nova Scotia were submitted to the Legislature by Premier Murray yesterday afternoon. They were entitled, "An Act to encourage Dairying in Nova Scotia," "An Act to encourage Dairying in Nova Scotia," "An Act to encourage Horticulture," and "An Act respecting the Nova Scotia Herd Book."

Hon. Mr. Murray did not make any remarks in introducing the bills in the house of Assembly, but will explain their provisions fully in the second reading.

To encourage dairying.

What's all right?

Empire Liniment is All Right in style of bottle, label and preparation. We want no protection for it. Everybody is buying a bottle who knows anything about liniment, and everybody who has used it says "it is the best they ever used."

Dr. Barnaby, of Bridgetown, Annapolis county, says he has used it extensively in his practice and it is smoother and better than the justly celebrated Minard's Liniment.

What's all right?

Empire Liniment is All Right
in style of bottle, label and preparation.
We want no protection for it. Everybody is buying a bottle who knows anything about liniment, and everybody who has used it says "it is the best they ever used."

Dr. Barnaby, of Bridgetown, Annapolis to extensively in his practice and it is smoother and better than the justly celebrated Minard's Liniment. Encouragements for armers.

The bill to further encourage dairying in Nova Scotia aims to put Nova Scotia in line with the great dairying countries in Europe such as Denmark and Scotland, where the butter-making art is highly developed. Premier Murray's measure provides for an annual approriation of \$7,000 for the encouraging of dairying in Nova Scotia. Of this sum a part is to be utilized in providing special instructions in dairying. An effort will be made to start schools in various sections of the Province in order to bring about uniform butter making. Competent instructors will be engaged for this purpose. Provision is also made for assisting to equip and provide with plant and machinery any creamery proposed to be established that will annually for five years manufacture not less than 20,000 pounds of butter or 40,000 pounds of cheese.

By way of encouraging horticulture the government proposes to establish experimental orchards in the various counties of the province adapted to fruit growing. One thousand dollars will be annually appropriated for that purpose. The bill introduced by the Premier is based upon the

OPINION OF FRUIT GROWERS that we can raise very much better fruit in fruit is not better is because we do not select

fruit is not better is because we do not select better stock.

The plan in brief provides that the Government shall purchase sufficient first class nursery stock for apple, pear, plum, peach, cherry, apricot and quince trees to plant not more than six acres of orchard in each county of the province.

The Secretary of Agriculture and the Director of Horticulture shall visit each County, in which it is proposed to establish experimental plots and from all farms available select a suitable field of about three acres for an experimental plot, the owner acres for an experimental plot, the owner being competent to carry out instructions and to make the orchard as great a success

An agreement will be made with the owner of the farm whereby the Government shall furnish him with the trees and the fertilizers necessary for the orchards. He will prepare the land and give the trees the best care, the agreement to be binding for a period of ten years. The trees will be planted publicly.

In establishing these model orchards the Government aims to give an object lesson

Government aims to give an object lesson which the fruit growers of the locality may copy with profit. These plots will be established as speedily as possible year by year and in some counties, such as Colchester, there were the transfer of the state o

was careful to stipulate, in granting a charter to the great mining corporation, that a specified quantity should be mined annually; it ought, in view of the monopoly it sanctioned, to have further stipulated that the price of coal be kept within a fair limit.

—The New Brunswick government has refused to grant the subsidy asked for by the

mula fair in St. John, and there is a probability that the exhibition will not be held this year. If the St. John show does not materialize this year, there will be a better chance for Halifax to score a success, though we doubt much if, even under such favorable

Mayor Shafner expects to build a two dian Road, Hants county, about five miles from Shubenacadie, last Sunday, when five young men lined up—three against two—to contain stores on the lower flat and an opera house on the upper.

Horsemen are anxious to see a meeting we doubt much if, even under such favorable circumstances, the Nova Scotia fair would show sufficient receipts to warrant its continuance from a business point of view. The exhibition, as an advertising medium for the exhibition, as an advertising medium for the large.

The help of a many apparently about and an encouragement to the agriw. E. Talrey's "Welcome" before the log goes out. Why not get these two horses and the chief two are at large. The province and an encouragement to the agricultural and manufacturing industries is being overdone. The public treasury is being heavily taxed in the promotion of a scheme that has lost the charm of novelty and is now regarded quite generally as a conception that is being worked out in the interests of the capital city rather than of the province at large. An exhibition every two, or even every three, years would answer the expressed purpose of the present annual fair, and would meet with a heartier appreciation.

The Oil Duties.

The government is vigorously pursued in regard to the duties on coal oil. From the moment that the Liberal party acceded to power hopes have existed that the duty on oil would be materially reduced. There was a reduction of one-sixth of the duty—in other words, from six cents a gallon to five cents—and some facilities in regard to importation which were so callowed in the days of Conservative rule were permitted under the Fielding tarriff. But the reductions have a starding the of the second. There is goes out. Why not get these two horses and sem as a sposable, as the whole of what starday?

The province and an encouragement to the agricultural and manufacturing industries is being working and the tree fant. The province as the body of on an an apparently about thirty years of age, was found a few days go at Burrel's Cove, near Clementeport. It has been ided fine as the body of young Bent who so mysteriously disappeared from Inglisville, the doily night to the Lantz men, who had threatened to shoot in return.

—On Monday evening, March 4th, Mr. H. A. Snow, District Scribe, and a number of other members of the order from Inglisville, with whom Emack and Ettinger had been working, and from whom the Lantz brothers came in contact with Emack and the previous feuds were renewed. Emack was short three times and the previous feuds were renewed. Emack was short three times and the
