Grow Them" is the title of a handsome book just received. It is published by the R. M. Kellogg Co., the famous growers of high grade strawberry plants of Three Rivers, Mich. The book tells you just what and how and when to do everything from the time plants are set until the berries are marketed, and how to handle the plants to make them produce larger crops the second year than they did the first. It also teaches you how to improve plants by selection. The book is handsomely printed, and is a veritable picture book. Everybody interested in strawberry culture, either for market or family use, should have it. Send for a copy of the 1907 edition, but send neither money nor stamps, as the book is free to our readers. Address R. M. Kellogg Co., and tell them you are a reader of THE CANADIAN HORTICULTURIST.

Cannas and Groff's new hybrid gladioli are sold by John A. Campbell, of Simcoe, Ont. A nicely printed catalog tells all about them. Write for it.

By 25 years' selection, cross fertilization and breeding, A. B. Howard & Son, of Belchertown, Mass., have been successful in developing a strain of petunias that possess a richness of color and beauty of marking that is distinctively their own. Howard's new star petunias should be in everybody's collection. Send for his catalog.

The finest catalogs in make-up, printing and illustrations that have reached our office are those from the seed firms of England. That of Sutton & Sons of Reading, Eng., is a work of art. One has pleasure in reading it. All the garden seeds worth growing are listed therein. Canadians who desire the best vegetables and flowers that can be grown will do well to consult Sutton's catalog.

A catalog that is a credit to its publishers is that of Jas. Carter & Co., of 53A Queen Victoria St., London, Eng. The print is large, the cuts are excellent and the whole arrangement is decidedly above the ordinary. There is a character in this catalog that is found in few or none on this side of the Atlantic. Carter & Co. offer the leading varieties of vegetable, flower and lawn seeds from selected stock.

I renew my subscription to THE CANADIAN HORTICULTURIST, as I simply cannot get along without it. It is the best magazine of the kind for the money on this continent; in fact, I think it better for Canadians than *The Garden Magazine* and the subscription to the latter is double that of your magazine. Wishing you every success.—G. H. de B., Toronto.
