A RARE chance for farmers, mechanics and others to increase their income. Having successfully kept bees for the last twenty years I am not now able to attend to so many as formerly. I will now sell or exchange for anything I can use a quantity of bees hives, surplus glass boxes, bee tents, &c., &c., also about 50 empty hives surplus. My hives are considered by experts to be the very best in this country and takes the improved Jones and Langstroth frames. **WM. SNELLGROVE**, Woodstock, Ont.

Bee - Keeping for Profit

Is the title of Dr. Tinker's New Hand Book. It gives his New SYSTEM of the Management of bees complete, telling how to get the largest yields of comb and extracted honey and make the industry of bee-keeping a profitable one. The claim is made that our methods and appliances are of such a nature that it does not pay even the expert bee-keeper to keep bees, except in very favorable localities. The new book tells why these failures occur and how to prevent them, giving the general principles essential to a profitable system. The work should be in the hands of every progressive apiarist. It is well illustrated and will be sent post paid to any address for 25 cents. Do not send stamps. Address **DR. G. L. TINKER**, New Philadelphia, Ohio.
