

the Feast the thirty fourth anniversary of the Foundation of the Institute, eleven adorers of the Precious Blood knelt before the Cross, conspicuously placed over the tabernacle, in their new Sanctuary, and, in union with the angels, adored the Blood in the Eucharistic Chalice. By this first Mass, the eighth Monastery of the Precious Blood was founded.

DOUBLE CURE AT STE ANNE DE BEAUPRE.

Quite a large Pilgrimage arrived from North Bay on August 13th. Among the pilgrims, was a person from Calendar, who had apostatised from the Catholic religion some years previous. It was his first visit to Saint Anne de Beaupré. He went there out of curiosity and, undoubtedly, with the intention of making an attractive voyage. He attended Mass, and Providence willed that he should be the witness of an astonishing cure.

Near him, in the Church, was a man who was lame and impotent in all his members and bed-ridden, who could not rise without the greatest pain. But this poor man was a believer. He had confidence that Saint Ann would cure him. He prayed. Then, after having received Holy Communion, and venerated the relic of Saint Ann, he rose and walked. He was cured.

The apostate had seen all. The miraculous cure had taken place under his own eyes. He remembered, no doubt, the Faith of his childhood, the Religion of his Mother, and his lessons in the little catechism. He rose also, but, like the Prodigal, to go to his Father. The next day he made his confession and communicated. Before his departure, he bought an image of Saint Ann and visited the *Scala Sancta*. We trust that this privileged man will ever retain the remembrance of the favors received and be fervent and grateful in devotion to Saint Ann.
