

The Rural Telephone

NOBODY AT HOME
 BUT THE DOG
 "AND WE'VE COME ALL THIS
 WAY FOR NOTHING"

The above sketch is one of 32 which appear in "Canada and the Telephone," a book intended to illustrate the value of a telephone in the rural home and a copy of which we will send you on application.

It is generally recognized now that a telephone on the farm or in the rural district is of more real value to the subscriber than a telephone is to the man in the city.

Hundreds of localities throughout Ontario have appreciated this and are to-day operating their own telephone systems. A local telephone system changes the complexion of both business and social life in the rural district.

We manufacture telephone equipment in the City of Toronto, and we also handle everything in the way of construction material for the building of a telephone line. Everything we send out is guaranteed as first-class.

Our Canadian made telephone we believe is the superior of anything on the market, and as a Canadian industry we are proud of the fact.

If you are interested in the building of a telephone line or the establishing of a telephone system, write us. Our engineers will gladly furnish full information. Our No. 2 Bulletin tells how to construct and equip rural lines. It will be sent free of charge upon request.

"WHY YES
 WE'LL BE HOME, COME RIGHT OVER."

Canadian Independent Telephone Co. Ltd.

DUNCAN STREET, TORONTO.
