YOUNG MEN who contemplate engaging in business should be thoroughly and practically educated. The advantage of this cannot be over estimated. It has been demonstrated, by long observation, that the young man who has spent six months or a year in the British American Business College will have saved more money, say at the end of three years, than he could have had he been clerking all the time. Besides, he has that thorough training which is indispensable to the successful business man. Students may enter the school at any time. For circular, address THE SECRETARY.
