

MULLER (of Basle, Switzerland, but residing now in England), Eaton Cottage, South Norwood, London, S. E., England.

LEPIDOPTERA.—I wish to obtain any North American specimens of *Phalvinites*, Latr., especially such forms as are likely to be found in southern New Hampshire or Eastern Mass.; any species of *Urapteryx Acidalia*, *Coronia*, *Cularia*, and *Bournia*, will be particularly acceptable. New Canadian species I will describe in the CAN. ENT. I have some 70 specimens of *Hesperia metacomel*, Harris, about equal numbers of both sexes, for exchange.—C. S. MINOT, 39 Court Street, Boston, Mass.

COLEOPTERA.—Species desired from Canada, especially the eastern region; can give in exchange Southern and California forms, as well as those from the New England States.—P. S. SPRAGUE, 227 Broadway, South Boston, Mass.

PHOTOGRAPHS.—An esteemed correspondent writes to us asking, "Is it possible to get up a 'Naturalists' Photo. Exchange Club,' as I am anxious to fill an album with the portraits of my fellow labourer in the field of science?" Should such a thing be practicable, we should be very happy to render any assistance in our power; perhaps some of our correspondents will give us their opinion on the subject. Personally, we should be delighted to fill our album with the *cartes* of all our 'bug-hunting' friends, and should willingly send a copy of our own in return to any who cared to have it.—ED. C. E.

TEXAN INSECTS.—25,000 specimens of insects from Texas, for sale and exchange. G. W. BELFRAGE, Waco, McLennan Co., Texas. Care of Forsgard & Co.

Americana*, *D. varicolor*, *Thelctes Ontario*, *Augustus strigosa*, or almost any exclusively northern species. Correspondence requested.—W. V. ANDREWS, 130 Charlton Street, New York.
