woundeful development is the change in the taste of the people from strong ale to lager beer.

I remember the time very well when in the whole city of Toronto there were only two places where lager been gras regularly sold over the bar, and truth compels me to add that the qualwalk many blocks to renew acquaintity was not such as to lead one to ance with it. Canadians even up to ton years ago used to draw comparisons between American and Canadian lager, to the disadvantage of the latter, but now there is an establishment in this city whose stock will bear the closest comparison with the choicest production of Milwaukee, Cincinnati and St. Louis Breweries.

I don't want to serve up any such thirst producing an article as a dry detailed description of the interior of mammoth modern brewery. The reass of the Sportsman take far more interest the quality of the finished article the leaves the premises for the public use, and I shall therefore merely glide along the surface in my remarks about the great Lager Beer Browery of Messrs. L. Reinhardt & Co. of this city. The head of the big con-cern is Mr. Lothar Reinhardt, but he has his two sons, Lethar Reinhardt, jr, and Arthur A. Reinhardt, associated with him in its management.

Just how much land is covered with

toric gatherings of English turf magnates, Lord Dutham expressed his opinton about the American Jockey. Tod Sloan, very freely, the London Sporting Life reporting him as follows: As to moderate riding, any who

were owners or trainers must know the usual formula for jockeys. The about third or fourth with your horse, pull him back, and wait if anything else goes along. You must do the same, but on no account overdo it. Another favorite instruction is: 'Get off well and pull your horse at the back of someone else's heels.' No doubt this he considered that few of
