

AN ANTISEPTIC DRESSING IN AN ANTISEPTIC PACKAGE PROGRESS IN SURGERY

Has been largely due to antiseptic preparations and aseptic methods. One great want of the surgeon and general practitioner has been a surgical dressing that was thoroughly antiseptic put up in a thoroughly antiseptic container and applicable wherever inflammation was present. Unguentine in the collapsible tube fills this want. Observing physicians will admit that there is danger of contaminating an antiseptic ointment when put up in jars or other containers where a large surface is exposed when the lid or cover is left off or not securely replaced. Acting upon the suggestions of prominent physicians we take pleasure in offering to the profession Unguentine in the collapsible tube which gives an antiseptic dressing put up in a thoroughly antiseptic container.

Its advantages are many. The physician can carry it in his case without danger of soiling either instruments, labels or any of its contents. It is most convenient as the ointment can be easily applied on skin or bandage without the use of a spatula or other instrument and on account of size of the package you can always have the best surgical dressing for minor work with you.

It is the most economical, as it is the least expensive.

The tube holds about 2 ozs. and costs 25 cents. From the numerous letters of commendation we have already received from the profession we feel sure that the friends and users of Unguentine are pleased with this new container.

To introduce Unguentine to you in the collapsible tube we will be pleased to send you, upon request, one tube, free of expense.

THE INORWICH PHARMACAL COMPANY,

SOLE MANUFACTURERS,

NORWICH, NEW YORK.

We invite your attention to our **Alpha Atomizers**. Note the tube in its different views, A B C D.

This tube is simply an air reservoir into which the bulb empties itself. By gradually collapsing it forces the air forward, the full supply of air not being entirely exhausted before the bulb again fills the tubes.

WE CLAIM that our **ALPHA ATOMIZERS** produce an abso-

lutely continuous spray with less labor to the hand than any other single bulb atomizer upon the market. Examine the cut and you will see how simple yet effective it should be.
