Are You Interested in Astronomy ?

REVOLVING PLANISPHERE

Showing the Principal Stars Visible for Every Hour in the Year

PRICE REDUCED TO 50 CTS., BY MAIL, POSTPAID

It is a simple and neat device for astronomical observation. The disc can be set so as to give the exact position of the principal stars any hour in the year. Full directions for the ready use of the Planisphere are printed with each copy. It is the cheapest and most practical device for the study of the stars at home or in the school that has ever been offered.

The Grip Printing and Publishing Co.

201 and 203 YONGE STREET, TORONTO

FIFTH EDITION

OF

Armstrong's
Arithmetical
Problems IN

Senior Classes in Public Schools, and
Candidates for Entrance to High
Schools and Collegiate
Institutes.

This edition contains nearly 600 Problems. The Entrance Papers from JUNE 1880 JUNE 1892, both inclusive, are appended, also the Public School Leaving Examination Papers for 1892. The answers to all the Problems are given. No other work possesses these features.

Read What Teachers and Inspectors Say of it:—

I am highly pleased with your Arithmetical Problems for Senior classes. It suits my Entrance candidates exactly. A book such as this is needed by every Fourth Class pupil.—Geo. KRRE, Head Master M.S., Chatham.

I have just examined your Arithmetical Problems for Senior Classes. The problems are very suitable and the collection must prove very valuable to teachers. I heartily commend it.—G. D. PLATT, B.A., P.S. Inspector, Prince Edward.

After a careful examination of your "Arithmetical Problems for Senior Classes," I find them well graded and very suitable for the purpose intended. The teacher who uses them for home or class work, will save himself a vast amount of labor, and in all probability secure to his pupils much better results.—J. S. DRACON, Inspector, Halton.

I have no hesitation in saying that for the purpose for which it is intended the work is infinitely the best with which I am acquainted. . . . long point, to my idea, is the logical sequence in . . . problems by which the pupil is almost insensibly . . . step by step until he reaches quite a difficult . . . question. The printer, too, has done his work . . . well, and there are but few typographical errors . . . shall certainly recommend every teacher in my . . . orate to use a copy.—J. C. MORGAN, M.A., Ins . . . Barrie.

Price, strongly bound in o . . . 5 cts.
